Essentials of School Education in the United Arab

Emirates The Emirates Center for Strategic Studies and Research, 2012-08-20 This book is based on the proceedings of the Second Annual Education Conference of the Emirates Center for Strategic Studies and Research (ECSSR), entitled “Essentials of School Education in the United Arab Emirates” held on October 3-4, 2011. The Second Annual Education Conference tackled the essentials of school education in the UAE through the examination of various issues including the role of national policies and legislation in developing education systems; the relationship between Emirati society and the education process; domestic and international pedagogical philosophies; fundamentals of teacher training and student development; curricula reform; the role of technology in the advancement of education; and fundamentals necessary to ensure standards of educational excellence in the UAE. This Conference came as a continuation of the vision adopted by the ECSSR that seeks to raise the quality of education, examine future developments and identify obstacles that may impede educational progress in the country. In addition to organizing past seminars, panel sessions and lectures that dealt with educational issues and publishing material on the subject, the ECSSR has formed a strategic outlook specifically for education in the UAE, and the Arabian Gulf region in general, and has undertaken the responsibility of tackling all issues and problems related to this topic. This strategic outlook for education adopted by the ECSSR is inspired by the leadership in the country, which considers advancing education as the engine of national development and seeks to raise the standard of education in the country to be among the five most advanced educational systems in the world. Therefore, the advancement of education, in quantity and quality, has been at the forefront of development in the country in recognition of it being the key to the knowledge economy and guarantees national progress. In addition, the various strategic

development plans drafted by the government depend almost completely on the quality of national education in the coming decades. The sessions of this Conference and the ensuing discussions and comments compiled in this book have highlighted the importance of research and development related to education—a role that the ECSSR proudly undertakes through its unique events, seminars and lectures attended by some of the best minds in the world of education.

Welcome To Ord City Adrian Deans, 2020-08-01 All refugees welcome in Australia! In 2023, Australia reversed its closed border policy and said to the world: 'Welcome! You are free to come to Australia, but you must spend the first seven years in the Temporary Citizenship Zone around the Ord River.' Seven years later, Ord City is a teeming Asian metropolis with 2.5 million people preparing for the First Wave – the first tranche of refugees gaining full citizenship – on Australia Day 2030. But mainstream Australia is passionately divided over Ord City, not least because of the risk of letting in terrorists, and dark political forces are bubbling to the surface. Agent Conan Tooley is sent up to Ord City to look into a routine gangland murder, but finds himself frustrated and confused by the questions that arise at every step. As the days to the First Wave count down, Conan encounters any number of people throwing up obstacles, including The Army of God (a Christian charity active in Ord City); a carload of young people travelling to Ord City for the Illumination Festival the night before the First Wave; and Asif, a deep cell terrorist with a deadly mission. There is also the Shadow Group – mysterious figures who seem to be pulling strings at high levels to achieve some hidden purpose. As the various subplots wind towards the explosive conclusion, the motives and values of all are profoundly challenged. Welcome to Ord City is a satirical crime thriller set against the backdrop of Australia's refugee policy and the malleable populism that characterises the Lucky Country in the C21.

12 Presents Hadford Howell, 2023-07-21 It is December 2019, and preparations for Barbados Prime Minister Jeffrey Motby's annual Christmas reception have been thrown into disarray when a close and dear friend of his dies in a vehicular accident. One week later, another long-term friend dies by drowning. Motby becomes concerned. Was this coincidence, or were his two friends' deaths connected? He is unable to comprehend their untimely deaths and his friendship with them going back over 30 years as Mango Club members. While not strictly a national security matter, Motby quietly asks the Barbados Intelligence Bureau (BIB) to investigate the deaths to see what, if anything, connects either or both deaths to him, his family, or his government. The apparent suicide of a third friend makes the investigation official. BIB operatives and Barbados police officers review the three deaths in different Caribbean countries. Other Mango Club members' lives are also threatened. Can the Chaos Theory help? Are the killings

being made due to anger, envy, jealousy, revenge, or elements of all four of these factors? The Barbados crisis has the potential to ripple across the Caribbean Sea and beyond. Long-held personal secrets are exposed and friendships fray. Only hard work, cooperation, trust, ingenuity, and some luck help in solving the 12 Presents puzzle.

Defeating the Dictators Charles Dunst, 2023-02-02 ' Charles Dunst's deeply researched, timely and powerful book offers a blueprint for how democracies should fight back.' - Sir Kim Darroch 'Remarkable. A thoughtful and perceptive book.' - Rt. Hon. Jeremy Hunt, MP The world is currently experiencing the lowest levels of democracy we have seen in over thirty years. Autocracy is on the rise, and while the cost of autocracy seems evident, it nevertheless remains an attractive option to many. While leaders like Viktor Orbán disrupt democratic foundations from within, autocrats like Xi Jinping and Vladimir Putin do so from abroad, eroding democratic institutions and values and imperilling democracies that appear increasingly fragile. There are even those who, disillusioned with the current institutions in place, increasingly think authoritarianism can deliver them a better life than democracy has or could. They're wrong. Autocracy is not the solution - better democracy is. But we have to make the case for it. We have to combat institutional rot by learning from one another, and, at times, from our rivals. And we have to get our own houses in order. Only then can we effectively stand up for democratic values around the world and defeat the dictators.

No Exit from Pakistan Daniel S. Markey,2013-10-07 This book tells the story of the tragic and often tormented relationship between the United States and Pakistan. Pakistan's internal troubles have already threatened US security and international peace, and Pakistan's rapidly growing population, nuclear arsenal, and relationships with China and India will continue to force it upon America's geostrategic map in new and important ways over the coming decades. This book explores the main trends in Pakistani society that will help determine its future; traces the wellsprings of Pakistani anti-American sentiment through the history of US-Pakistan relations from 1947 to 2001; assesses how Washington made and implemented policies regarding Pakistan

since the terrorist attacks on the United States on September 11, 2001; and analyzes how regional dynamics, especially the rise of China, will likely shape US-Pakistan relations. It concludes with three options for future US strategy, described as defensive insulation, military-first cooperation, and comprehensive cooperation.
