The Enchantments of Technology Lee Bailey, 2010-10-01 In *The Enchantments of Technology*, Lee Worth Bailey erases the conventional distinction between myth and machine in order to explore the passionate foundations concealed in technological culture and address its complex ethical, moral and social implications. Bailey argues that technological society does not simply disenchant the world with its reductive methods and mechanical metaphors, then shape machines with political motives, but is also borne by a deeper, subversive undertow of enchantment. Addressing examples to explore the complexities of these enchantments, his thought is full of illuminating examinations of seductively engaging technologies ranging from the old camera obscura to new automobiles, robots, airplanes, and spaceships. This volume builds on the work of numerous scholars, including Jacques Ellul and Jean Brun on the phenomenological and spiritual aspects of technology, Carl Jung on the archetypal collective unconscious approach to myth, and Martin Heidegger on Being itself. Bailey creates a dynamic, interdisciplinary, postmodern examination of how our machines and their environments embody not only reason, but also desires.

Dwellings of Enchantment Bénédicte Meillon, 2020-10-27

Dwellings of Enchantment: Writing and Reenchanting the Earth offers ecocritical and ecopoetic readings that focus on multispecies dwellings of enchantment and reenchant our rapport with the more-than-human world. It sheds light on the marvelous entanglements between humans and other life forms coexisting with us—entanglements that, when fully perceived, call onto humans to shift perspectives on both the causes and solutions to current ecological

crises. Working against the disenchantment of humans' relationships with and perceptions of the world entailed by a modern ontology, this book illustrates the power of ecopoetics to attune humans to the vibrant matter both within and outside of us. Braiding indigenous with non-indigenous worldviews, this book tackles ecopoetics emerging from varying locations in the world. It underscores the postmodernist, remythologizing processes going on in many ecopoetic texts, via magical realist modes and mythopoeia.

Re-Enchantment James Elkins,David Morgan,2011-01-13 The near-absence of religion from contemporary discourse on art is one of the most fundamental issues in postmodernism. Artists critical of religion can find voices in the art world, but religion itself, including spirituality, is taken to be excluded by the very project of modernism. The sublime, re-enchantment (as in Weber), and the aura (as in Benjamin) have been used to smuggle religious concepts back into academic writing, but there is still no direct communication between religionists and scholars. *Re-Enchantment*, volume 7 in The Art Seminar Series, will be the first book to bridge that gap. The volume will include an introduction and two final, synoptic essays, as well as contributions from some of the most prominent thinkers on religion and art including Boris Groys, James Elkins, Thierry de Duve, David Morgan, Norman Girardot, Sally Promey, Brent Plate, and Christopher Pinney.

The Book of Dragon Steven Brust,2014-07-22 The first seven of Steven Brust's Vlad Taltos fantasy novels have long been in print from Ace Books in a set of three trade paperback omnibuses. Now Tor, publisher of the series from book eight on, continues the series of omnibuses with *The Book of Dragon*, which includes *Dragon* and *Issola*. In *Dragon*, Vlad finds himself in the last place any self-respecting assassin wants to be: the army. Worse, he's in the middle of an apocalyptic battle between two sorcerous armies, and everyone expects him to perform a role that they won't explain. Vlad may kill people for a living, but this is ridiculous. All he's got to rely on are his wits...and a smart-mouthed winged lizard. In *Issola*, Vlad's aristocratic friends Morrolan and Alieria have disappeared, and according to the

eldritch (but affable) Sethra Lavode, they may be in the hands of the Jenoine—the mysterious beings who made the world of the Dragaera Empire and its surroundings, and who may have come from somewhere else. Oh, well, what's life without the occasional cosmic battle with beings who control time and space? Secularism, Identity, and Enchantment Akeel Bilgrami, 2014-04-21

In a rigorous exploration of how secularism and identity emerged as conflicting concepts in the modern world, Akeel Bilgrami elaborates a notion of secular enchantment with a view to finding in secular modernity a locus of meaning and value, while addressing squarely the anxiety that all such notions are exercises in nostalgia.

The Enchanting of Muckulberry Hall Tom Caine, 2020-10-30

A war is being fought between two powerful forces for control of planet earth. It has been raging on and off, for well over two thousand years. And as the centuries have past, neither side has been able to gain an outright victory. Dominant for the last two thousand years, have been the forces of the Dark Ones, and their human allies and slaves. Their objective is to exploit without any limit or regard, the natural resources of the planet. And to the Dark Ones, every living thing on the planet is a resource! As the human-race began to develop, the Dark Ones discovered among these humans, more than enough allies to assist them, in their need to accumulate and destroy. These humans, whose ego's, and lust, for wealth and power, almost match that of the Dark Ones, themselves. Assisting the Dark Ones are savage creatures, creatures that inhabit a parallel world to our own. These creatures, under the control of the Dark Ones, have been coming and going between the two worlds for as long as humankind, has been around.

Legends, myths, and horror stories, began to enter human psychic memory, almost from the very beginning. Stories which included shape changers, humans infected after being bitten, by Lycan or Vampires. Many other creatures, also moved between the two worlds, leaving their own mark, on the human psychic! Those people unfortunate enough to be bitten, and who do not die, develop the ability to change between the two forms, at will. It is summer, 2019. The forces opposed to the Dark Ones and their human allies, are now vastly outnumbered. The majority, of the human population, has up until now, lived in almost complete ignorance of a war, which has raged about them, for millennia. The planet is now under complete siege, global warming, oceans heavily polluted with toxic waste, and plastic. Wilderness areas being destroyed at an unprecedented rate, along with the biggest extinction, of wildlife, since the age of the dinosaurs. We have reached a tipping point, we either destroy the Dark Ones, and their human allies, or we resign ourselves to life on a dying planet. The worlds sanctuaries are under siege. And with the war threatening to become overt, the conflict now risks spilling over into the worlds, general population. The Muckulberry hunters, along with fellow hunters from sanctuaries all over the planet, have their backs to the wall. But news of the coming of a mighty hunter, who has been gifted with tremendous powers, and abilities, having been touched by Gaia, herself! Has bought renewed hope. His coming was foretold over a thousand years before, by the spirit of Muckulberry henge. But has his arrival, come in time for him to fulfil, his destiny Lady Claudia Muckulberry, with the full support of her new champion, and a small army of dedicated hunters, has decided that it's time to finally break, the insane power of the Dark Ones, and their willing human allies. She intends to sever the head from the ravenous

snake, once and for all, therefore restoring sanity, and balance back into the world.

A New English Dictionary on Historical Principles James Augustus Henry Murray, 1919

A Book of Enchantments and Curses Ruth Manning-Sanders, 1976

The Enchantment Of Reason Pierre Schlag, 1998-07-22 *The Enchantment of Reason* is a lively critique of American legal thought and the American legal system’s deification of reason. In an attempt to understand the current malaise of American law and the depressed condition of American intellectual life in general, Pierre Schlag diagnoses what he believes is an epidemic of pathological reliance on the principle of reason. Contending that legal thinkers continually fail

to recognize the aesthetic and ethical prejudices of rationalism, Schlag creates a genealogy that shows how the call to reason has become a manipulative vehicle of power, faith, and prejudice. In examining the fierce resistance to questioning reason's primacy, this renowned critic and professor of American law demonstrates how those who use and study the law perpetuate their own methodological blind spots. Claiming that reason has been endowed with a virtually mystical power to organize social life, Schlag unravels the seemingly rational world of judicial opinions, statutes, doctrines, and legal principles. In the process, he paints a shocking—and sure to be controversial—picture of the chaos and, indeed, violence of the American legal tradition. This bold commentary on the irrationality of reason in American law and legal studies will interest not only legal scholars and philosophers but also serious thinkers across a broad disciplinary spectrum.

The Enchantment of Words Denis McManus, 2010-04-29 Recent years have seen a great revival of interest in Wittgenstein's early masterpiece, the *Tractatus Logico-Philosophicus*. *The Enchantment of Words* is a study of that book, offering novel readings of all its major themes and shedding light on issues in metaphysics, ethics and the philosophies of mind, language, and logic. McManus argues that Wittgenstein's aim in this deeply puzzling work is to show that the 'intelligibility of thought' and the 'meaningfulness of language', which logical truths would delimit and metaphysics and the philosophy of mind and language would explain, are issues constituted by confusions. What is exposed is a mirage of a kind of self-consciousness, a misperception of the ways in which we happen to think, talk and act as reasons why we ought to think, talk and act as we do. The root of that misperception is our confusedly endowing words with a life of

their own: we 'enchant', and are 'enchanted by', words, colluding in a confusion that transposes on to them, and the world which we then see them as 'fitting', responsibilities that are actually ours to bear. Such words promise to spare us the trouble, not only of thinking, but of living. In presenting this view, McManus offers readings of all of the major themes of the Tractatus, including its discussion of logical truth, objects, names, inference, subjectivity, solipsism and the ineffable; McManus offers novel explanations of what is at stake in Wittgenstein's comparison of propositions with pictures, of why Wittgenstein declared the point of the Tractatus to be ethical, of how a book which infamously declares itself to be nonsensical can both clarify our thoughts and require of us that we exercise our capacity to reason in reading it, and of how Wittgenstein later came to re-evaluate the achievement of the Tractatus.

The Re-Enchantment of the West Christopher

Partridge, 2005-01-04 As a book about emergent spirituality in the contemporary West, this book focuses on the nature, evolution and significance of new forms of religion and alternative spiritualities. Part One of the book provides the theoretical background and guides the reader through some of the principal debates. After an overview of the secularization thesis, which argues that the West is becoming increasingly disenchanted, the second chapter turns to the sociological analysis of new religions and alternative spiritualities. Particular attention is given to the ideas of the sociologist of religion Ernst Troeltsch, especially his enigmatic analysis of the emergence of mystical religion, which presciently provides helpful insights into understanding the contemporary alternative religious milieu. Against sociologists such as Bryan Wilson and Steve Bruce, this and the subsequent chapter argues that, rather than being insignificant, new

forms of spirituality are actually proving to be a significant part of Western re-enchantment. Chapter 3 constructs a general theory of the re-enchantment of the West.
