L'Enfant's Legacy Michael Bednar,2006-05-31 Outstanding Academic Title for 2007, Choice Magazine Many American democratic ideals are embodied in the public spaces of its cities, especially in Washington, D.C. In L'Enfant's Legacy architect and scholar Michael Bednar explores the public spaces of the nation's capital, examining the context of the surrounding architecture and the roles of the spaces in the changing functional life of the city. Bednar examines the ways in which L'Enfant's innovative plan of 1791, along with later developments, symbolizes and encourages democratic freedoms and traditions. In the spaces of Capitol Square, citizens expect to encounter their government directly in a dignified setting, a symbolic public forum. On the White House grounds they expect to meet the president where he works and lives. At the National Mall—America's front lawn—citizens exercise their rights of assembly and free speech, as well as play football, eat lunch, and socialize. From historic Lincoln Square, Dupont Circle, and Judiciary Square to the newly developed Freedom Plaza, Pershing Park, and Market Square, Bednar's thoughtful study provides a fresh perspective on the role of public space in the expression of democratic ideals.

Syndromes épileptiques de l'enfant et de l'adolescent - 5eme edition Bureau Michelle,Genton Pierre,Dravet Charlotte,2013-09-11 Un DVD inclus avec des séquences vidéos inédites pour chaque chapitre ! L'épileptologie change, et les approches syndromiques sont maintenant complétées par une approche étiologique fondée sur les progrès considérables en génétique. Une approche purement « électro-clinique » n'est plus adaptée aujourd'hui dans bien des cas. Cette 5e édition du « Guide bleu » fait le point sur les plus récents progrès. Ainsi, la structure du livre a un peu évolué, laissant plus de place aux approches : - physiologiques - épidémiologiques - génétiques -

thérapeutique Néanmoins, la description des syndromes épileptiques reste au cœur de cet ouvrage. La diversité des contributeurs - coordinateurs et auteurs - confère à ce livre des qualités d'objectivité et de sérieux qui en font la réputation depuis maintenant près de 30 ans.

Convention Européenne en Matière D'adoption Des Enfants (révisée) Council of Europe,2008-01-01 The aim of the Convention is to take account of social and legal developments while keeping to the European Convention on Human Rights and bearing in mind that the child's best interests must always take precedence over any other considerations. New provisions are introduced by the Convention. The father's consent is required in all cases, even when the child was born out of wedlock. The child's consent is necessary if the child has sufficient understanding to give it. The Convention extends to heterosexual unmarried couples who have entered into a registered partnership in States which recognise that institution. It also leaves States free to extend adoptions to homosexual couples and same sex-couples living together in a stable relationship. The new convention strikes a better balance between adopted children's right to know their identity and the right of the biological parents to remain anonymous. The minimum age of the adopter must be between 18 and 30, and the age difference between adopter and child should preferably be at least 16 years

ans, le rapport La Situation des enfants dans le monde de l'UNICEF examine le problème des enfants, de la nourriture et de la nutrition, fournissant une perspective actuelle sur un problème en rapide mutation. Malgré les progrès accomplis au cours des deux dernières décennies, un tiers des enfants de moins de 5 ans souffrent de malnutrition, sous la forme d'un retard de croissance, d'une émaciation ou d'un surpoids, tandis que deux tiers sont exposés à un risque de malnutrition ou de faim insoupçonnée en raison de la piètre qualité de leur alimentation. Ces schémas reflètent le triple fardeau de la malnutrition, à savoir la dénutrition, la faim insoupçonnée et le surpoids, qui menace la survie, la croissance et le développement des enfants et des nations. Un système alimentaire dysfonctionnel, qui ne donne pas aux enfants l'alimentation dont ils ont besoin pour grandir en bonne santé, se trouve au coeur de ce problème. Ce rapport fournit des données et des analyses uniques sur la malnutrition au

Quand je suis né, je n'étais pas là... » Ces mots, ce sont ceux de Vincent, 11 ans, lorsqu'il parle de son histoire. À un peu plus de 2 ans, Vincent a été diagnostiqué autiste. Rania Matar: L'Enfant-Femme Lois Lowry,Kristen Gresh,2016 In today's world of endless photographing, tagging, and posting images online, what is a preteen girl's relationship to the camera? Upending assumptions of contemporary digital image-making practices, photographer Rania Matar reframes these young women through her poignant portraits of them, revealing in 'L'Enfant-Femme' how girls between the ages of 8 and 12 interact with the camera and in so doing depicts them in deeply personal and poetic ways. Addressing themes of representation, voyeurism, and transgression, Matar's images remind us of the fragility of youth while also gesturing towards its unbridled curiosity and joy. Candidly capturing her subjects at a critical juncture in the early stages of adolescence, Matar's images convey the confluence of angst, sexuality, and personhood that defines the progression from childhood into adulthood.

New Horizons for Canada's Children/Horizons Nouveaux pour les Enfants du Canada B. W. Heise,1961-12-15 The first Canadian Conference on Children, held in the province of Quebec in October, 1960, was the culmination of several years of planning and of three years' specific study of projects which dealt with existing programmes for children in Canada. Delegates came from provincial and national organizations and the Conference was supported by a large number of

organizations connected with child health, welfare, and education. The programme of the Conference was divided into three sections: plenary sessions, group discussions of the projects, and group discussion of children under three headings: the early years, the middle years, and the transition years. The whole programme covered children from birth to about the age of seventeen. The Proceedings includes the speeches presented at the plenary sessions (by Sir Geoffrey Vickers, Chairman of the Research Committee of the British Mental Health Research Fund; Dr. K.D. Naegle of the University of British Columbia; and Dr. Otto Klineberg of Columbia University); and valuable summaries of discussions by Dr. Murray Ross (York University), Mgr. Irénée Lussier (Université de Montréal), and Dr. N.A.M. MacKenzie (University of British Columbia).

Grand Avenues Scott W. Berg,2008-02-12 In 1791, shortly after the United States won its independence, George Washington personally asked Pierre Charles L'Enfant—a young French artisan turned American revolutionary soldier who gained many friends among the Founding Fathers—to design the new nation's capital. L'Enfant approached this task with unparalleled vigor and passion; however, his imperious and unyielding nature also made him many powerful enemies. After eleven months, Washington reluctantly dismissed L'Enfant from the project. Subsequently, the plan for the city was published under another name, and L'Enfant died long before it was rightfully

attributed to him. Filled with incredible characters and passionate human drama, Scott W. Berg's deft narrative account of this little-explored story in American history is a tribute to the genius of Pierre Charles L'Enfant and the enduring city that is his legacy.
