Henry A. Millon, Vittorio Magnago Lampugnani

Queering Translation History Eva Spišiaková, 2021-06-29 This innovative work challenges normative binaries in contemporary translation studies and applies frameworks from queer historiography to the discipline in order to explore shifting perceptions of same-sex love and desire in translations and retranslations of William Shakespeare's Sonnets. The book brings together perspectives from poststructuralism, queer theory, and translation history to set the stage for an in-depth exploration of a series of retranslations of the Sonnets from the Czech Republic and Slovakia. The complex and poetic language of the Sonnets, frequently built around era-specific idioms and allusions, has produced a number of different interpretations of the work over the centuries, but questions remain as to how the translation process may omit, retain, or enhance elements of same-sex love in retranslated works across time and geographical borders. In focusing on target cultures which experienced dramatic sociopolitical changes over the course of the twentieth century and comparing retranslations originating from these contexts, Spišiaková finds the ideal backdrop in which to draw parallels between changing developments in power and social structures and shifting translation strategies related to the representation of gender identities and sexual orientations beyond what is perceived to be normative. In so doing, the book advocates for a queer perspective on the study of translation history and encourages questioning traditional boundaries prevalent in the discipline, making this key reading for students and researchers in translation studies, queer theory, and gender studies, as well as those interested in historical developments in Central and Eastern Europe. Teaching Information Literacy Concepts Trudi E. Jacobson, 2001

Il bosco bianco Durs Grünbein, 2021-02-11 T00:00:00+01:00 Durs Grünbein è uno dei pochi autori in grado di leggere la Storia attraverso la contemporaneità, con particolare attenzione per l'era digitale e per la crisi morale del suo tempo. La sua poesia e la sua prosa trasmettono un punto di vista unico sulla nostra epoca e ci mostrano come il cambiamento in atto non sia soltanto frutto di una pandemia, ma di un vero e proprio evento umano. Grünbein, il poeta della ex-DDR che ha saputo diventare il poeta dell'Europa unita, si è fatto egli stesso portavoce del cambiamento, come testimoniato dal suo impegno per la causa dei movimenti di Fridays for Future e della rivoluzione promossa da Greta Thunberg. Questo inedito assoluto sancisce il patto del poeta con la città di Milano che nel Trentennale della Caduta del Muro di Berlino gli ha conferito un riconoscimento per il suo impegno nell'abbattere i confini dell'odio e del disumano mediante un'opera di grande impegno civile.

Sex and Difference in Ancient Greece and Rome Golden Mark Golden,2019-07-30 This volume collects and introduces some of the best writing on sexual behaviour and gender differences in ancient Greece and Rome including four chapters newly translated from German and French. For centuries discussions of sexuality and gender in the ancient world, if they took place at all, focussed on how the roles and spheres of the sexes were divided. While men occupied the public sphere of the community, ranged through the Greek and Roman worlds and participated in politics, courts, theatre and sport, women kept to the home. Sex occupied a separate sphere, in scholarly terms restricted to specialists in ancient medicine. And then the subjects were transformed, first by Sir Kenneth Dover, then by Michel Foucault. This book charts and illustrates the extraordinary evolution of scholarly investigation of a once hidden aspect of the ancient world. In doing so it sheds light on fascinating and curious aspects of ancient lives and thought.

Transboundary Harm in International Law Rebecca M. Bratspies,Russell A. Miller,2006-08-14 This book reveals the many harms which flow across the ever-more porous sovereign borders of a globalising world. These harms expose weaknesses in the international legal regime built on sovereignty of nation states. Using the Trail Smelter Arbitration, one of the most cited cases in international environmental law, this book explores the changing nature of state responses to transboundary harm. Taking a critical approach, the book examines the arbitration's influence on international law generally, and international environmental law specifically. In particular, the book explores whether there are lessons from Trail Smelter that are useful for resolving transboundary challenges confronting the international community. The book collects the commentary of a distinguished set of international law scholars who consider the history of the Trail Smelter arbitration, its significance for international environmental law, its broader relationship to international law, and its resonance in fields beyond the environment.

The Gnostics Tobias Churton,1997 The Greek word 'gnosis' means knowledge; the Gnostics themselves used it to refer to the spiritual knowledge they believed would redeem them from what they regarded as the inherent evil of the material universe. As a mystical alternative tradition within Christianity, Gnosticism suffered the hostility of the official church and, as a result, remains largely unknown or misunderstood to this day.

Jesus and the Politics of Roman Palestine Richard A. Horsley,2021-11-11 In Jesus and the Politics of Roman Palestine, Richard

A. Horsley offers one of the most comprehensive critical analyses of Jesus of Nazareth's mission and how he became a significant historical figure. Horsley brings a fuller historical knowledge of the context and implications of recent research to bear on the investigation of the historical Jesus. Breaking with the standard focus on isolated individual sayings of Jesus, Horsley argues that the sources for Jesus in historical interaction are the Gospels and the speeches of Jesus that they include, read critically in their historical context. This work challenges the standard assumptions that the historical Jesus has been presented primarily as a sage or apocalyptic visionary. In contrast, based on a critical reconsideration of the Gospels and contemporary sources for Roman imperial rule in Judea and Galilee, Horsley argues that Jesus was fully involved in the conflicted politics of ancient Palestine. Learning from anthropological studies of the more subtle forms of peasant politics, Horsley discerns from these sources how Jesus, as a Moses- and Elijah-like prophet, generated a movement of renewal in Israel that was focused on village communities. This paperback edition is updated with a new preface, bibliography, and indexes.

The Gawain Poet, 2011 Of the five poems contained in this book, two are acknowledged masterpieces. The plot of Sir Gawain and the Green Knight, an Arthurian romance, brilliantly interweaves elements of suspense and high comedy.

On the Art of Building in Ten Books Leon Battista Alberti, 1991-07-01 De Re Aedificatoria, by Leon Battista Alberti (1404-1472), was the first modern treatise on the theory and practice of architecture. Its importance for the subsequent history of architecture is incalculable, yet this is the first English translation based on the original, exceptionally eloquent Latin text on which Alberti's reputation as a theorist is founded.
