The Last Little Blue Envelope Maureen Johnson, 2011-04-26 Ginny Blackstone thought that the biggest adventure of her life was behind her. She spent last summer traveling around Europe, following the tasks her aunt Peg laid out in a series of letters before she died. When someone stole Ginny's backpack—and the last little blue envelope inside—she resigned herself to never knowing how it was supposed to end. Months later, a mysterious boy contacts Ginny from London, saying he's found her bag. Finally, Ginny can finish what she started. But instead of ending her journey, the last letter starts a new adventure—one filled with old friends, new loves, and once-in-a-lifetime experiences. Ginny finds she must hold on to her wits . . . and her heart. This time, there are no instructions.

After Kim and her husband decide to quit their jobs to travel around the world, they're given a yellow envelope containing a check and instructions to give the money away. Through Ecuador, Peru, Nepal, and beyond, Kim and Brian face obstacles, including major challenges to their relationship. As she distributes the gift to people she encounters along the way she learns that money does not have a thing to do with the capacity to give, but that giving—of ourselves—is transformational.

The Name on the Envelope Michael M. Dowd, 2019-10-18 Name on the Envelope By: Michael M. Dowd Everyone has a story and for Michael M. Dowd his story is one of discovery—about who he is, how his life began, and the many twists and turns that led him to a family he never knew he had. Like most people, he experienced his share of happiness, sadness, pain, and suffering. But unlike most people, part of Michael's life remained a mystery. It wasn't until he embarked on a journey to learn more about his birth mother that Michael began to realize that he spent most of life unaware that he had another family. The Name on the Envelope is about Michael's journey to learn more about his family, but it is also about his reflections on his life and how our experiences shape who we are and who we become.

The Envelope Wilson Crawford, 2002-08 Wilson Crawford, author of *Two Summers Too Hot*, has written his second book entitled *The Envelope*. The Envelope is a story set in Crawford's home state of North Carolina and is about a mysterious envelope and the lives of four people that come in contact with it. Through a richly woven story, Crawford introduces us to four distinctly different people with a vast array of personal problems. Each one seems to have nowhere else to turn when a mysterious envelope with a cryptic message on the outside appears in their lives. What each person does with the envelope's contents and how their lives are changed by it makes for an interesting and compelling story by this new Southern writer.

13 Little Blue Envelopes Maureen Johnson, 2009-10-06 New York Times bestselling author Maureen Johnson's funny, heartbreaking, and utterly romantic tale gets a great new cover! Ginny Blackstone never thought she'd spend her summer vacation backpacking across Europe. But that was before she received the first little blue envelope from Aunt Peg. This letter was different from Peg's usual letters for two reasons: 1. Peg had been dead for three months. 2. The letter included \$1000 cash for a passport and a plane ticket. Armed with instructions for how to retrieve twelve other letters Peg wrote—twelve letters that tell Ginny where she needs to go and what she needs to do when she gets there—Ginny quickly finds herself swept away in her first real adventure. Traveling from London to Edinburgh to Amsterdam and beyond, Ginny begins to uncover stories from her aunt's past and discover who Peg really was. But the most surprising thing Ginny learns isn't about Peg . . . it's about herself. Everything about Ginny will change this summer, and it's all because of the 13 little blue envelopes. Look for the sequel, *The Last Little Blue Envelope*!

Pushing the Envelope Marion Carl, Barrett Tillman, 2014-03-15 First published in 1994, this stirring autobiography of a fighter and test pilot takes readers full throttle through Carl's imposing list of firsts. Beginning with his World War II career, he gained such commendations as first Marine Corps ace, among the first Marines ever to fly a helicopter, and first Marine to land aboard an aircraft carrier. His combat duty included the momentous battles at Midway and Guadalcanal. Not one to rest on his laurels, however, he participated in photoreconnaissance operations over Red China in 1955 and flew missions in Vietnam. In peacetime he gained fame for pushing the envelope as a test pilot, adding the world's altitude and peace records to his wartime feats and becoming the first U.S. military aviator to wear a full pressure suit. Such achievements also led to Carl's being the first living Marine admitted to the Naval Aviation Hall of Honor, as well as the first Marine to be named to the Navy Carrier Aviation Test Pilots Hall of Honor. This very readable memoir is as forthright and compelling as the man it chronicles.

The History of Envelopes Robert H. Ramage,1952

The Little Green Envelope Gillian Sze,2023-08-01 A little green envelope longs to go on a journey. Will it be chosen to deliver Olive’s letter to her far-away friend? Olive’s friend has moved away, and Olive wishes she could visit her. A little green envelope, lost in the bottom of the desk drawer, knows how Olive feels. It, too, wants so much to travel, and imagines zipping up and down conveyer belts and bouncing along in a mail bag, on its way to deliver an important letter. An old postcard reassures that for every occasion, there is an envelope ... but it seems like it will never be the little green envelope’s turn. When Olive’s grandpa suggests writing her friend a letter, the little green envelope hopes and hopes that it will be chosen to carry the letter to its destination — but will it be a perfect fit? A diagram on the endpapers shows how readers can create their own little green envelopes! The Lavender Envelope J.J. Hansen,2017-08-04 The problem was the things I stored down deep started to fester and multiply. They rose up; I pushed them down. They were too deadly to expose, too dirty to air out. If I let even one escape into the light of day, they would all come tumbling out of their carefully sealed envelope and make a mess of this life, no - call it existence, I was trying to hold together. True life belonged to those who didnt hold envelopes stuffed with the terror and horror of a scared sixteen-year-old, turned angry twenty-two-year-old, turned bitter twenty-five-year-old. The thing is, I want to live. - J.J. Hansen As a teenager, author J.J. Hansen steeled her insides every time she walked into her mothers hospital wing. Years later, her poise under pressure earned accolades as she planned her fathers funeral. The Lavender Envelope is the story of what happened when she decided to quit being strong and move forward by going through the past instead of walking away from it. In essays woven with memory and metaphor she depicts the healing process that began when she tore open her envelope and determined to live.

The Black Envelope Norman Manea,2012-04-24 A splendid, violent spring suddenly grips Bucharest in the 1980s after a brutal winter. Tolea, an eccentric middle-aged intellectual who has been dismissed from his job as a high school teacher on moral grounds, is investigating his father's death forty years after the fact, and is drawn into a web of suspicion and black humor.Reading 'The Black Envelope, ' one might think of the poisonous 'black milk' of Celan's 'Death Fugue' or the claustrophobic air of mounting terror in Mr. Appelfeld's 'Badenheim 1939.' . . . Mr. Manea offers striking images and insights into the recent experience of Eastern Europe.--New York Times Book Review

The Ecologies of the Building Envelope Alejandro Zaera-Polo,Jeffrey Anderson,2021-05-11 The Ecologies of the Envelope theorizes the building envelope as a literal embodiment of the social, political, technological, and economic contingencies which have become embedded within it over the last century, analyzing the historical lineages, heroes and villains that helped define the complex material ecologies we see within the envelope today. While the façade is one of the most thoroughly theorized elements of architecture, it is also one of the most questioned since the end of the 19th century. Within the discipline of architecture, the traditional understanding of the façade focuses primarily on semiotic and compositional operations (such as proportional laws and linguistic codes), which are deployed on the building's surface. In contrast to this, our material and environmental theory of the envelope proposes that the exponential development of building technologies since the mid-19th century, coupled with new techniques of management and regulation, have diminished the compositional and ornamental capacities of the envelope in favor of material, quantitative, and technical performances. Rather than producing a stylistic analysis of the façade, we investigate the historical lineages of the performances, components, assembly types, and material entanglements that constitute the contemporary building envelope.
