Transformative Translanguaging Espacios Maite T. Sánchez, Ofelia García, 2021-11-15 This book contributes to the understanding of the transformative power of incorporating translanguaging, the dynamic language practices of bi/multilingual communities, in the schooling of US Latinx children and youth. It showcases instructional spaces in US education where Latinx children's and youths' translanguaging is at the center of their teaching and learning. By centering racialized Latinx bilingual students, including their knowledge systems and cultural and linguistic practices, it transforms the monolingual-white supremacy ideology of many educational spaces. In so doing, racialized bilingual Latinx subjectivities are potentially transformed, as students learn to understand processes of colonization and domination that have robbed them of opportunities to use their entire semiotic repertoire in learning. The book makes a strong theoretical contribution to the field, putting decolonial, post-structuralist understandings of language and bilingualism alongside critical race theory and critical pedagogy.

The Life-Changing Magic of Tidying Up Marie Kondo, 2014-10-14 #1 NEW YORK TIMES BESTSELLER • The book that sparked a revolution and inspired the hit Netflix series Tidying Up with Marie Kondo: the original guide to decluttering your home once and for all. Japanese cleaning consultant Marie Kondo takes tidying to a whole new level, promising that if you properly simplify and organize your home once, you'll never have to do it again. With detailed guidance for determining which items in your house "spark joy" (and which don't), this international bestseller will help you clear your clutter and enjoy the unique magic of a tidy home—and the calm, motivated mindset it can inspire.

Technical Manual United States. War Department, 1945

Dictionary of Spoken Spanish U. S. War Dept, 2013-03-27 This is a complete, unabridged republication of a Dictionary of Spoken Spanish, which was specially prepared by nationally known linguists for the U.S. War Department (TM#30-900). It is compiled from spoken Spanish and emphasizes idiom and colloquial usage in both Castilian and Latin American areas. More than 16,000 entries provide exact translations of both English and Spanish sentences and phrases; as many as 60 idioms are listed under each entry. This is easily the largest list of idiomatic constructions ever published. Travelers, business people, and students who are interested in Latin American studies have found this dictionary their best source for those expressions of daily life and social activity not usually found in books. More than 18,000 idioms are given, not as isolated words that you have to conjugate or alter, but as complete sentences that you can use without change. A 25-page introduction provides a rapid survey of Spanish sounds, grammar, and syntax, with full consideration of irregular verbs. It is especially apt in its modern treatment of phrase and clause structure. A 17-page appendix gives translations of geographical

names, numbers, national holidays for Spanish countries, important street signs, useful expressions of high frequency, and a unique 7-page glossary of Spanish and Spanish-American foods and dishes.

More Than Shelter from the Storm Brian N. Andrews, Danielle A. Macdonald, 2022-08-30 The role of place-making and architecture in mobile cultures The relationship of hunter-gatherer societies to the built environment is often overlooked or characterized as strictly utilitarian in archaeological research. Taking on deeper questions of cultural significance and social inheritance, this volume offers a more robust examination of houses as not only places of shelter but also of memory, history, and social cohesion within these communities. Bringing together case studies from Europe, Asia, and North and South America, *More Than Shelter from the Storm* utilizes a diverse array of methodologies including radiocarbon dating, geoarchaeology, refitting studies, and material culture studies to reframe the conversation around hunter-gatherer houses. Discussing examples of built structures from the Pleistocene through Late Holocene periods, contributors investigate how these societies created a sense of home through symbolic decoration, ritual, and transformative interaction with the landscape. Demonstrating that meaningful relationships with architecture are not limited to sedentary societies that construct permanent houses, the essays in this volume highlight the complexity of mobile cultures and demonstrate the role of place-making and the built environment in structuring their worldviews. Empires of Vision Martin Jay, Sumathi Ramaswamy, 2014-01-29 *Empires of Vision* brings together pieces by some of the most influential scholars working at the intersection of visual culture studies and the history of European imperialism. The essays and excerpts focus on the paintings, maps, geographical surveys, postcards, photographs, and other media that comprise the visual milieu of colonization, struggles for decolonization, and the lingering effects of empire. Taken together, they demonstrate that an appreciation of the role of visual experience is necessary for understanding the functioning of hegemonic imperial power and the ways that the colonized subjects spoke, and looked, back at their imperial rulers. *Empires of Vision* also makes a vital point about the complexity of image culture in the modern world: We must comprehend how regimes of visibility emerged globally, not only in the metropole but also in relation to the putative margins of a world that increasingly came to question the very distinction between center and periphery. Kira y la tormenta de hielo KIRA AND THE ICE STORM Francisco Angulo Lafuente, 2010-12-19 ADVERTENCIA Esta es una novela de ciencia-ficción. Los datos y teorías científicas extraídas de los diarios y cuadernos de trabajo de Agnux, pueden no tener validez en nuestro espacio-tiempo. Los manuscritos de Agnux son mucho más complicados que

este libro. He dedicado muchos años a su estudio y descifrado; pero siempre aparecen nuevos datos ocultos. Son documentos complejos, cifrados en su mayoría. Algunas de sus cartas parecen normales a primera vista, pero bajo su apariencia se ocultan infinidad de mensajes en clave, que desvelan información sobre sus descubrimientos.

Gestión de Grandes Proyectos Urbanos en espacios metropolizados Hurtado Tarazona, Adriana,Miranda Ruiz, Leonel,Hernández Ospina, Mónica,2014-04-22 Este libro analiza las relaciones entre niveles de gobierno; entre entidades territoriales locales y entre el sector público y privado en el proceso de gestión de tres Sistemas Integrados de Transporte Masivo en áreas metropolitanas o conturbaciones de Colombia. Se realiza un análisis comparado de tres casos de estudio: Transmilenio (Bogotá-Soacha), Megabús (Área Metropolitana de Centro Occidente), y Transmetro (Área Metropolitana de Barranquilla). Se reseña los retos de la planificación y gestión del transporte (y en general de los grandes proyectos urbanos) en la escala metropolitana, comparando los territorios que cuentan con autoridad metropolitana con los que no la tienen, examinando las distribuciones particulares de poder entre los agentes de cada caso, y se reflexiona sobre cómo el soporte normativo, institucional e instrumental de gestión urbana facilita u obstaculiza la gestión metropolitana.

The Spacious Word Ricardo Padrón,2021-09-26 The Spacious Word explores the history of Iberian expansion into the Americas as seen through maps and cartographic literature, and considers the relationship between early Spanish ideas of the world and the origins of European colonialism. Spanish mapmakers and writers, as Padrón shows, clung to a much older idea of space that was based on the itineraries of travel narratives and medieval navigational techniques. Padrón contends too that maps and geographic writings heavily influenced the Spanish imperial imagination. During the early modern period, the idea of America was still something being invented in the minds of Europeans. Maps of the New World, letters from explorers of indigenous civilizations, and poems dramatizing the conquest of distant lands, then, helped Spain to redefine itself both geographically and imaginatively as an Atlantic and even global empire. In turn, such literature had a profound influence on Spanish ideas of nationhood, most significantly its own. Elegantly conceived and meticulously researched, The Spacious Word will be of enormous interest to historians of Spain, early modern literature, and cartography.

Writing Islands Elena Lahr-Vivaz,2022-10-25 How contemporary Cuban writers build transnational communities In

Writing Islands, Elena Lahr-Vivaz employs methods from archipelagic studies to analyze works of contemporary Cuban writers on the island alongside those in exile. Offering a new lens to explore the multiplicity of Cuban space and identity, she argues that these writers approach their nation as part of a larger, transnational network of islands. Introducing the term “arcubiélago” to describe the spaces created by Cuban writers, both on the ground and in print, Lahr-Vivaz illuminates how transnational communities are forged and how they function across space and time. Lahr-Vivaz considers how poets, novelists, and essayists of the 1990s and 2000s built interconnected communities of readers through blogs, state-sponsored book fairs, informal methods of book circulation, and intertextual dialogues. Book chapters offer in-depth analyses of the works of writers as different as Reina María Rodríguez, known for lyrical poetry, and Zoé Valdés, known for strident critiques of Fidel Castro. Incorporating insights from on-site interviews in Cuba, Spain, and the United States, Lahr-Vivaz analyzes how writers maintained connections materially, through the distribution of works, and metaphorically, as their texts bridge spaces separated by geopolitics. Through a decolonizing methodology that resists limiting Cuba to a distinct geographic space, Writing Islands investigates the nuances of Cuban identity, the creation of alternate spaces of identity, the potential of the Internet for artistic expression, and the transnational bonds that join far-flung communities. Publication of this work made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities.

Aftershocks of Disaster Yarimar Bonilla, Marisol LeBrón, 2019-09-03 Two years after Hurricane Maria hit, Puerto Ricans are still reeling from its effects and aftereffects. Aftershocks collects poems, essays and photos from survivors of Hurricane Maria detailing their determination to persevere. The concept of aftershocks is used in the context of earthquakes to describe the jolts felt after the initial quake, but no disaster is a singular event. Aftershocks of Disaster examines the lasting effects of hurricane Maria, not just the effects of the wind or the rain, but delving into what followed: state failure, social abandonment, capitalization on human misery, and the collective trauma produced by the botched response.
