*Into Thin Air* Jon Krakauer, 1998-11-12 #1 NATIONAL BESTSELLER • The epic account of the storm on the summit of Mt. Everest that claimed five lives and left countless more—including Krakauer's—in guilt-ridden disarray. A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism. —PEOPLE A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that suggested that a murderous storm was bearing down. He was wrong. By writing *Into Thin Air*, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition. Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated trade paperback edition of *Into Thin Air* includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. I have no doubt that Boukreev's intentions were good on summit day, writes Krakauer in the postscript, dated August 1999. What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients. As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since *Into Thin Air*'s denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored *The Climb*, Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters--a prestigious prize intended to honor writers of exceptional accomplishment. According to the Academy's citation, Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind.

*The Storms* Mike Trueman, 2015-05-01 In August 1979 twenty-seven-year-old Mike Trueman set sail from the south-west coast of Wales, en route to Cornwall. The young army helicopter pilot was helping to move his friend's yacht from Northern Ireland to the south coast of England. But as they sailed out into the Irish Sea, the sky turned progressively darker and the winds gathered pace. Over the next twenty-four hours the two young sailors battled to survive force-10 gales in what became known as the Fastnet disaster and which claimed the lives of fifteen sailors off the coast of Ireland. Almost seventeen years later, Trueman was at Camp 2 at 6,400 metres on Mount Everest as the May 1996 tragedy unfolded high above him. As stricken guides, clients and Sherpas tried to survive the fierce storms which engulfed the upper mountain, Trueman was able to descend and - using his twenty-four years of experience as an officer in the British Army - coordinate the rescue effort from Base Camp. *The Storms* is the remarkable memoir of a British Army Gurkha officer. Trueman, a veteran of twenty expeditions to the Himalaya, gives a candid account of life inside expeditions to the highest mountain in the world. He gives a unique personal perspective on the 1996 Everest storm, as well as on the fateful day in May 1999 when Briton Mike Matthews disappeared high on the mountain after he and Trueman had summited.

*Into Thin Air* Jon Krakauer, 1998-12-01 When Jon Krakauer reached the summit of Mt. Everest in the early afternoon of May 10, 1996, he hadn't slept in fifty-seven hours and was reeling from the brain-altering effects of oxygen depletion. As he turned to begin the perilous descent from 29,028 feet (roughly the cruising altitude of an Airbus jetliner), twenty other climbers were still pushing doggedly to the top, unaware that the sky had begun to roil with clouds... *Into Thin Air* is the definitive account of the deadliest season in the history of Everest by the acclaimed Outside journalist and author of the bestselling *Into the Wild*. Taking the reader step by step from Katmandu to the mountain's deadly pinnacle, Krakauer has his readers shaking on the edge of their seat. Beyond the terrors of this account, however, he also peers deeply into the myth of the world's tallest mountain. What is it about Everest that has compelled so many people--including himself--to throw caution to the wind, ignore the concerns of loved ones, and willingly subject themselves to such risk, hardship, and expense? Written with emotional clarity and supported by his unimpeachable reporting, Krakauer's eyewitness account of what happened on the roof of the world is a singular achievement. From the Paperback edition.

***Touching My Father's Soul*** Jamling T. Norgay, 2002-05-14 In a story of Everest unlike any told before, Jamling Tenzing Norgay gives us an insider's view of the Sherpa world. As Climbing Leader of the famed 1996 Everest IMAX expedition led by David Breashears, Jamling Norgay was able to follow in the footsteps of his legendary mountaineer father, Tenzing Norgay, who with Sir Edmund Hillary was the first to reach the summit of Mount Everest, in 1953. Jamling Norgay interweaves the story of his own ascent during the infamous May 1996 Mount Everest disaster with little-known stories from his father's historic climb and the spiritual life of the Sherpas, revealing a fascinating and profound world that few -- even many who have made it to the top -- have ever seen.

***Into Thin Air*** Jon Krakauer, For use in schools and libraries only. The author describes his spring 1996 trek to Mt. Everest, a disastrous expedition that claimed the lives of eight climbers, and explains why he survived.

*The Climb* Anatoli Boukreev, G. Weston DeWalt, 2015-09-22 Everest, the major motion picture from Universal Pictures, is set for wide release on September 18, 2015.

Read *The Climb*, Anatoli Boukreev (portrayed by Ingvar Sigurðsson in the film) and G. Weston DeWalt's compelling account of those fateful events on Everest. In May 1996 three expeditions attempted to climb Mount Everest on the Southeast Ridge route pioneered by Sir Edmund Hillary and Tenzing Norgay in 1953. Crowded conditions slowed their progress. Late in the day twenty-three men and women-including expedition leaders Scott Fischer and Rob Hall-were caught in a ferocious blizzard. Disoriented and out of oxygen, climbers struggled to find their way down the mountain as darkness approached. Alone and climbing blind, Anatoli Boukreev brought climbers back from the edge of certain death. This new edition includes a transcript of the Mountain Madness expedition debriefing recorded five days after the tragedy, as well as G. Weston DeWalt's response to *Into Thin Air* author Jon Krakauer.

*The Other Side of Everest* Matt Dickinson,2011-10-05 May 1996 began like most other climbing seasons on Mount Everest. The arrival of spring brought the usual pre-monsoon period, with teams of hopeful mountaineers ready to reach for the roof of the world. Among the dozens of climbers were Jon Krakauer and Anatoli Boukreev (who would both later write their own accounts of what followed) and Matt Dickinson. But on May 10, with ten different expeditions strung out along the mountain, the usual turned deadly. Suddenly, the temperature dropped from merely frigid to 40 degrees below zero. A killer storm with howling winds swept in and climbers were soon blinded in white-out conditions. Before it was over, the blizzard would claim a dozen lives, the worst loss of life in the modern history of climbing on Everest. Dickinson, an adventure filmmaker, was part of an expedition challenging the treacherous North Face of Everest, on the Tibetan side. Of the nearly 700 people who have scaled Everest since the first ascent in 1953, barely 230 have managed to ascend via the colder and technically more difficult route up the North Face. In addition to climbing through the storm, which would test him beyond his imagining, Dickinson also filmed the ascent. He and his team watched in awe as violent clouds gathered over the mountain and swept them all up in a frightening white force. Dickinson was a relative novice who had never climbed at this crushing altitude, and the storm preyed on his mind, throwing into question his entire mission. Despite this uncertainty and the treacherous conditions, Dickinson and his partner Alan Hinkes continued their climb, compelled to reach the summit. Dickinson's first-person narrative--the only account of the killer storm written by a climber who was on the North Face--places the reader amid the swirl of the catastrophe, while providing rare insight into the very essence of mountaineering. *The Other Side of Everest* is a portrait of personal triumph set against the most disastrous storm to ever befall the world mountaineering community. Anyone who has ever pushed beyond familiar limits of physical and psychological endurance will cherish this book.

*Left for Dead* Beck Weathers,Stephen G. Michaud,2000-09-21 With a new preface by the author • As featured in the upcoming motion picture *Everest*, starring Jason Clarke, Josh Brolin, John Hawkes, Robin Wright, Emily Watson, Keira Knightley, Sam Worthington, and Jake Gyllenhaal "I can tell you that some force within me rejected death at the last moment and then guided me, blind and stumbling--quite literally a dead man walking--into camp and the shaky start of my return to life." In 1996 Beck Weathers and a climbing team pushed toward the summit of Mount Everest. Then a storm exploded on the mountain, ripping the team to shreds, forcing brave men to scratch and crawl for their lives. Rescuers who reached Weathers saw that he was dying, and left him. Twelve hours later, the inexplicable occurred. Weathers appeared, blinded, gloveless, and caked with ice--walking down the mountain. In this powerful memoir, now featuring a new Preface, Weathers describes not only his escape from hypothermia and the murderous storm that killed eight climbers, but the journey of his life. This is the story of a man's route to a dangerous sport and a fateful expedition, as well as the road of recovery he has traveled since; of survival in the face of certain death, the reclaiming of a family and a life; and of the most extraordinary adventure of all: finding the courage to say yes when life offers us a second chance. Praise for *Left for Dead* "Riveting . . . [a] remarkable survival story . . . *Left for Dead* takes a long, critical look at climbing: Weathers is particularly candid about how the demanding sport altered and strained his relationships."--USA Today "Ultimately, this engrossing tale depicts the difficulty of a man's struggle to reform his life."--Publishers Weekly

*Into Thin Air* Jon Krakauer,2024-01-11 Jon Krakauer's acclaimed account of a disastrous expedition on Mt Everest.

*Death Zone* Matt Dickinson,2011-05-31 It seemed like any other season on Mount Everest. Ten expeditions from around the world were preparing for their summit push, gathered together to try for mountaineering's ultimate prize. Twenty-four hours later, eight of those climbers were dead, victims of the most devastating storm ever to hit Everest. On the North face of the mountain, a British expedition found itself in the thick of the drama. Against all odds, film-maker Matt Dickinson and professional climber Alan Hinkes managed to battle through hurricane-force winds to reach the summit. In *Death Zone*, Matt Dickinson describes the extraordinary event that put the disaster on the front cover of *Time* and *Newsweek*. The desperate attempts of teams on the southern side of the mountain, fatal errors that led to the deaths of three Indian climbers on the North Ridge and the moving story of Rob Hall, the New Zealand guide who stayed with his stricken client, and paid with his life. Based on interviews with the surviving climbers and the first-hand experience of having lived through the killer storm, this gripping non-fiction book tackles issues at the very heart of mountaineering. *Death Zone* is an extraordinary story of human triumph, folly and disaster.

***A Day to Die For*** Graham Ratcliffe,2011-02-03 On the night of 10-11 May 1996, eight climbers perished in what remains the worst disaster in Everest's history. Following the tragedy, numerous accounts were published, with Jon Krakauer's *Into Thin Air* becoming an international bestseller. But has the whole story been told? *A Day to Die For* reveals the full, startling facts that led to the tragedy. Graham Ratcliffe, the first British climber to reach the summit of Mount Everest twice, was a first-hand witness, having spent the night on Everest's South Col at 26,000 ft, sheltering from the deadly storm. For years, he has shouldered a burden of guilt, feeling that he and his teammates could have saved lives that fateful night. His quest for answers has led to discoveries so important to an understanding of the

disaster that he now questions why these facts were not made public sooner. History is dotted with high-profile disasters that both horrify and capture the attention of the public, but very rarely is our view of them revised to such devastating effect.

Climbing High Lene Gammelgaard, Press Seal, 2000-06-20 On May 10, 1996, Lene Gammelgaard became the first Scandinavian woman to reach the summit of Mount Everest. But a raging storm and human error conspired to turn triumph into catastrophe. Eight of her team's climbers, including its renowned leader Scott Fischer, perished in a tragedy that would make headlines around the world. In her riveting account, Gammelgaard takes us from her weeks of determined training to the exhilaration of arriving in Nepal to the arduous climb and deadly storm that forced her and her fellow climbers to huddle throughout the night, hoping to stay alive. Gammelgaard also writes movingly of Everest's awesome beauty; of the passion and commitment required to face the daunting challenge of climbing to high altitudes; and of the complex personal relationships forged in the pursuit of such dangerous ventures. Arlene Blum, author of the classic account of women and mountaineering, *Annapurna: A Woman's Place*, calls *Climbing High* an honest and deeply personal account.

**Left for Dead** Beck Weathers, Stephen G. Michaud, 2001 Recounts Beck Weathers' story of surviving the disastrous 1996 Mount Everest expedition.

*NEVEREST New Insights* Nick Van Der Leek, 2021-06-16 In 2006 freelance photojournalist and amateur climber Nick van der Leek wrote a five page analysis of the 1996 Everest disaster titled *MOUNTAIN MADNESS*, and published in *HEARTLAND* magazine. His distillation was described at the time by *THE CLIMB* co-author, Weston DeWalt, as 'the clearest exposition of the 1996 disaster I have ever seen'. Now, nine years later, having honed his penmanship within the rigors and deceits of the True Crime genre, Nick van der Leek is taking on the Everest narrative once more but with a fresh approach. Compared to his 2006 article, *NEVEREST* is a much larger and deeper analysis of the events leading up to 'the deadliest day on Mount Everest [May 10]'. Van der Leek makes no bones about the purpose of this narrative: We'll be treating the 1996 disaster as a criminal investigation; and the mountain itself as a crime scene. From this unique and fascinating vantage point the reader is dragged back into a deadly 'storm over Everest', one that brings readers and amateur climbers face to face with something more terrifying than the mountain itself. What are the motives of the men climbing the world's tallest mountain? What Van der Leek manages to achieve in *NEVEREST* is to show the naked ambition and base morality of many of the men and women who returned from the dismal heights to a hero's welcome. What if some of them weren't heroes? Using the psychology 'it takes a thief to catch a thief' professional photojournalist and one time climber of Kilimanjaro, Nick van der Leek demystifies the heroism of climbing. The question is whether climbing a real mountain is an authentic process towards growing one's symbolic self, and the question is whether climbing the world's highest mountain means accessing the highest parts of the self. Would we climb that mountain if there were no picture taken at the top? Would we still push for the summit if it meant coming back and not telling a soul? By following the narrative of the *MOUNTAIN MADNESS* team, Van der Leek investigates and cross references what Scott Fischer's mostly American crew and clients did right as opposed to their rivals on Everest: Adventure Consultants [five members of Hall's team died on the mountain including Rob Hall]. As Van der Leek pursues an explanation to account for this incongruity he finds and then mines the golden thread buried within the great mountain. Were the teams locked in a deadly rivalry, or did they just run out of oxygen and time? Was it the weather or human error or the result of something else? What role did hubris play in Everest's deadliest day, and what role does it play in your life?
