A Diffuse Murmur of History Fiona Schouten,2010 After decades of uncomfortable silence, Spain has now started dealing with its violent twentieth-century past. In recent years, a vibrant memory discourse has emerged in Spanish society: the number of films, TV series, newspaper articles, history books, and memorials dedicated to the Civil War of 1936-1939 and the ensuing dictatorship of Franco has increased dramatically. Literature has also played its part in provoking and maintaining this memory boom, and as a consequence, the study of contemporary Spanish novels has started revolving around questions on the responsibility of the author, on the impact of literature in society, on its role in shaping memories, and on its ethical status. This book takes up these questions in an attempt to combine the outlook of collective memory studies with the theoretical demands of Poststructuralist theories. Focusing on themes such as haunting and the uncanny, nostalgia, the Bildungsroman genre, and autobiography, its author analyses memory narratives in fourteen novels by foremost Spanish authors like Javier Marías, Luis Goytisolo, Enrique Vila-Matas, and Manuel Vicent. -- From publisher's website.

Stories in the Time of Cholera Charles L. Briggs,2003-01-16 Cholera, although it can kill an adult through dehydration in half a day, is easily treated. Yet in 1992-93, some five hundred people died from cholera in the Orinoco Delta of eastern Venezuela. In some communities, a third of the adults died in a single night, as anthropologist Charles Briggs and Clara Mantini-Briggs, a Venezuelan public health physician, reveal in their frontline report. Why, they ask in this moving and thought-provoking account, did so many die near the end of the twentieth century from a bacterial

infection associated with the premodern past? It was evident that the number of deaths resulted not only from inadequacies in medical services but also from the failure of public health officials to inform residents that cholera was likely to arrive. Less evident were the ways that scientists, officials, and politicians connected representations of infectious diseases with images of social inequality. In Venezuela, cholera was racialized as officials used anthropological notions of culture in deflecting blame away from their institutions and onto the victims themselves. The disease, the space of the Orinoco Delta, and the indigenous ethnic group who suffered cholera all came to seem somehow synonymous. One of the major threats to people's health worldwide is this deadly cycle of passing the blame. Carefully documenting how stigma, stories, and statistics circulate across borders, this first-rate ethnography demonstrates that the process undermines all the efforts of physicians and public health officials and at the same time contributes catastrophically to epidemics not only of cholera but also of tuberculosis, malaria, AIDS, and other killers. The authors have harnessed their own outrage over what took place during the epidemic and its aftermath in order to make clear the political and human stakes involved in the circulation of narratives, resources, and germs.

Each chapter appears in both English and Spanish. Over forty of the most renowned names in arbitration worldwide offer reflections on life as an arbitration practitioner, highlighting such career opportunities and potential stumbling blocks as the following: balancing work and life; managing coexistence challenges in firms (e.g., the rat race, bullying, burnout, discrimination); preparing for a job interview; promoting disruptive innovation; arbitrating for the State; participating in deliberations; writing arbitral awards; handling dissenting opinions; and developing a personal brand The authors' exploration of everything from academic work and practical experiences to how they have managed personal pressures will be greatly appreciated by all who seek to thrive in the arbitration market, whether in practice or academia. As an extraordinary compilation about what happens behind the scenes in the international arbitration world, this book will quickly become an essential consultation resource illuminating what it takes to succeed in the field and how best to achieve a meaningful and rewarding career. Its personal success stories reveal what practice in this area of law actually looks like and brilliantly demonstrate ways to foster career development.

The reader can choose between four formats: Section 1: English to Spanish Section 2: Spanish to English Section 3: English Section 4: Spanish BRIEF SYNOPSIS: This book is a collection of eight fairy tales that were originally published in 1697. The Grimm brothers rewrote many of these stories. However, in many ways they are remarkably different versions. The full title, as translated into English, is "Tales and Stories of the Past with Morals: Tales of Mother Goose." The Spanish subtitle is, "Los Cuentos de Mamá Ganso." The stories include: Sleeping Beauty in the Woods Cinderella Little Finger Puss in Boots Riquet with the Tuft Blue Beard The Fairy Little Red Riding-Hood AUTHOR: Charles Perrault (1628 – 1703) is often times considered the founder of the modern fairy tale genre.
