Punched-Card Systems and the Early Information Explosion, 1880–1945 Lars Heide, 2009-04-27 At a time when Internet use is closely tracked and social networking sites supply data for targeted advertising, Lars Heide presents the first academic study of the invention that fueled today's information revolution: the punched card. Early punched cards helped to process the United States census in 1890. They soon proved useful in calculating invoices and issuing pay slips. As demand for more sophisticated systems and reading machines increased in both the United States and Europe, punched cards served ever-larger data-processing purposes. Insurance companies, public utilities, businesses, and governments all used them to keep detailed records of their customers, competitors, employees, citizens, and enemies. The United States used punched-card registers in the late 1930s to pay roughly 21 million Americans their Social Security pensions, Vichy France used similar technologies in an attempt to mobilize an army against the occupying German forces, and the Germans in 1941 developed several punched-card registers to make the war effort—and surveillance of minorities—more effective. Heide's analysis of these three major punched-card systems, as well as the impact of the invention on Great Britain, illustrates how different cultures collected personal and financial data and how they adapted to new technologies. This comparative study will interest students and scholars from a wide range of disciplines, including the history of technology, computer science, business history, and management and organizational studies.

We Love to Entertain Sarah Strohmeyer, 2023-04-25 “A diabolical and deliciously twisty romp through reality TV home renovations infused with humor and warmth. Sarah Strohmeyer does murder and suspense in all the best possible ways!” —Wanda M. Morris, award-winning author of All Her Little Secrets and Anywhere You Run From the bestselling author of Do I Know You? comes a fast-paced, riveting psychological thriller that skewers our modern obsession with home renovation and fixer-uppers. Holly and Robert Barron are attractive young real-estate investors and contestants in a competition run by To the Manor Build, the nation's most popular home renovation app. With millions in product endorsements and online followers at stake, they're rehabbing a Vermont home they scored at a bargain price into a chic hilltop estate ideal for entertaining. It's all camera-ready laughs and debates over herringbone tile until Holly and Robert go missing hours after their picture-perfect wedding—leaving behind a bloody trail. Suspicion falls quickly on Erika Turnbull, the Barrons' twenty-something assistant—eager, efficient, and secretly in love with Robert. Did Erika let her misguided passion turn her into a murderer? So claim the townsfolk of Snowden, Vermont, who still haven't forgiven her for a tragic accident back in high school. But Erika's mother, Kim, is not about to let small-town gossip and a cop with an axe to grind destroy her daughter—again. With time running out and their own lives at risk, the mother-daughter duo set out to find what really happened to the Barrons. First, though, they'll have to confront the vengeful former owner of Holly and Robert's estate, ruthless reality-show producers, and a secret that might bring their own house down. Fast-paced, full of humor, and undeniably twisty, We Love to Entertain is another winner from Sarah Strohmeyer.

The Little Shadows Marina Endicott,2011-09-27 Here is the eagerly anticipated new novel from a brilliant writer whose last book, Good to a Fault, was shortlisted for the prestigious Giller Prize and won the Commonwealth Prize for Canada and the Caribbean. The Little Shadows revolves around three sisters in the world of vaudeville before and during the First World War. We follow the lives of all three in turn: Aurora, the eldest and most beautiful, who is sixteen when the book opens; thoughtful Clover, a year younger; and the youngest sister, joyous headstrong sprite Bella, who is thirteen. The girls, overseen by their fond but barely coping Mama, are forced to make their living as a singing act after the untimely death of their father. They begin with little besides youth and hope, but Marina Endicott's genius is to show how the three girls slowly and steadily evolve into true artists even as they navigate their way to adulthood among a cast of extraordinary characters – some of them charming charlatans, some of them unpredictable eccentrics, and some of them just ordinary-seeming humans with magical gifts. Using her gorgeous prose and extraordinary insight, Endicott lures us onto the brightly lit stage and then into the little shadows that lurk behind the curtain, and reveals how the art of vaudeville -- in all its variety, madness, melodrama, hilarity and sorrow -- echoes the art of life itself.

Ashamed to Die Andrew J. Skerritt,2011 By focusing on a small town in South Carolina, this study of the HIV/AIDS crisis in the South reveals the hard truths of an ongoing and complex issue. Skerritt contends that the United States has failed to adequately address the threat of HIV and AIDS in communities of color and that taboos about love, race, and sexuality--combined with Southern conservatism, white privilege, and black oppression--continue to create an unacceptable death toll. The heartbreak of America's failure comes alive through case studies of individuals such as Carolyn, a wild child whose rebellion coincided with the advent of AIDS, and Nita, a young woman searching for love and trapped in an abusive relationship. The results are most visible at the town's segregated burial ground where dozens of young black men and women who have died from AIDS are laid to rest. Not only a call to action and awareness, this is a true story of how persons of faith, enduring love, and limitless forgiveness can inspire others by serving as guides for poor communities facing a public health threat burdened with conflicting moral and social conventions.

End Credits Patty Lin,2023-08-29 What happens when you land your dream job and everything you've been working toward becomes a complete nightmare? This is Patty Lin's story. She climbed the ladder as an award-winning television writer (often the only Asian person in the room) only to be confronted by discouragement, burnout, and toxicity. Ever since Patty Lin retired from television writing at the ripe age of thirty-eight, people have asked her: "Why would you quit such a cool career?" Especially when they find out she worked on some of the most successful shows in television history. But what if achieving your professional dreams comes at too high a personal cost? That's what Patty Lin started to ask herself after years in the cutthroat TV industry. One minute she was a tourist, begging her way into the audience of Late Night with David Letterman. Just a few years later, she was an insider who—through relentless hard work and sacrifice—had earned a seat in the writers' rooms of the hottest TV shows of all time. While writing for Friends, Freaks and Geeks, Desperate Housewives and Breaking Bad, Patty steeled herself against the indignities of a chaotic, abusive, male-dominated work culture, not just as one of the few women in the room, but as the only Asian person. Funny, eye-opening, and sobering, this inside-Hollywood story will resonate with anyone who has struggled with their work and on their life journey. And it will inspire others to listen to their inner voices and know when it's time to get out.

Bad Boyfriends Jeb Kinnison,2014-03-08 This book is a practical guide to using the science of attachment and relationships to find the right life partner. If you were brought up in the Western world, you've been trained on fairy tales of love and relationships that are misleading at best, and at worst have you making mistake after mistake in starting relationships with the wrong kinds of people who will waste your time and keep you from finding a loyal partner. Science has the answer! Or at least a guide to save you the time and effort of discovering for yourself how many wrong types of romantic partners there are. Reading this book will help you recognize the signs of some of the syndromes that prevent people from being good partners. We'll go through those syndromes and point out some of the signs. Those little red flags you sometimes notice when you are getting to know someone? Often they speak loud and clear once you understand the types, and you can decide immediately to run away or approach with caution those who show them. If you're young and just starting to look for a partner, good news-the world is swarming with well-adjusted, charming matches for you, if you know how to recognize them. The bad news: you are inexperienced and you may not recognize the right type of person when you date them. Many people expect to experience an immediate sense of excitement, an overwhelming rush of attraction, and to fall in love rapidly and equally with someone who feels the same. This rarely happens, and when it does it usually ends badly! And expecting it will cause you to let go of people who are steady, loving, and attentive, if you had given them a chance. So once you've identified someone who makes you laugh, answers your messages, and is there for you when you want them, don't make the mistake of tossing them aside for the merely good-looking, sexy, or intriguing stranger. If you're older, bad news: while you were spending time and effort on relationships you were hoping would turn out better, or even happily nestled in a good relationship or two, most of the secure, reliable, sane people in your age group got paired off. They're married or happily enfamilied, and most of the people your age in the dating pool are tragically unable to form a good long-term relationship. You should always ask yourself, why is this one still available?-there may be a good answer (recently widowed or left a long-term relationship), or it may be that this person has just been extraordinarily unlucky in having over twenty short relationships in twenty years (to cite one case!) But it's far more likely you have met someone with a problematic attachment style. As you age past 40, the percentage of the dating pool that is able to form a secure, stable relationship drops to less than 30%[1];

and since it can take months of dating to understand why Mr. or Ms. SeemsNice is really the future ex-partner from Hell, being able to recognize the difficult types will help you recognize them faster and move on to the next. This book outlines the basics (which might be all you need), and points you toward more resources if you want to understand more about your problem partner. If you're wondering if the guy or girl you've been hanging out with might not be quite right, this is the place to match those little red flags you've noticed with known bad types. And by getting out fast, you can avoid emotional damage and wasted time, and get going on finding someone who's really right for you. Study all of the bad types and you'll detect them before even getting involved. Or you could be one of the few people who recognizes their own problems in one of these types. There are study materials and plans of action for you, too. If you've had lots of relationships and they all seem to go wrong, the common factor is you! Your task is to make yourself into a better partner - a goal that even the most evolved of us can always work toward.
