**The Storm Garden** Philip Gross, 2006 After the explosion at the shopping centre, Max is quick to confess. He did it. He planted the bomb. So when the police discover that there was no bomb—just a gas explosion—there are many questions to be asked. Who is Max and what is he trying to do? They're the questions Clio finds herself asking, too, when she starts to get to know Max. She's been asked to help get through to him—but almost before she realizes it she's been caught up in his lies. Now they're on the run together, hiding from the police—but why does Clio stay with him? She can't even explain it to herself. And as she becomes less and less sure what is truth and what is lies, so events spiral ever closer towards a dramatic, violent end . . .

*Storm on the Horizon* Paul A. Winters, 2014-10-07 When a catastrophic explosion kills an estimated thirty thousand people in the region of southeast New Mexico and surrounding areas, the military is tasked to find out exactly what happened. Six assessment teams are sent into the blast zone to investigate but are utterly annihilated by an unknown presence. After a series of devastating military defeats which kills close to a thousand more, General Pierce finally sends in a unique four man team led by Captain Phillips, aka Hopper, on a suicide mission to capture one of these mysterious entities. Although successful, Hopper is the sole survivor. As a result of the knowledge gleaned from the capture, Hopper is requested to volunteer for a second suicide mission to destroy a newly discovered power source emanating from deep within the Carlsbad Caverns of New Mexico. Teamed with a curiously talented blue-eyed telepath named Annadell, Hopper and a newly trained squad, armed with the world's most advanced technologies, embark on a mission against a vastly superior enemy. However, they will soon discover not all is as it may seem and that the future of mankind is far more fragile than anyone could have ever imagined. This enthralling original novel by Paul Winters is an intense and emotional new science fiction thriller. *Sandstorm* James Rollins, 2009-10-13 More heart-stopping action and suspense from the bestselling author of *Amazonia* and *Subterranean*. . . . "Rollins writes with intelligence, clarity, and a refreshing sense of humor."—Kirkus Reviews In his five previous thrillers, James Rollins, the king of speculative adventure writing, has taken readers on mind-expanding journeys spanning from the top of the world to deep within the earth's surface. In this latest voyage of imagination combining hard science with explosive page-turning excitement—his most breathtaking yet—he explores the mysterious sands of the Arabian peninsula. Twenty years ago, a wealthy British financier disappeared near Ubar, the fabled lost city buried beneath the sands of Oman. Now, an expedition of scientists, led by the financier's daughter, is finally setting off for the legendary metropolist to unlock the desert's secrets. What they find, however, is more beautiful than they ever dreamed—and far deadlier. Within Ubar is a powerful energy source that could fuel the entire earth above—if it can be harnessed. But before they can resurface, the explorers become trapped. Concerned for the subjects, Fara decides to stay. Especially now. Between the raging storm outside and the rage-inducing chemicals in the patients, a million things could go wrong. But the last thing Fara expects to happen is an armed attack on the lab, an explosion of gunfire, and an army of men smashing the barriers. Releasing the infected. *The Secrets of the Storm Vortex* Anne Cameron, 2015-05-05 The funny, fast-paced third book in The Lightning Catcher series! Part Storm Chasers and part The 39 Clues, this school adventure story about twelve-year-old Angus McFangus and his dangerous gift for predicting catastrophic weather combines science, weather, and the fantastical. They have more than lessons on their minds, however—namely, the fate of Angus's parents, who have been kidnapped by the villain Scabious Dankhart. Angus's parents are kept prisoner in Castle Dankhart, where a violent weather explosion has created a storm vortex so that no one can tell what is going on inside. It's Angus, Indigo, and Dougal to the rescue. . . . Will they get there in time and all in one piece? Action-packed, lighthearted, and perfect for reluctant readers!

**Tornado Hunter** Stefan Bechtel, Tim Samaras, 2009-05-19 Like the deadly tornadoes it documents, this potent combination of high adventure and hard science is terrifyingly timely in our era of global warming and climate change. The Weather Channel, now America's most watched programming, has in recent years shown us a relentless series of hurricanes, tsunamis, earthquakes, and eruptions killing thousands, turning millions into refugees, and leaving whole cities in shocked, shattered ruins. Of nature's weapons, tornadoes are among the most unforgiving, and here's an unforgettable portrait of these storms and one extraordinary man who challenged them—and produced the first-ever photographs snatched from a rampaging twister's black heart. Tornado chaser Tim Samaras, working with master storyteller Stefan Bechtel, author of *Roar of the Heavens*, has created a page-turner with narrative force and scientific substance. In the first of five you-are-there accounts, *Tornado Hunter* opens with a moment-by-moment description of the 2003 catastrophe that engulfed Manchester, South Dakota. The authors evoke the doomed town and its people; the dark menacing funnel; and Samaras's fearless advance into the whirlwind's core to deploy the ingenious equipment he devised. They interweave the tornado chaser's passion, the fascinating science of the storms themselves, and six decades of progress in predicting and recording their onslaught—an art beholden to Samaras's own groundbreaking inventions. Tim Samaras's 2004 article in *National Geographic* became one of the most widely read in the magazine's history. This powerful book is destined to blast its way onto bestseller lists everywhere.

**Flood** Richard Doyle, 2002 A storm rages over the north of Britain. A troop carrier founders in the Irish Sea; flood indicators go off the scale; the seas are mountainous and a spring tide is about to strike the East Coast.

Air-Sea rescue and military personnel struggle to save lives all down the coast. The worse is yet to come. When the storm reaches the south the two forces of wind and tide will combine and send a huge one-in-a-thousand tidal surge up the Thames. But surely London is safe: the Thames Barrier will save the capital from disaster as it was intended to do? The river is a titanic presence by now, higher than anyone has known it, and the surge thunders towards the Barrier. Scientists begin to talk of the possibility of overtopping. Can fifty feet high gates be overwhelmed by a wave? Then there is an explosion the size of a small Hiroshima: a supertanker is ablaze in the estuary and most of the Essex petrochemical works are going up with it. The Thames catches fire and the wall of fire and water thunders towards Britain's capital. This is the story of what happens next, and the desperate attempts to save the capital from destruction.

**Storm-blast** Curtis Parkinson, 2008-08-11 Regan, Matt, and Carol have to depend on each other to survive when their small boat gets swallowed up in a fierce Caribbean storm.

**Nantucket Drowning** John O'Shea, 2017-06-16 A hurricane roars up, headed straight for Nantucket Island. That's where James O'Neill, struggling hedge fund manager, is trying to put his life back together. Luckily, before the storm strikes, James is able to get his 12 son Danny on the last outward-bound ferry-but he can't find his aging father. As the hurricane ravages the island, James searches for his elderly dad. He encounters mysterious men throughout the quaint town. After he spots two of them cruising offshore in his friend's boat, he gives chase along the north shore. When they seize the island's airport, James intercedes and realizes he is up against a foreign threat on American soil. He races across Nantucket to stop the remaining crew before they execute their plans, the effects of which could devastate the entire coast. Meanwhile, an explosion has ripped apart Danny's ship and strands the young boy amid the raging seas. James is forced to make impossible choices between saving his family and intercepting terrorists before time runs out.
