**Exploding the Phone** Phil Lapsley, 2013-02-05 "A rollicking history of the telephone system and the hackers who exploited its flaws." —Kirkus Reviews, starred review Before smartphones, back even before the Internet and personal computers, a misfit group of technophiles, blind teenagers, hippies, and outlaws figured out how to hack the world's largest machine: the telephone system. Starting with Alexander Graham Bell's revolutionary "harmonic telegraph," by the middle of the twentieth century the phone system had grown into something extraordinary, a web of cutting-edge switching machines and human operators that linked together millions of people like never before. But the network had a billion-dollar flaw, and once people discovered it, things would never be the same. Exploding the Phone tells this story in full for the first time. It traces the birth of long-distance communication and the telephone, the rise of AT&T's monopoly, the creation of the sophisticated machines that made it all work, and the discovery of Ma Bell's Achilles' heel. Phil Lapsley expertly weaves together the clandestine underground of "phone phreaks" who turned the network into their electronic playground, the mobsters who exploited its flaws to avoid the feds, the explosion of telephone hacking in the counterculture, and the war between the phreaks, the phone company, and the FBI. The product of extensive original research, Exploding the Phone is a groundbreaking, captivating book that "does for the phone phreaks what Steven Levy's Hackers did for computer pioneers" (Boing Boing). "An authoritative, jaunty and enjoyable account of their sometimes comical, sometimes impressive and sometimes disquieting misdeeds." —The Wall Street Journal "Brilliantly researched." —The Atlantic "A fantastically fun romp through the world of early phone hackers, who

sought free long distance, and in the end helped launch the computer era.” —The Seattle Times

Twenty-Two Cents an Hour Doug Crandell, 2022-04-15 In Twenty-Two Cents an Hour, Doug Crandell uncovers the harsh reality of people with disabilities in the United States who are forced to work in unethical conditions for subminimum wages with little or no opportunity to advocate for themselves, while wealthy CEOs grow even wealthier as a direct result. As recently as 2016, the

United States Congress enacted bipartisan legislation which continued to allow workers with disabilities to legally be paid far lower than the federal minimum wage. Drawing on ongoing federal Department of Justice lawsuits, the horrifying story of Henry's Turkey Farm in Iowa, and more, Crandell shows the history of the policies that have led to these unjust outcomes, examines who benefits from this legislation, and asks important questions about the rise of a disability industrial complex. Exposing this complex—which is rooted in profit, lobbying, and playing on the emotions of workers' parents and families, as well as the public—Crandell challenges readers to reexamine how we treat some of our most vulnerable fellow citizens. *Twenty-Two Cents an Hour* forces the reader to face the reality of this exploitation, and builds the framework needed for reform.

**"Keep the Damned Women Out"** Nancy Weiss Malkiel, 2018-05-29 A groundbreaking history of how elite colleges and universities in America and Britain finally went coed As the tumultuous decade of the 1960s ended, a number of very traditional, very conservative, highly prestigious colleges and universities in the United States and the United Kingdom decided to go coed, seemingly all at once, in a remarkably brief span of time. Coeducation met with fierce resistance. As one alumnus put it in a letter to his alma mater, Keep the damned women out. Focusing on the complexities of institutional decision making, this book tells the story of this momentous era in higher education—revealing how coeducation was achieved not by organized efforts of women activists, but through strategic decisions made by powerful men. In America, Ivy League schools like Harvard, Yale, Princeton, and Dartmouth began to admit women; in Britain, several of the men's colleges at Cambridge and Oxford did the same. What prompted such fundamental change? How was coeducation accomplished in the face of such strong opposition? How well was it implemented? Nancy Weiss Malkiel explains that elite institutions embarked on coeducation not as a moral

imperative but as a self-interested means of maintaining a first-rate applicant pool. She explores the challenges of planning for the academic and non-academic lives of newly admitted women, and shows how, with the exception of Mary Ingraham Bunting at Radcliffe, every decision maker leading the charge for coeducation was male. Drawing on unprecedented archival research, “Keep the Damned Women Out” is a breathtaking work of scholarship that is certain to be the definitive book on the subject.
