Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

If Anything Happens I Love You Will McCormack,Michael Govier,2022-09-27 Unimaginable loss

yields to the power of human connection in this simple, moving story from the filmmakers of the eponymous Oscar-winning film. An elegy on grief. Heavy pain exquisitely rendered. Kirkus Starred Review Based on the Academy Award-winning animated short by the same name, *If Anything Happens I Love You* is a young adult graphic novel that follows two parents as they reckon with the loss of their young daughter, Rose, in a school shooting. Readers follow Rose from “above” as she watches her parents slowly break down under the weight and pain of their loss. Throughout the novel, Rose’s soul seeks to help her parents reconnect. We learn who Rose was and how much life she lived in her short time. By incorporating a wide range of characters, her boyfriend, teacher, and her cat, Rose is able to introduce healing into the lives of the people she left behind. *If Anything Happens I Love You* may be a story about loss, but in it we see ourselves—in the grief, the pain, and, most importantly, in the fight toward human connection, love, and acceptance.

Romanesque Renaissance Konrad Adriaan Ottenheim, 2021-01-11 In the renaissance also architecture from c. 800-1200 was regarded as a useful source of inspiration for contemporary building, sometimes by misinterpreting these medieval architecture as roman structures, sometimes because that era was also regarded as a glorious 'ancient' past.

Architecture for Astronauts Sandra Häuplik-Meusburger, 2011-10-18 Living and working in extra-terrestrial habitats means being potentially vulnerable to very harsh environmental, social, and psychological conditions. With the stringent technical specifications for launch vehicles and transport into space, a very tight framework for the creation of habitable space is set. These constraints result in a very demanding "partnership" between the habitat and the inhabitant. This book is the result of researching the interface between people, space and objects in an extra-terrestrial environment. The evaluation of extra-terrestrial habitats in comparison to the user's perspective leads to a new framework, comparing these buildings from the viewpoint of human activity. It can be used as reference or as conceptual framework for the purpose of evaluation. It also summarizes relevant human-related design directions. The work is addressed to architects and designers as well as engineers.

Subtle Substances Olivia de Oliveira, 2006 _____ br"
Prêmio Instituto de Arquitetos do Brasil: melhor livro de 2006 Finalist Pevsner Prize of The Royal Institute of British Architects > Finalist Prêmio Jabuti: best art and architecture book

Lina Bo Bardi, the Rome-born architect, emigrated after World War Two to Brazil, a country where she undertook her professional career. The outcome of her personal experience and of a wish to get closer to the culture and ways of life of the people, Bo Bardi's creativity moved in the direction of an architecture that prized simplicity, spontaneity, the residual and the ephemeral; an architecture understood as 'an organism suitable for life' which

incorporated everydayness and the energy of the people who use it. As a result she used the word 'substances', rather than 'materials', to explain what her architecture was made of. These substances are air, light, nature and art, to which the author, Olivia de Oliveira, adds time. The work of Lina Bo Bardi, then, is presented here via a huge array of previously unpublished drawings, images, writings and projects that enable the reader to grasp in a kaleidoscopic way the power and current importance of her architecture as a critical confrontation with established reality.
