With Wings Extended Greg Hoch,2020-05-04 A century ago, many people had given up on the wood duck, dooming it to extinction along with the passenger pigeon and Carolina parakeet. Today, it's one of the most familiar and most harvested ducks in the eastern half of the country, and one of America's great conservation success stories. In With Wings Extended, Minnesota conservationist Greg Hoch introduces readers to a duck they probably recognize but may not know well. This book shows how almost anyone can get involved in conservation and do something for wildlife beyond writing checks to conservation organizations. Hoch illustrates the complexities of wildlife and habitat management that landowners as well as state and federal wildlife agencies deal with on a daily basis, and takes readers through the life stages of what is largely considered the most beautiful duck in the world. In this fascinating and practical read, Hoch blends the historical literature about the species with modern science, and also shows how our views of conservation have changed over the last

century.

The Snow-Image, And Other Twice-Told Tales Nathaniel Hawthorne,2013-11-14 This is the annotated edition including a rare and extensive biographical essay on the author, as well as an essay by Edgar Allan Poe on Hawthorne's tale-writing. In the year 1852 The Snow Image and Other Twice-Told Tales was published. It is dedicated in an interesting preface to Horatio Bridge, and is made up of tales and sketches gathered from periodicals. It is a little inferior in general to the other collections, though the title story is done with a wonderfully fine and delicate touch, and Ethan Brand has a great deal of power. This is written from the hint for a story on the unpardonable sin, which occurs in the Note-Books, the setting being suggested by the lime-kilns in Berkshire, alluded to in the first volume of the American Note-Books, September 7, 1838. The other noticeable sketches of the book are The Canterbury Pilgrims, a story of the Shakers, The Great Stone Face, a tale of the Profile in the Franconia Notch, and the curious sketch Major Molineux. Old News is made up from some old Boston

newspapers, issued before and during the Revolution. Old Ticonderoga is one of the slight reminiscences of travel. A Bell's Biography and Main Street have the peculiar touch that marks all the sketches of Puritan life.

The Empty Family Colm Toibin, 2011-01-04 Colm Tóibín's exquisitely written new stories, set in present-day Ireland, 1970s Spain and nineteenth-century England, are about people linked by love, loneliness and desire. Tóibín is a master at portraying mute emotion, intense intimacies that remain unacknowledged or unspoken. In this stunning collection, he cements his status as "his generation's most gifted writer of love's complicated, contradictory power" (Los Angeles Times). "Silence" is a brilliant historical set piece about Lady Gregory, widowed and abandoned by her lover, who tells the writer Henry James a confessional story at a dinner party. In "Two Women," an eminent Irish set designer, aloof and prickly, takes a job in her homeland, and is forced to confront devastating emotions she has long repressed. "The New Spain" is the story of an intransigent woman who returns home after a decade in exile and shatters the fragile peace her family has forged in the post-Franco world. And in the breathtaking long story "The Street," Tóibín imagines a startling relationship between two Pakistani workers in Barcelona—a taboo affair in a community ruled by obedience and silence. Tóibín's characters are often difficult and combative, compelled to disguise their vulnerability and longings. Yet he unmask them, and in doing so offers us a set of extraordinarily moving stories that remind us of the fragility and individuality of human life. As The New York Review of Books has said, Tóibín "understands the tenuousness of love and comfort—and, after everything, its necessity."

To this end, we look for interdisciplinary bridges in mathematics, physics, and information and life sciences. How I Met My Monster Amanda Noll, 2019-11-03 One night, when Ethan reaches under his bed for a toy truck, he finds this note instead: Monsters! Meet here for final test. Ethan is sure his parents are trying to trick him into staying under the covers, until he sees five colorful sets of eyes blinking at him from beneath the bed. Soon, a colorful parade of quirky, squeaky little monsters compete to become Ethan's monster. But only the little green monster, Gabe, has the perfect blend of stomach-rumbling and snorting needed to get Ethan into bed and keep him there so he falls asleep—which as everyone knows, is the real reason for monsters under beds. With its perfect balance of giggles and shivers, this silly-spooky prequel to the award-winning *I Need My Monster* and *Hey, That's MY Monster!* will keep young readers entertained.

Extended Massive Life Steve Bodansky, 2013-11 This book is about drugs, sex, and rock and roll. Actually it is a fair amount of drugs, a modicum of rock and roll and a lot of sex. It is also about living in Europe, Nazis, Concentration Camp, boxing, French maids and hustling. This book includes a battle with cancer and how to use the disease to create more intimacy. It's about the love between a man and a woman and how to have a great relationship. Everything in this book happened, if not exactly the way it did, at least the way that we perceived it. Some of the stories may seem wilder than most fiction but believe us they did occur.
