Oracle Blockchain Quick Start Guide Vivek Acharya,Anand Eswararao Yerrapati,Nimesh Prakash,2019-09-06 Get up and running with Oracle's premium cloud blockchain services and build distributed blockchain apps with ease Key FeaturesDiscover Hyperledger Fabric and its components, features, qualifiers, and architectureGet familiar with the Oracle Blockchain Platform and its unique featuresBuild Hyperledger Fabric-based business networks with Oracle's premium blockchain cloud serviceBook Description Hyperledger Fabric empowers enterprises to scale out in an unprecedented way, allowing organizations to build and manage blockchain business networks. This quick start guide systematically takes you through distributed ledger technology, blockchain, and Hyperledger Fabric while also helping you understand the significance of Blockchain-as-a-Service (BaaS). The book starts by explaining the blockchain and Hyperledger Fabric architectures. You'll then get to grips with the comprehensive five-step design strategy - explore, engage, experiment, experience, and influence. Next, you'll cover permissioned distributed autonomous organizations (pDAOs), along with the equation to quantify a blockchain solution for a given use case. As you progress, you'll learn how to model your blockchain business network by defining its assets, participants, transactions, and permissions with the help of examples. In the concluding chapters, you'll build on your knowledge as you explore Oracle Blockchain Platform (OBP) in depth and learn how to translate network topology on OBP. By the end of this book, you will be well-versed with OBP and have developed the skills required for infrastructure setup, access control, adding chaincode to a business network, and exposing chaincode to a DApp using REST configuration. What you will learnModel your blockchain-based business network by defining its components, transactions, integrations, and infrastructure through use casesDevelop, deploy, and test chaincode using shim and REST, and integrate it with client apps using SDK, REST, and eventsExplore accounting, blockchain, hyperledger fabric, and its components, features, qualifiers, architecture and structureUnderstand the importance of Blockchain-as-a-Service (BaaS)Experiment Hyperledger Fabric and delve into the underlying technologySet up a consortium network, nodes, channels, and privacy, and learn how to translate network topology on OBPWho this book is for If you are a blockchain developer, blockchain architect or just a cloud developer looking to get hands-on with Oracle Blockchain Cloud Service, then this book is for you. Some familiarity with the basic concepts of blockchain will be helpful to get the most out of this book

A New Meaning-Mission Fit Michelle French-Holloway,2020-05-11 This book offers a clear process for managers, professionals, and future leaders to help discover their personal meaning in life and apply it to their work. The author uses research outcomes and theories to refute the contemporary philosophy that stresses following an individual's passion alone when choosing a particular job or career. Instead, she recommends employing a personal meaning-oriented approach to life and work, and then becoming passionate about one's work organically. The book also highlights the positive outcomes to organizations and societies when individuals engage with finding meaning in work, focusing on physical and emotional health and satisfaction. The author provides numerous examples of leaders who have aligned their personal meaning and organizational mission, also known as “meaning-mission fit,” and the relationship of this alignment to their emotional well-being. Together, the research, theory, and evidence in this book equip leaders and managers with an inspiring model to find their own meaning-mission fit, as well as create opportunities for the employees to do the same.

The Impact of the 4th Industrial Revolution on Engineering Education Michael E. Auer,Hanno Hortsch,Panarit Sethakul,2020-03-17 This book gathers papers presented at the 22nd International Conference on Interactive Collaborative Learning (ICL2019), which was held in Bangkok, Thailand, from 25 to 27 September 2019. Covering various fields of interactive and collaborative learning, new learning models and applications, research in engineering pedagogy and project-based learning, the contributions focus on innovative ways in which higher education can respond to the real-world challenges related to the current transformation in the development of education. Since it was established, in 1998, the ICL conference has been devoted to new approaches in learning with a focus on collaborative learning. Today, it is a forum for sharing trends and research findings as well as presenting practical experiences in learning and engineering pedagogy. The book appeals to policymakers, academics, educators, researchers in pedagogy and learning theory, school teachers, and other professionals in the learning industry, and further and continuing education.

Employed Homemakers Job Satisfaction Arti Samarth,2018-10-30 This book is based on MRP report to publish. The research is to evaluate the relationship between job satisfaction and social and work conditions of employed homemakers balancing dual responsibilities, where there still are significant indicators of the existence of a male dominated culture of misconceptions for women world. During the last decades, a developing country modified several technical and economic progress aspects to jobs and families. Though difference could be because of multiple factors like gender discrimination in several levels e.g. income, career prospects, and access to education. Now, it is common to find families where both are working and the traditional roles within the household is slightly changed i.e. acceptance or recognition waved. Among the emerging needs, it is the lab our flexibility, which derives from the fact that the gap between the amounts of time spent on market, and nonmarket work for men versus women has narrowed, e.g.in 2018, homemakers spent more time on market work and significantly less time on nonmarket work-housekeeping. Keeping in mind that to create a better world, the action needed at all levels i.e. individual, society and organizations. At individual level with values and aspiration while society with responsible approach and humane or effective organization with leadership and management advance the social and economic justice, sustainability, solutions to national prosperity issues. The author as a senior icon in the field continues to make meaningful and significant contributions that could only be realizes through years of experience and reflection, so there is hoping of warm welcome.

Now Dig This Terry Southern,2012-11-06 DIVDIVAn unforgettable chronicle of an era by one of America’s wildest—and most brilliant—comedic and literary minds/divDIV /divDIVEdited by Nile Southern and Josh Alan Friedman/divDIV Starting with his landing at the Battle of the Bulge, Terry Southern showed a knack for winding up in the world’s most interesting places. He spent the fifties on the Left Bank of Paris, the sixties in mod London, and the seventies touring with the Rolling Stones. When the Beatles rolled out their famous pantheon of movers and shakers for the cover of Sgt. Pepper, Terry was the only guy wearing shades. When police broke heads during the ’68 democratic convention in Chicago, Southern was there to bear witness. And when Stanley Kubrick needed someone to make Dr. Strangelove funny, there was only one man qualified for the job. /divDIV /divDIVAs the golden age of rock ’n’ roll wound down, Southern never stopped writing, and his prose never lost its trademark intensity. Filthy, fierce, and relentlessly dazzling, these letters, essays, stories, and interviews are an electric testament to one of the keenest wits of the twentieth century./divDIV /divDIVThis ebook features an illustrated biography of Terry Southern including rare photos and never-before-seen documents from the author’s estate./div/div
