Robert Cohen,Reginald E. Zelnik

The Free Speech Movement Robert Cohen,Reginald E. Zelnik,2002-10-01 This is the authoritative and long-awaited volume on Berkeley's celebrated Free Speech Movement (FSM) of 1964. Drawing from the experiences of many movement veterans, this collection of scholarly articles and personal memoirs illuminates in fresh ways one of the most important events in the recent history of American higher education. The contributors—whose perspectives range from that of FSM leader Mario Savio to University of California president Clark Kerr—shed new light on such issues as the origins of the FSM in the civil rights movement, the political tensions within the FSM, the day-to-day dynamics of the protest movement, the role of the Berkeley faculty and its various factions, the 1965 trial of the arrested students, and the virtually unknown little Free Speech Movement of 1966.

Gates of Eden: American Culture in the Sixties Morris Dickstein,2015-02-23 Widely admired as the definitive cultural history of the 1960s, this groundbreaking work finally reappears in a new edition. The turbulent 1960s, almost from its outset, produced a dizzying display of cultural images and ideas that were as colorful as the psychedelic T-shirts that became part of its iconography. It was not, however, until Morris Dickstein's landmark *Gates of Eden*, first published in 1977, that we could fully grasp the impact of this raucous decade in American history as a momentous cultural epoch in its own right, as much as Jazz Age America or Weimar Germany. From Ginsberg and Dylan to Vonnegut and Heller, this lasting work brilliantly re-creates not only the intellectual and political ferment of the decade but also its disillusionment. What results is an inestimable contribution to our understanding of twentieth-century American culture.

New Force on the Left: Tom Hayden and the Campaign Against Corporate America John H. Bunzel,1983

Teach-ins, U.S.A. Louis Menashe,Ronald Radosh,1967

Cadres for Conservatism Gregory L. Schneider,1999 In this history of the other Sixties, Gregory L. Schneider traces the influence of Young Americans for Freedom, a conservative political group that locked horns with the New Left and spawned many of the major players in the contemporary conservative movement, from the Goldwater campaign in 1964 to Reagan's revolution in the 1980s. *Cadres for Conservatism* reveals how young political conservatives, unlike their leftist counterparts, avoided fracture in the wake of the Sixties. Rather, YAF continued to serve as a seedbed for future conservative leaders, many of whom drew on the contacts and (counter-)activism of their youth to consolidate conservative power. Schneider's talent for trenchant archival research is supplemented by a plethora of detailed interviews with virtually every past national chairman and executive director of the YAF, as well as important sponsors such as William F. Buckley, William Rusher, and M. Stanton Evans.

The Kent State Coverup James Munves,Joseph Kelner,2016-10-04 On May 4, 1970, two platoons of Ohio National Guardsmen fired on a crowd of students at Kent State University, killing four and wounding nine. Neither the federal government nor the state of Ohio took any responsibility for the guardsmen's actions. Through the account of the subsequent civil trial, we follow the events of that tragic day, as experienced by the victims and their families, and share their frustration as they try to discover the truth.

The Academic Rebellion in the United States Bettina Aptheker,1972

The Sixties Todd Gitlin,2013-07-17 Say “the Sixties” and the images start coming, images of a time when all authority was defied and millions of young Americans thought they could change the world—either through music, drugs, and universal love or by “putting their bodies on the line” against injustice and war. Todd Gitlin, the highly regarded writer, media critic, and professor of sociology at the University of California, Berkeley, has written an authoritative and compelling account of this supercharged decade—a decade he helped shape as an early president of Students for a Democratic Society (SDS) and an organizer of the first national demonstration against the Vietnam war. Part critical history, part personal memoir, part celebration, and part meditation, this critically acclaimed work resurrects a generation on all its glory and tragedy.

Essays on the Student Movement Patrick Gleeson,1970

Counterculture and Social Transformation Seymour Leventman,1982

Counterrevolution and Revolt Herbert Marcuse,2010-07-01 In this book Herbert Marcuse makes clear that capitalism is now reorganizing itself to meet the threat of a revolution that, if realized, would be the most radical of revolutions: the first truly world-historical revolution. Capitalism's counterrevolution, however, is largely preventive, and in the Western world altogether preventive. Yet capitalism is producing its own grave-diggers, and Marcuse suggests that their faces may be very different from those of the wretched of the earth. The future revolution will be characterized by its enlarged scope, for not only the economic and political structure, not only

class relations, but also humanity's relation to nature (both human and external nature) tend toward radical transformation. For the author, the liberation of nature is the connecting thread between the economic-political and the cultural revolution, between changing the world and personal emancipation.

The Hippies Stuart Hall,1968

The Free Speech Movement David Lance Goines,1993 The still-rousing (if increasingly gray-haired) story of the first baby-boomer civil protest, the progenitor of the antiwar and civil rights movements, the catalyst of 60s activism. Tells how it changed the university and ultimately the nation as its leaders became instigators of social change through

Children of Privilege Cyril Levitt,1984

The New Left in America Edward J. Bacciocco,1974

The Autobiography of Martin Luther King, Jr. Clayborne Carson,2001-01-01 With knowledge, spirit, good humor, and passion, THE AUTOBIOGRAPHY OF MARTIN LUTHER KING, JR. brings to life a remarkable man whose thoughts and actions speak to our most burning contemporary issues and still inspire the desires, hopes, and dreams of us all. Written in his own words, this history-making autobiography is Martin Luther King: the mild-mannered, inquisitive child and student who chafed under and eventually rebelled against segregation; the dedicated young minister who continually questioned the depths of his faith and the limits of his wisdom; the loving husband and father who sought to balance his family's needs with those of a growing, nationwide movement; and the reflective, world-famous leader who was fired by a vision of equality for people everywhere. Relevant and insightful, THE AUTOBIOGRAPHY OF MARTIN LUTHER KING, JR. offers King's seldom disclosed views on some of the world's greatest and most controversial figures: John F. Kennedy, Malcolm X, Lyndon B. Johnson, Mahatma Gandhi, and Richard Nixon. It also paints a rich and moving portrait of a people, a time, and a nation in the face of powerful change. Finally, it shows how everyday Americans from all walks of life confronted themselves, each other, and the burden of the past-and how their fears and courage helped shape our future.
