The Face Mask In COVID Times Deborah Lupton,Clare Southerton,Marianne Clark,Ash Watson,2021-04-19 The simple fabric face mask is a key agent in the fight against the global spread of COVID-19. However, beyond its role as a protective covering against coronavirus infection, the face mask is the bearer of powerful symbolic and political power and arouses intense emotions. Adopting an international perspective informed by social theory, The Face Mask in COVID Times: A Sociomaterial Analysis offers an intriguing and original investigation of the social, cultural and historical dimensions of face-masking as a practice in the age of COVID. Rather than Beck’s ‘risk society’, we are now living in a ‘COVID society’, the long-term effects of which have yet to be experienced or imagined. Everything has changed. The COVID crisis has generated novel forms of sociality and new ways of living and moving through space and time. In this new world, the face mask has become a significant object, positioned as one of the key ways people can protect themselves and others from infection with the coronavirus. The face mask is rich with symbolic meaning as well as practical value. In the words of theorist Jane Bennett, the face mask has acquired a new ‘thing-power’ as it is coming together with human bodies in these times of uncertainty, illness and death. The role of the face mask in COVID times has been the subject of debate and dissension, arousing strong feelings. The historical and cultural contexts in which face masks against COVID contagion are worn (or not worn) are important to consider. In some countries, such as Japan and other East Asian nations, face mask wearing has a long tradition. Full or partial facial coverings, such as veiling, is common practice in regions such as the Middle East. In many other countries, including most countries in the Global North, most people, beyond health care workers, have little or no experience of face masks. They have had to learn how to make sense of face masking as a protective practice and how to incorporate face masks into their everyday practices and routines. Face masking practices have become highly political. The USA has witnessed protests against face mask wearing that rest on ‘sovereign individualism’, a notion which is highly specific to the contemporary political climate in that country. Face masks have also been worn to make political statements: bearing anti-racist statements, for example, but also Trump campaign support. Meanwhile, celebrities and influencers have sought to advocate for face mask wearing as part of their branding, while art makers, museums, designers and novelty fashion manufacturers have identified the opportunity to profit from this sudden new market. Face masks have become a fashion item as well as a medical device: both a way of signifying the wearer’s individuality and beliefs and their ethical stance in relation to the need to protect their own and others’ health. The Face Mask in COVID Times: A Sociomaterial Analysis provides a short and accessible analysis of the sociomaterial dimensions of the face mask in the age of COVID-19. The book presents seven short chapters and an epilogue. We bring together sociomaterial theoretical perspectives with compelling examples from public health advice and campaigns, anti-mask activism as well as popular culture (news reports, blog posts, videos, online shopping sites, art works) to illustrate our theoretical points, and use Images to support our analysis.

The Masks We Wear Brenden Gillard,2018-04-06 For years, Manhattan has remained a city of on the verge of chaos; crime running rampant across the street with a shadowy figure controlling it all from within the shadows. But that's about to change. It has been five long years since Ashton Storm lost both his brother and his voice to gang violence. Seeking a vessel to control his vengeance and anger for crime, he dons the mantle of a mute hero to put an end to the four monsters that took a life before his time. But where is the line that he shouldn't cross? What can he do outside of the law that others haven't tired? And what of this mysterious figure that seems to watch his every move? Only time will tell as 'The Mysterious Nightshade' begins his quest for revenge.

Reusability of Facemasks During an Influenza Pandemic Institute of Medicine,Board on Health Sciences Policy,Committee on the Development of Reusable Facemasks for Use During an Influenza Pandemic,2006-08-24 Any strategy to cope with an influenza pandemic must be based on the knowledge and tools that are available at the time an epidemic may occur. In the near term, when we lack an adequate supply of vaccine and antiviral medication, strategies that rely on social distancing and physical barriers will be relatively more prominent as means to prevent spread of disease. The use of respirators and facemasks is one key part of a larger strategy to establish barriers and increase distance between infected and uninfected individuals. Respirators and facemasks may have a role in both clinical care and community settings. Reusability of Facemasks During an Influenza Pandemic: Facing the Flu answers a specific question about the role of respirators and facemasks to reduce the spread of flu: Can respirators and facemasks that are designed to be disposable be reused safely and effectively? The committee-assisted by outstanding staff-worked intensively to review the pertinent literature; consult with manufacturers, researchers, and medical specialists; and apply their expert judgment. This report offers findings and recommendations based on the evidence, pointing to actions that are appropriate now and to lines of research that can better inform future decisions.

Postcolonial Practices of Care Hellena Moon,Emmanuel Y. Lartey,2022-07-18 This anthology seeks to theorize a method of a radical, decolonial spiritual-care paradigm that can chart a new course in defining—or reframing—what is “spiritual,” what is theological, and what is “care.” Postcolonial Practices of Care presents voices of educators, chaplains, students, human-rights and disability activists, and other professionals to highlight the problems of disciplinary divides and binaries—such as pastoral/spiritual or ordinary/sacred. In focusing on the practices of care during the pandemic, the editors see their book as contributing to ongoing paradigm shifts and the importance of decoloniality as a method in the field of pastoral care. The praxis of spiritual care addresses—and interrogates—the history of spiritual violence and its imbrication with modernity/coloniality, colonialism, racial capitalism, neoliberalism, and (conscious and unconscious) white Christian supremacy that constructed not only the pastoral and the spiritual but also its divide: the pastoral/spiritual. Such a framework focuses on “religious” difference without probing or critiquing how those differences have reified hierarchies of superiority or sustained ideologies of Euro-centric monocultural ethnocentrism. We want to emphasize the shared practices that bring us together as human beings on Earth rather than to prove we are better, or more unique, than one another.

Storm Chaser Shorts Mark R Hunter,2012-06-01 Just like the weather, a person's story changes all the time. Sometime it's a romance, sometimes a comedy, and when things go badly it can be a fine line between action-adventure and tragedy. Storm Chaser Shorts follows two converging stories. One involves the family and friends of Indiana State Trooper Chance Hamlin, who struggles to defend his hometown of Hurricane and his family from all manner of threats - whether they want him to or not. The other follows disaster photographer Allie Craine and those pulled into the wake of her passing, as she's tailed by the shadowy and disaster prone Luther Magee. Seven stories are set before, and three after, the events of Storm Chaser. Like the weather - and life - the tales are diverse, ranging from humor and adventure to what may be downright mystical. After all, life with a Storm Chaser is as diverse as the weather. Don't miss the full length romantic comedy novel STORM CHASER by Mark R Hunter!

Eye of the Storm Sally Forman,2007 Having grown up in the hills and fields of Southern Vermont, Vaughn Perkins has always had a fondness for the outdoors and its animals. This book offers an in depth look into

the emerging field of micro-plotting. It provides different outlooks for a variety of wildlife enthusiasts, from deer lovers to bird watchers. Whitetail Gardening describes how small property owner's can enhance their property for wildlife. With food plots becoming more popular, and seed blend varieties becoming more complex, this book offers simple, but effective techniques to help enhance any piece of property for nearly all types of wildlife.

In the Eye of the Storm Steven M. Banka,2010-10-11 In 2005 hurricane Katrina hit the gulf coast. In New Orleans it wasn't the hurricane you had to survive but the aftermath that came. Everyone thought the water flooding the city was the worst that could happen, they were wrong. With every chapter seemingly at the end, it got worse. See how one man survived the odds and cheated death. The Convention Center in New Orleans turned into hell for one week. Everything you can imagine bad happened. Be prepared for what you are about to read.

Senses and the City Mădălina Diaconu,2011 The papers collected in this volume discuss the sensory dimension of cityscapes, with focus on touch and smell. Both have been traditionally considered lower senses and thus unworthy of being cultivated - objects of social prohibitions and targets of suppressing strategies in modern architecture and city planning. The book brings together approaches from anthropology, aesthetics, the theory of architecture, art and design research, psychophysiology, ethology, analytic chemistry, etc. (Series: Austria: Forschung und Wissenschaft - Interdisziplinär - Vol. 4)

Truth About Masks Judy Mikovits,Kent Heckenlively,2021-10-12 Do we really need to wear masks? From the New York Times Bestselling authors of Plague of Corruption comes the must-read guide on masks and re-opening following the COVID-19 pandemic. The Truth About Masks is the book all America needs to be reading as the COVID-19 pandemic rages on. Written by New York Times bestselling authors Dr. Judy Mikovits and Kent Heckenlively, this book reviews the evidence for and against widespread public masking as provided by the Centers for Disease Control and the Mayo Clinic, as well as top scientific publications such as the New England Journal of Medicine and The Lancet. This debate needs to take place without fear and paranoia. Important questions raised in this book are the effect of masks on oxygen and carbon dioxide levels, how COVID-19 spreads, the effectiveness of various types of masks, those who are most vulnerable to COVID-19, and what measures should be taken by schools as children continue to return to in-person classes. The authors' previous book, Plague of Corruption, was the runaway science bestseller of 2020, and the authors bring that same passion and attention to detail to the mask question. As politicians and bureaucrats of all stripes are weighing in on this question, with some again placing their cities and states under mandatory masking provisions, we need to understand the science behind their decisions. Are such measures a reasonable response to current circumstances, or is it a dramatic overreach, which in many cases might make the situation even worse? America desperately needs this public conversation to take place with the best science we have available. As Americans have always done during difficult times, we must summon the courage to have these challenging conversations.

Narrating the Storm Kristen Barber,Danielle A. Hidalgo,2009-03-26 For those interested in learning more about the personal impact of Hurricane Katrina and its aftermath, Narrating the Storm serves as an essential read. This important and timeless volume is a compilation of sixteen narratives that address the experiences of Gulf Coast residents, faculty, and graduate students who were caught up in the largest (not so) natural disaster in United States history. Each contributor deploys storytelling sociology as a methodological approach in order to illustrate how “personal” experiences with disaster are not so personal, but rather reflect and are informed by larger social phenomena related to issues including race, class, gender, age, bureaucracy, risk, collective memory, the blasé, and more. The narratives in this volume exemplify how inequality and injustice are unveiled, exacerbated, and created by the occurrence of disaster; and reveal the sociological in everyday and not-so-everyday experiences.

Hellhole Kevin J. Anderson,Brian Herbert,2011-02-03 The planet Hellhole was devastated by a large asteroid impact centuries ago and most of its native species - including a sophisticated alien civilisation - were utterly wiped out. Now Hellhole has been opened up as part of a colonization initiative by the sprawling and decadent Galactic Monarchy, but only the hardest, or most desperate, pioneers and misfits would dare to settle there. This is their story of trying to tame a shattered world, and of uncovering secrets left behind by a devastated civilization.

Category 5 Ernest Zebrowski,Judith A. Howard,2007-05-08 The epic story of the real victims of a perfect storm—overwhelmingly the poor—left behind in the aftermath of a deadly hurricane “A riveting new book.” —Tallahassee Democrat “Not simply an historical account of a storm thirty-seven years ago but a living, breathing entity brimming with the modern-day reality that, yes, it can happen again.” —American Meteorological Society Bulletin Fascinating, easy-to-read, yet informative.” —Richmond Times-Dispatch “Almost like sitting in front of the television watching the events unfold. A page-turner from the very first page.” —Ruston Morning Paper “There is much we can all learn from this relevant and highly engaging chronicle.” — Biloxi Sun Herald “A must-read for anyone who wants to take an emotional stroll through the rubble of these Gulf Coast fishing communities and learn what happened.” —Apalachicola Times “Should be required reading for anyone living in the path of these terrible storms.” —Moondance.org As the unsettled social and political weather of summer 1969 played itself out amid the heat of antiwar marches and the battle for civil rights, three regions of the rural South were devastated by the horrifying force of Category 5 Hurricane Camille. Camille’s nearly 200 mile per hour winds and 28-foot storm surge swept away thousands of homes and businesses along the Gulf Coast of Louisiana and Mississippi. Twenty-four oceangoing ships sank or were beached; six offshore drilling platforms collapsed; 198 people drowned. Two days later, Camille dropped 108 billion tons of moisture drawn from the Gulf onto the rural communities of Nelson County, Virginia—nearly three feet of rain in 24 hours. Mountainsides were washed away; quiet brooks became raging torrents; homes and whole communities were simply washed off the face of the earth. In this gripping account, Ernest Zebrowski and Judith Howard tell the heroic story of America’s forgotten rural underclass coping with immense adversity and inconceivable tragedy. Category 5shows, through the riveting stories of Camille’s victims and survivors, the disproportionate impact of natural disasters on the nation’s poorest communities. It is, ultimately, a story of the lessons learned—and, in some cases, tragically unlearned—from that storm: hard lessons that were driven home once again in the awful wake of Hurricane Katrina. Ernest Zebrowski is founder of the doctoral program in science and math education at Southern University, a historically black university in Baton Rouge, Louisiana, and Professor of Physics at Pennsylvania State University’s Pennsylvania College of Technology. His previous books include Perils of a Restless Planet: Scientific Perspectives on Natural Disasters. Judith Howard earned her Ph.D. in clinical social work from UCLA, and writes a regular political column for the Ruston, Louisiana, Morning Paper.
