Ira Chaleff

*1952 Athena* Ohio University, 1952 Yearbook for Ohio University in Athens, Athens County, Ohio.

**Haiti** Ron Haviv, Simon Winchester, 2010-06 A unique, arresting and versatile document of the traumatic earthquake which hit Haiti in 2010 and its aftermath. Encased in a cardboard box, the project comprises 16 unbound posters and a map page which draws attention to the epicentre and its rippling impact on the population of the island. The unique format allows the viewer to absorb each page individually or to hang the entire project. The visual testimony to the events of the the first days after the event are provided by award-winning photographer Ron Haviv and the essay by esteemed writer Simon Winchester.

*The Courageous Follower* Ira Chaleff, 2009-11 For every leader there are dozens of followers working closely with them. This updated third edition speaks to those followers and gives them the insights and tools for being effective partners with their leaders.

**Drawings on a Bus** Ellsworth Kelly, 2007 This reproduction of Ellsworth Kelly's 1954 Sketchbook 23 offers a rare glimpse into the celebrated artist's rigorous exploration of line, form and composition. Drawn into a blank book and forming a single continuous gesture over 25 pages as the artist saw and captured the changing fall of shadows while riding on a bus in Paris, Kelly's line pursues a path of eccentric discovery and distillation through subtle variations and bold transformations.

**Secret Flotillas** Brooks Richards, 2004-08-02 With the fall of France, almost the entire coastline of Western Europe was in German hands. Clandestine sea transport operations provided lines of vital intelligence for wartime Britain. These 'secret flotillas' landed and picked up agents in and from France, and ferried Allied evaders and escapees. This activity was crucial to the SIS (Secret Intelligence Service) and the SOE (Special Operations Executive). This authoritative publication by the official historian, the late Sir Brooks Richards, vividly describes and analyses the clandestine naval operations that took place during World War Two.

**The Jedburghs** Will Irwin, 2009-04-29 The story of the Special Forces in World War II has never fully been told before. Information about them began to be declassified only in the 1980s. Known as the Jedburghs, these Special Forces were selected from members of the British, American, and Free French armies to be dropped in teams of three deep behind German lines. There, in preparation for D-Day, they carried out what we now know as unconventional warfare: supporting the French Resistance in guerrilla attacks, supply-route disruption, and the harassment and obstruction of German reinforcements. Always, they operated against extraordinary odds. They had to be prepared to survive pitched battles with German troops and Gestapo manhunts for weeks and months while awaiting the arrival of Allied ground forces. They were, in short, heroes. The Jedburghs finally tells their story and offers a new perspective on D-Day itself. Will Irwin has selected seven of the Jedburgh teams and told their stories as gripping personal narratives. He has gathered archival documents, diaries and correspondence, and interviewed Jed veterans and family members in order to present this portrait of their crucial role - a role recognized by Churchill and Eisenhower - in the struggle to liberate Europe in 1944-45. This is narrative history at its most compelling; a vivid drama of the battle for France from deep behind enemy lines.

**Commando Country** Stuart Allan, 2007 This publication offers a unique Scottish perspective on a popular subject written by the curator of the National War Museum of Scotland.

**Saint-Nazaire** James Dorrian, 2006-09-15 In early 1942, shipping losses in the Atlantic threatened Britain's very survival. In addition to the U-Boat menace, there was real concern that the mighty German battleship Tirpitz be unleashed against the vital Allied convoys. Yet only the 'Normandie' Dock at St Nazaire could take her vast size in the event of repairs being required. Destroy that and the Tirpitz would be neutralized. Thus was born Operation CHARIOT, the daring Commando raid that, while ultimately successful, proved hugely costly. Using personal accounts, James Dorrian describes the

background and thrilling action that resulted in the award of five Victoria Crosses. In a dramatic final twist of events, once the battle was over, the converted former US warship Campelton blew up wrecking the dock gates and killing many Germans who thought the battle was won.

F Section SOE Marcel Ruby, 1988-09-26 The F-Section of the SOE was a department that stood for French Section, whose job it was to carry out Churchill's famous command to 'set Europe alight'. This is the story of F-Section.

**Special Operations Executive** Mark Seaman, 2013-01-11 This unique book presents an accurate and reliable assessment of the Special Operations Executive (SOE). It brings together leading authors to examine the organization from a range of key angles. This study shows how historians have built on the first international conference on the SOE at the Imperial War Museum in 1998. The release of many records then allowed historians to develop the first authoritative analyses of the organization's activities and several of its agents and staff officers were able to participate. Since this groundbreaking conference, fresh research has continued and its original papers are here amended to take account of the full range of SOE documents that have been released to the National Archives. The fascinating stories they tell range from overviews of work in a single country to particular operations and the impact of key personalities. SOE was a remarkably innovative organization. It played a significant part in the Allied victory while its theories of clandestine warfare and specialised equipment had a major impact upon the post-war world. SOE proved that war need not be fought by conventional methods and by soldiers in uniform. The organization laid much of the groundwork for the development of irregular warfare that characterized the second half of the twentieth century and that is still here, more potent than ever, at the beginning of the twenty-first. This book will be of great interest to students of World War II history, intelligence studies and special operations, as well as general readers with an interest in SOE and World War II.

**A Holiday Roundelay**, 2013-09 Joyous noels resound in this bright, festive holiday celebration from gifted composer Victor Johnson. Contrasting legato sections add to the musical interest and help to spell success in this excellent programming choice for young and developing choirs.

*Fire from the Forest* Roger Ford, 2004 This is a comprehensive account of the behind-the-lines operations that preceded and supported the D-Day landings and the breakout from Normandy. The French resistance played a key role in undermining German resistance during the liberation of France in 1944. They destroyed vital railways, ambushed convoys and tied down large numbers of German troops in security patrols. Many attacks were spearheaded by British and American special forces, the SAS and US 'Jedburgh teams' (ancestors of the 'Green Berets'). German reaction to their assaults was brutal in the extreme. SS units were unleashed on civilian populations and the Vichy French milice made this a French civil war. Both sides executed prisoners as a matter of routine. It is a sanguinary tale that exposes the limits as well as the potential of elite military units and civilian resistance movements.

**SS Hunter Battalions** Perry Biddiscombe, 2006-11-15 Conventional wisdom suggests that the Allies and the Soviets were the only side in the Second World War to support resistance movements. This book shows that Hitler had his own version of the SOE and the OSS, and that the Nazis too encouraged underground resistance against their enemies, especially as Europe was liberated in 1944-5.

She Landed By Moonlight Carole Seymour-Jones, 2013-07-04 On the night of the 22 September 1943 Pearl Witherington, a twenty-nine-year-old British secretary and agent of the Special Operations Executive (SOE), was parachuted from a Halifax bomber into Occupied France. Like Sebastian Faulks' heroine, Charlotte Gray, Pearl had a dual mission: to fight for her beloved, broken France and to find her lost love. Pearl's lover was a Parisian parfumeur turned soldier, Henri Cornioley, who had been taken prisoner while serving in the French Logistics Corps and subsequently escaped from his German POW camp. Agent Pearl Witherington's wartime record is unique and heroic. As the only woman agent in the history of SOEs in France to have run a network, she became a fearless and legendary guerrilla leader organising, arming and training 3,800 Resistance fighters. Probably the greatest

female organiser of armed maquisards in France, the woman whom her young troops called 'Ma Mère', Pearl lit the fires of Resistance in Central France so that Churchill's famous order to 'set Europe ablaze', which had brought SOE into being, finally came to pass. Pearl's story takes us from her harsh, impoverished childhood in Paris, to the lonely forests and farmhouses of the Loir-et-Cher where she would become a true 'warrior queen'. Shortly before Pearl's death in 2008, the Queen presented her with a CBE in Paris. While male agents and Special Force Jedburghs received the DSO or Military Cross, an ungrateful country had forgotten Pearl. She had been offered a civilian decoration in 1945 which she refused, saying 'There was nothing civil about what I did.' But what pleased her most was to receive her Parachute Wings, for which she had waited over 60 years. Two RAF officers travelled to her old people's home and she was finally able to pin the coveted wings on her lapel. Pearl died in February 2008 aged 93.

**Beaulieu** Cyril Cunningham, 2005-07-19 This book is the outcome of a difficult investigation, and a very remarkable story it is too. It was at Beaulieu that a large number of agents from Britain and the Nazi-occupied countries of Europe were trained in the delicate arts of secret inks, coding, clandestine communications and black propaganda, along with such nefarious skills as silent killing, housebreaking, safe-blowing, forgery, unattributable sabotage and survival techniques. And they were taught by some extraordinary characters including former spies, a professional burglar and the infamous Kim Philby, who played a significant role in the design of the curriculum.

**Average Is Over** Tyler Cowen, 2013-09-12 Renowned economist and author of Big Business Tyler Cowen brings a groundbreaking analysis of capitalism, the job market, and the growing gap between the one percent and minimum wage workers in this follow-up to the New York Times bestseller The Great Stagnation. The United States continues to mint more millionaires and billionaires than any country ever. Yet, since the great recession, three quarters of the jobs created here pay only marginally more than minimum wage. Why is there growth only at the top and the bottom? Economist and bestselling author Tyler Cowen explains that high earners are taking ever more advantage of machine intelligence and achieving ever-better results. Meanwhile, nearly every business sector relies less and less on manual labor, and that means a steady, secure life somewhere in the middle—average—is over. In Average is Over, Cowen lays out how the new economy works and identifies what workers and entrepreneurs young and old must do to thrive in this radically new economic landscape.

A Life in Secrets Sarah Helm, 2008-12-10 From an award-winning journalist comes this real-life cloak-and-dagger tale of Vera Atkins, one of Britain's premiere secret agents during World War II. As the head of the French Section of the British Special Operations Executive, Vera Atkins recruited, trained, and mentored special operatives whose job was to organize and arm the resistance in Nazi-occupied France. After the war, Atkins courageously committed herself to a dangerous search for twelve of her most cherished women spies who had gone missing in action. Drawing on previously unavailable sources, Sarah Helm chronicles Atkins's extraordinary life and her singular journey through the chaos of post-war Europe. Brimming with intrigue, heroics, honor, and the horrors of war, A Life in Secrets is the story of a grand, elusive woman and a tour de force of investigative journalism.

A House for Spies Edward Wake-Walker, 2011 This is the story of the bizarre role played by Barbara Bertram in the Second World War. From 1941 to 1944 she provided board and lodging in her Sussex farmhouse to men and women of the French Resistance who, acting as intelligence agents for the Secret Intelligence Service (MI6), were flown by moonlight in and out of Tangmere aerodrome by RAF Lysander pilots. Barbara's husband was a conducting officer for the SIS and his house, Bignor Manor, near Petworth, was deemed to be the perfect undercover stopover for agents waiting for their flight into occupied France. As well as Barbara's experiences, which included sewing suicide pills into the cuffs of agents who requested it, the book follows the mixed fortunes of the Lysander pilots and the agents themselves, several of whom were captured, tortured and killed in their efforts to get German military intelligence back to the UK.

Blue Sky God Don MacGregor,2012-07-27 Blue Sky God interprets some new scientific theories with blue sky thinking to bring radical insights into God, Jesus and humanity, drawing also on some deep wells from the past in the writings of the early Christians. In an accessible style, it looks at science research and theories in areas such as quantum physics and consciousness, epigenetics, morphic resonance and the zero point field. From there, seeing God as the compassionate consciousness at the ground of being, it draws together strands to do with unitive consciousness and the Wisdom way of the heart. Throughout, it seeks to encourage an evolution in understanding of the Christian message by reinterpreting much of the theological language and meaning that has become 'orthodoxy' in the West. In doing so, it challenges many of the standard assumptions of Western Christianity. It outlines a spiritual path that includes elements from all of the world's great religions, is not exclusive, and yet has a place of centrality for Jesus the Christ as a Wisdom teacher of the path of transformative love. ,

They Fought Alone Maurice Buckmaster,2023-05-15 They Fought Alone, first published in 1958, is the story of the British SOE (Special Operations Executive) in France, written by Colonel Maurice James Buckmaster (1902-1992), the head of the SOE French Section. The SOE was formed in 1940 to conduct espionage, sabotage and reconnaissance missions in occupied Europe during World War II. Included are accounts of the heroic men and women who worked quietly and often alone behind enemy lines to carry out resistance operations against the Nazis, serving to speed the Allied advance following D-Day.
