Real Feature Writing Abraham Aamidor, 2014-04-08 Real Feature Writing emphasizes story shape and structure by illustrating several distinct types of feature and non-fiction stories, all drawn from the real world. Author Abraham Aamidor presents a collection of distinct non-deadline story types (profile, trend, focus, advocacy, and more), providing an introduction to each story type, a full-text example, a critical analysis of the example, and clear directions for producing similar stories. In this second edition, Aamidor and his guest contributors (all with real-world journalistic experience) demonstrate in clear, honest language how to write features. New for this edition are: *updated examples of feature writing, integrated throughout the text;*a chapter on ethical journalism, which takes a critical look at propaganda;*a chapter on international perspectives, including coverage of issues in the Middle East;*chapters on research, freelancing, content editing, copyediting, and literary journalism. This text is appropriate for upper-level journalism students, and will be a valuable resource for freelance writers and young working journalists needing guidance on writing features.

Reinventing the Feature Story Stephanie Shapiro, 2005 Although literary journalism is now widely accepted as an integral part of all American prose literature, there has been scant examination of its underlying themes, which have remained constant even as the literature itself has evolved. By looking at literary journalism as narrative - the artifact of myth - its cultural power and history are revealed. As a

vehicle of myth, literary journalism's growth corresponds to the progression of myth through its primary, romantic and consummatory stages. Each stage of literary journalism is a tool for converting readers through sensational example to the moral values and social obligations of a particular myth stage. Each stage of myth creates the need for the subsequent stage in a continual literary cycle.

Writing for Story Jon Franklin, 1994-09-01 The new nonfiction—the adaptation of storytelling techniques to journalistic articles in the manner of Truman Capote, Tom Wolfe, and John McPhee—is an innovative genre that has been awarded virtually every Pulitzer Prize for literary journalism since 1979. And now Jon Franklin, himself a two-time Pulitzer Prize winner and undisputed master of the great American nonfiction short story, shares the secrets of his success. Franklin shows how to make factual pieces come alive by applying the literary techniques of complication/resolution, flashback, foreshadowing, and pace. He illustrates his points with a close analysis and annotation of two of his most acclaimed stories, so that the reader can see, step-by-step, just how they were created. This lively, easy-to-follow guide combines readability and excitement with the best of expository prose and illuminates the techniques that beginning journalists—and more experienced ones, too—will find immensely helpful: Stalking the true short story Drafting an effective outline Structuring the rough copy Polishing like a pro and the tips, tools, and techniques that will put your stories on the cutting edge

Feature Writing N. MEERA RAGHAVENDRA

RAO, 2012-09-12 If we ask the lay readers why they read newspapers, the obvious answer would be to get news. However, what keeps the newspaper endearing and, in a way, enduring are the longer stories about people behind the news, about the humorous everyday experiences we all have, or the closer look at someone and the unexpected surprises we get in the process. In short, we call these features. In this substantially revised book on Feature Writing, the author with her vast experience discusses various aspects of Feature Writing. She focuses on different types of features found in newspapers—Humour and Satire, Brights, Human Interest Features, Travel Features and News Features—and illustrates each of these. In addition, she provides a detailed description of Profiles, Interviews, and Online Features with examples, and gives a clear analysis of Feature Writing Techniques. Intended as a text for students offering courses in Journalism, this book would also be extremely useful for freelance writers, and anyone who has a flair for writing. What is New to THE SECOND Edition Includes two new chapters on Obituary and Tribute, and Sports and new sections such as Blogs and Professionalism in Journalism. Provides more illustrations culled from recent newspapers. Gives explanatory notes on some key words

used in the book, and a section on Vocabulary. What the Reviewers Say In this delightful book on FW [Feature Writing], Meera Raghavendra Rao brings home to us that writing a story or a novel is one way of discovering sequence in experience, of stumbling upon cause and effect in the happenings of a writer's own life. In my view Meera Raghavendra Rao's book on FW is an exceptionally good and useful book not only for all students of Journalism but also for all writers interested in FW. —V. Sundaram, News Today The author has used instances from her career spanning more than two decades to illustrate various situations in this book. —Deccan Chronicle The book is a rather exhaustive guide on ways to tell a feature story. Among the other pluses is the Indianness permeating the book—most sample articles are home-brewn. —The Hindu, Metroplus Weekend
