Charles T. Hill

Fire Stephen J. Pyne,2019-08-12 Over vast expanses of time, fire and humanity have interacted to expand the domain of each, transforming the earth and what it means to be human. In this concise yet wide-ranging book, Stephen J. Pyne—named by Science magazine as “the world’s leading authority on the history of fire”—explores the surprising dynamics of fire before humans, fire and human origins, aboriginal economies of hunting and foraging, agricultural and pastoral uses of fire, fire ceremonies, fire as an idea and a technology, and industrial fire. In this revised and expanded edition, Pyne looks to the future of fire as a constant, defining presence on Earth. A new chapter explores the importance of fire in the twenty-first century, with special attention to its role in the Anthropocene, or what he posits might equally be called the Pyrocene.

Young Men and Fire Norman MacLean,2017-05-01 National Book Critics Circle Award Winner: “The terrifying story of the worst disaster in the history of the US Forest Service’s elite Smokejumpers.” —Kirkus Reviews A devastating and lyrical work of nonfiction, *Young Men and Fire* describes the events of August 5, 1949, when a crew of fifteen of the US Forest Service’s elite airborne firefighters, the Smokejumpers, stepped into the sky above a remote forest fire in the Montana wilderness. Two hours after their jump, all but three of the men were dead or mortally burned. Haunted by these deaths for forty years, Norman Maclean puts together the scattered pieces of the Mann Gulch tragedy in this extraordinary book. Alongside Maclean’s now-canonical *A River Runs Through It* and *Other Stories*, *Young Men and Fire* is recognized today as a classic of the American West. This edition of Maclean’s later triumph—the last book he would write—includes a powerful new foreword by Timothy Egan, author of *The Big Burn* and *The Worst Hard Time*. As moving and profound as when it was first published, *Young Men and Fire* honors the literary legacy of a man who gave voice to an essential corner of the American soul. “A moving account of humanity, nature, and the perseverance of the human spirit.” —Library Journal “Haunting.” —The Wall Street Journal “Engrossing.” —Publishers Weekly

Fire in the United States ,

Forest Fire Creates Inferno Louise Spilsbury,Richard Spilsbury,2017-12-15 Forest fires can happen naturally, but the truth is that people cause them, too, often to terrible consequences. Readers learn how they start in both cases as well as how these fires spread, the damage they cause the environment, and how firefighters fight them on the ground and in the air. Case studies of recent forest fires, including the 2016 fires in California, provide readers with real-life examples to encourage connections between the book's STEM content and social studies concepts of conservation, community engagement, and the huge project of cleaning up a natural disaster like a forest fire.

All Fires the Fire Julio Cortázar,Suzanne Jill Levine,2020-04-28 “One of the most adventurous and rewarding collections since the publication of Cortázar’s own *Blow-up*.” —Los Angeles Times A traffic jam outside Paris lasts for weeks. Che Guevara and Fidel Castro meet on a mountaintop during the Cuban Revolution. A flight attendant becomes obsessed with a small Greek island, resulting in a surreal encounter with death. In *All Fires the Fire*, Julio Cortázar (author of *Hopscotch* and the short story “Blow-Up”) creates his own mindscapes beyond space and time, where lives intersect for brief moments and situations break and refract. *All Fires the Fire* contains some of Julio Cortázar’s most beloved stories. It is a classic collection by “one of the world’s great writers” (Washington Post).

FIRE Dan Ward,2014-04-29 Noted military technology expert Dan Ward's manifesto for creating great products and projects using the methods of rapid innovation. Why do some programs deliver their product under cost, while others bust their budget? Why do some deliver ahead of schedule, while others experience endless delays? Which products work better—the quick and thrifty or the slow and expensive? Which situation leads to superior equipment? With nearly two decades as an engineering officer in the U. S. Air Force, Dan Ward explored these questions during tours of duty at military research laboratories, the Air Force Institute of Technology, an intelligence agency, the Pentagon and Afghanistan. The pattern he noticed revealed that the most successful project leaders in both the public and private sectors delivered top-shelf products with a skeleton crew, a shoestring budget, and a cannonball schedule. Excessive investment of time, money, or complexity actually reduced innovation. He concluded the secret to innovation is to be fast, inexpensive, simple, and small. *FIRE* presents an entertaining and practical framework for pursuing rapid, frugal innovation. A story-filled blend of pop culture and engineering insight, *FIRE* has something for everyone: strategic concepts leaders can use as they cast a vision, actionable principles for managers as they make business decisions, and practical tools for workers as they design, build, assess and test new products.

Fire and Ashes John N. Maclean,2004-06-01 An expert's report on why wildland fires keep getting hotter, bigger, and more dangerous to the men and women who fight them Are wilderness fires now a tragic and enduring feature of the American landscape? John N. Maclean, author of the acclaimed *Fire on the Mountain*, offers a view from the front lines, combining action-packed storytelling with moving insights about firefighters and informed analysis of firefighting strategy past and present. Beginning with a riveting account of the worst case of arson in wildfire history-the 1953 Rattlesnake Fire in Mendocino National Forest, which claimed the lives of fifteen firefighters-Maclean explains the mysterious dynamics of fire, and the courage and techniques required to combat it.

Given the mounting, unsustainable costs and difficulty translating existing wildland fire science into policy, the National Academies of Sciences, Engineering, and Medicine organized a 1-day workshop to focus on how a century of wildland fire research can contribute to improving wildland fire management. This publication summarizes the presentations and discussions from the workshop.

Fire Study Maria V. Snyder,2020-09-14 From New York Times Bestselling Author Maria V. Snyder The apprenticeship is over—now the real test has begun. On Fire John O’Leary,2016-03-15 In the bestselling tradition of Brene Brown’s *Daring Greatly* and Nick Vujicic’s *Life Without Limits* comes a rousing 7-step plan for living a life on fire, filled with hope and possibility—from an inspirational speaker who survived a near-fatal fire at the age of nine and now runs a successful business inspiring people all around the world. When John O’Leary was nine years old, he was almost killed in a devastating house fire. With burns on one hundred percent of his body, O’Leary mustered an almost unimaginable amount of inner strength just to survive the ordeal. The insights he gained through this experience and the heroes who stepped into his life to help him through the journey—his family, the medical staff, and total strangers—changed his life. Now he is committed to living life to the fullest and inspiring others to do the same. An incredible and emotionally honest account of triumph over tragedy, *On Fire* contains O’Leary’s reflections on being that little boy, the life-giving choices made then, and the resulting lessons he learned. O’Leary very clearly shares that without the right people providing the right guidance, at the right time, he never would have made it through those five months in the hospital, let alone the years that followed as he struggled to regain mobility, embrace his story, and ignite clarity of his life’s purpose. *On Fire* encourages us to seize the power to choose our path and transform our lives from mundane to extraordinary. Once we stop thinking solely on the big moments in our lives, we can begin to focus on those smaller opportunities that tend to pass us by. These are the events—the inflection points in our lives—that can determine how we feel about life now, where we are headed in the future, and how many lives we can impact along the way. We can’t always choose the path we walk, but we can choose how we walk it. Empowering, inspiring, remarkably honest, and heartfelt, O’Leary’s strength and incredible spirit shine through on every page.

The Strand Theatre Fire: The 1941 Brockton Tragedy and the Fallen Thirteen James E. Benson & Nicole B. Casper,2017-03-06 On March 10, 1941, at 12:38 a.m., the Brockton Fire Department responded to Fire Alarm Box 1311, which was pulled for a fire at the Strand Theatre. Fire Alarm dispatched the deputy chief, three engine companies, a ladder company and Squad A. Within six minutes, a second alarm was struck. Less than one hour after the first alarm, the roof of the Strand collapsed, and what appeared to be a routine fire turned into a disaster that killed thirteen firefighters and injured more than twenty others. The disaster marks one of the largest losses of life to firefighters from a burning building collapse in the United States. Jim Benson and Nicole Casper chronicle this devastating tragedy and celebrate the community's heroes and resilience in the face of adversity.
