History and Legend in Romanian Short Stories and Tales ; Translated by Ana Cartianu ; Foreword by Mihai Zamfir, 1983

The Story of Pasquale Pagano and Antonia Larussa and Family Camille Gendusa Bluestein, 2015-02-11 Being a bit introverted, I spent a lot of time at home with my mother in my youth. She confided many of her more private feelings and thoughts about her mother, Antonia. From what I could understand, the subject was off limits in her family circle. Perhaps she felt it was easier to talk about it with me rather than her brothers. Her sister lived in California. She lost her mother when she was three years old, so she had no memories of her. She wondered what her mother looked like, as she had no photos of her. Then she unraveled the sad story of her mother's demise. I write this book to add some closure to the story. The demise of Antonia fractured the Pagano family and has scarred several generations. Hopefully, in my small way, I can relate the pleasant as well as the less pleasant qualities of the lives of Antonia and Pasquale. Also in this book, I would like to celebrate the extended Pagano family. In spite of a sad glitch in its history, the extended family has much to be proud of. Note: There is a large notebook titled Pagano Family Archives in the home of the author. The entire set of documents is stored there for anyone who wants to view it.

The Globalization of Musics in Transit Simone Krüger, Ruxandra Trandafoiu, 2013-12-04 This book traces the particularities of music migration and tourism in different global settings, and provides current, even new perspectives for ethnomusicological research on globalizing musics in transit. The dual focus on tourism and migration is central to debates on globalization, and their examination—separately or combined—offers a useful lens on many key questions about where globalization is taking us: questions about identity and heritage, commoditization, historical and cultural representation, hybridity, authenticity and ownership, neoliberalism, inequality, diasporization, the relocation of allegiances, and more. Moreover, for the first time, these two key phenomena—tourism and migration—are studied conjointly, as well as interdisciplinary, in order to derive both parallels and contrasts. While taking diverse perspectives in embracing the contemporary musical landscape, the collection offers a range of research methods and theoretical approaches from ethnomusicology, anthropology, cultural geography, sociology, popular music studies, and media and communication. In so doing, *Musics in Transit* provides a rich exemplification of the ways that all forms of musical culture are becoming transnational under post-global conditions, sustained by both global markets and musics in transit, and to which both tourists and diasporic cosmopolitans make an important contribution.

The Story of the Lost Child Elena Ferrante, 2016-07-06 Elena and Lila are now adults; life's great discoveries have been made, its vagaries and losses have been suffered. Through it all, the women's friendship remained the gravitational center of their lives. Both once fought to escape the violence and corruption of Naples. Brilliant and bookish, Elena succeeded but has returned to be with the man she always loved. And fiery, uncontrollable Lila, who never managed to free herself, has become a successful entrepreneur and an unacknowledged leader of her world.

That Summer in Sicily Marlena De Blasi, 2008 The author describes a summer in Sicily where she uncovered the story of Tosca, the daughter of a poor horse trader, who became the ward of the local prince and his family and eventually had a love affair with the prince.

The Story of a New Name Elena Ferrante, 2015-04-22 The Story of a New Name is an extraordinary novel about two young women, Lila and Elena, growing up in Naples in the early 1960s. At sixteen Lila marries the shopkeeper Stefano. She is filled with pleasure at her new wealth, and horror at the life she has chosen. Elena's own attempts at romance seem to be sabotaged by Lila's turbulent affairs. As she tries to plot her way out of poverty via academic and literary success, her constant anxiety is that she is just a shadow of the brilliant Lila. The sequel to *My Brilliant Friend*, *The Story of a New Name* continues the enthralling chronicle of a friendship that is obsessive, loving, complicated, hurtful, enduring and constantly startling. It is an exhilarating reading experience.

DREAMLAND and Other Stories Jan Mazzoni, 2018-08-16 DREAMLAND and other stories REWIEWSA collection of stories that brought me into the diversity of life along this Italian coastline with colour, veracity, poignancy and humour. There wasn't a dull page or character. Peter PleaseReally enjoyed these, though was surprised at the thread of sadness running through them. Then again, I suppose bad things happen even in dreamland. Luella CarterWonderfully vivid word paintings. Made me want to book my next flight to Italy right away. Kirsten BolwigIt's dawn, and a young boy tiptoes out of the guesthouse where his mother and her boyfriend lie sleeping, having no idea where to go, knowing only that he has to get away. As far away as possible. An elderly countess falls in love with a stray dog and - for one long, torrid summer - her life is complete. Two women, best friends and passionate fans of the writer Patricia Highsmith, follow in her footsteps in a story with a nasty twist in the tail. A priest waits patiently in a dusty confessional hoping, praying for a soul to save. Nearby, a happily married woman sits drinking cappuccino and debating whether or not to go to bed - just the once - with a total stranger. The World Cup is on and impossible to miss. Even the peaceful mountain top town of Ravello has been turned into a football lout's playground, much to the dismay of at least one tourist. Picture it. The famous Amalfi coastline, widely acknowledged to be one of the most stunningly beautiful parts of Italy. But be warned. Something happens to people when they step out of their everyday lives into a world that until then has existed only in their imagination, or their dreams. They change. They may start acting completely out of character, or discover their true long-hidden selves. They grow braver, more reckless, or sometimes more stupid. They learn things they never knew they needed to know. They forget things that maybe they shouldn't. They fall in love, and off walls. The Amalfi coast leaves no-one untouched. For years it was a favourite with the jet-setters, an elite group who kept it very much to themselves. Then in the 1980s package tours made it possible for everyone to see what they'd been missing. These are the stories of just a few of those early visitors who discovered the charms of the coast when the locals still lived much as they had for generations. Before it became a World Heritage Site. Before the invasion. Sad, moving,

funny, these stories will take you on a journey to an Italy that may look familiar, but is already - sadly - part of the past. Catch it while you can.

Diaspora Online Ruxandra Trandafoiu, 2013-04-30 After the fall of the Iron Curtain in 1989, millions of Romanians emigrated in search of work and new experiences; they became engaged in an interrogation of what it meant to be Romanian in a united Europe and the globalized world. Their thoughts, feelings and hopes soon began to populate the virtual world of digital and mobile technologies. This book chronicles the online cultural and political expressions of the Romanian diaspora using websites based in Europe and North America. Through online exchanges, Romanians perform new types of citizenship, articulated from the margins of the political field. The politicization of their diasporic condition is manifested through written and public protests against discriminatory work legislation, mobilization, lobbying, cultural promotion and setting up associations and political parties that are proof of the gradual institutionalization of informal communications. Online discourse analysis, supplemented by interviews with migrants, poets and politicians involved in the process of defining new diasporic identities, provide the basis of this book, which defines the new cultural and political practices of the Romanian diaspora.

The Secret of Our Success Joseph Henrich, 2017-10-17 How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, *The Secret of Our Success* explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

Evolutionary Psychopathology Marco Del Giudice, 2018-07-06 Mental disorders arise from neural and psychological

mechanisms that have been built and shaped by natural selection across our evolutionary history. Looking at psychopathology through the lens of evolution is the only way to understand the deeper nature of mental disorders and turn a mass of behavioral, genetic, and neurobiological findings into a coherent, theoretically grounded discipline. The rise of evolutionary psychopathology is part of an exciting scientific movement in psychology and medicine -- a movement that is fundamentally transforming the way we think about health and disease. Evolutionary Psychopathology takes steps toward a unified approach to psychopathology, using the concepts of life history theory -- a biological account of how individual differences in development, physiology and behavior arise from tradeoffs in survival and reproduction -- to build an integrative framework for mental disorders. This book reviews existing evolutionary models of specific conditions and connects them in a broader perspective, with the goal of explaining the large-scale patterns of risk and comorbidity that characterize psychopathology. Using the life history framework allows for a seamless integration of mental disorders with normative individual differences in personality and cognition, and offers new conceptual tools for the analysis of developmental, genetic, and neurobiological data. The concepts presented in Evolutionary Psychopathology are used to derive a new taxonomy of mental disorders, the Fast-Slow-Defense (FSD) model. The FSD model is the first classification system explicitly based on evolutionary concepts, a biologically grounded alternative to transdiagnostic models. The book reviews a wide range of common mental disorders, discusses their classification in the FSD model, and identifies functional subtypes within existing diagnostic categories.
