A Musical Offering Luis Sagasti,2020-07-21 A lyrical celebration of storytelling, of childhood, and of the transformative power of music. Tracing a circular course that echoes Bach’s Goldberg Variations , Luis Sagasti’s second book to appear in English takes the guise of a musical scheherazade, recounting story after story, vibrating to celestial harmonies. From the music born of the sun to the music sent into space on the Voyager mission, from Rothko to rock music, from the composers of the concentration camps to a weeping room for Argentinian conscripts in the Falklands, A Musical Offering traverses the shifting sands of fiction and history.

Revulsion: Thomas Bernhard in San Salvador Horacio Castellanos Moya,2016-07-26 The 1997 novel that put Horacio Castellanos Moya on the map, now published for the first time in English An expatriate professor, Vega, returns from exile in Canada to El Salvador for his mother’s funeral. A sensitive idealist and an aggrieved motor mouth, he sits at a bar with the author, Castellanos Moya, from five to seven in the evening, telling his tale and ranting against everything his country has to offer. Written in a single paragraph and alive with a fury as astringent as the wrath of Thomas Bernhard, Revulsion was first published in 1997 and earned its author death threats. Roberto Bolano called Revulsion Castellanos Moya’s darkest book and perhaps his best: “A parody of certain works by Bernhard and the kind of book that makes you laugh out loud.”

Agape Agape William Gaddis,2003-09-30 William Gaddis published four novels during his lifetime, immense and complex books that helped inaugurate a new movement in American letters. Now comes his final work of fiction, a subtle, concentrated culmination of his art and ideas. For more than fifty years Gaddis collected notes for a book about the mechanization of the arts, told by way of a social history of the player piano in America. In the years before his death in 1998, he distilled the whole mass into a fiction, a dramatic monologue by an elderly man with a terminal illness. Continuing Gaddis's career-long reflection on those aspects of corporate technological culture that are uniquely destructive of the arts, Agape Agape is a stunning achievement from one of the indisputable masters of postwar American fiction.

Suddenly terror engulfs Nora: She must defend herself against fantastic accusations even as a madman lies in wait. And when he springs, Nora will embark on a night journey that will put her fears to rest forever, dead or alive. . . .

City of Belgium Brecht Evens,2021-12-01 An exquisitely drawn exploration of three lost souls’ emotional terrain As night falls in the City of Belgium, three strangers in their late twenties—a most dangerous age—arrive at a popular restaurant. Jona is about to move away; he calls his wife, who’s already settled in Berlin, before trying to make plans with friends for one last night on the town. No one bites—they’re all busy or maybe they just don’t want to party—but he’s determined to make this night something to remember. Victoria is lively and energetic, but surrounded by friends and family who are buzzkills, always worrying about what is best for her. Rodolphe glumly considers his own misery and then suddenly snaps out of it, becoming the life of the party. The three careen through the city’s nightlife spots and underbelly, getting ever deeper in the messiness of human existence as they chase pleasure—or at least a few distractions from their daily lives. Each has a series of misadventures that reveal them to be teetering on the edge of despair, of destruction, of becoming the people they’ll be for the rest of their lives. The City of Belgium occupies a place between lucid dream and tooth-grinding nightmare.

Technics and Civilization Lewis Mumford,2010-10-30 Technics and Civilization first presented its compelling history of the machine and critical study of its effects on civilization in 1934—before television, the personal computer, and the Internet even appeared on our periphery. Drawing upon art, science, philosophy, and the history of culture, Lewis Mumford explained the origin of the machine age and traced its social results, asserting that the development of modern technology had its roots in the Middle Ages rather than the Industrial Revolution. Mumford sagely argued that it was the moral, economic, and political choices we made, not the machines that we used, that determined our then industrially driven economy. Equal parts powerful history and polemic criticism, Technics and Civilization was the first comprehensive attempt in English to portray the development of the machine age over the last thousand years—and to predict the pull the technological still holds over us today. “The questions posed in the first paragraph of Technics and Civilization still deserve our attention, nearly three quarters of a century after they were written.”—Journal of Technology and Culture

Hangar Sweepings Harold Mills,2009-01-30 After Charles Lindbergh made his historic non-stop flight from NY to Paris, the whole country went air crazy. All the fashionable young women wore cloche hats with simulated goggles and danced the Lindy Hop. My Mom was one of these. The following year, when I was three, we stood in front yard and cheered when Lindy flew over in the Spirit of St. Louis in the front seat of Curtis Jenny. I never got over it. My Dad only flew once in his life, with me after I got a Private license. It was a trust thing. He sat in the back seat of Cub rigid as a board the whole time. These stories all first appeared in the Carolina Unicom which is the monthly newsletter of the EAA Chapter 1083 based at the Rowan County Airport in Salisbury NC. The stories were gleaned from my days as a Ramp Rat at the airport and 22 years as a Photo Interpreter in the Air Force. The pencil sketches were made by my youngest son, Curtis. Some of the photos were made by me, the others were made by my old friend, G.C. Luke Teeter, John Suther, Jim Torrence and Smith Kirk.
