A History of Folding in Mathematics Michael Friedman,2018-05-25 While it is well known that the Delian problems are impossible to solve with a straightedge and compass – for example, it is impossible to construct a segment whose length is cube root of 2 with these instruments – the discovery of the Italian mathematician Margherita Beloch Piazzolla in 1934 that one can in fact construct a segment of length cube root of 2 with a single paper fold was completely ignored (till the end of the 1980s). This comes as no surprise, since with few exceptions paper folding was seldom considered as a mathematical practice, let alone as a mathematical procedure of inference or proof that could prompt novel mathematical discoveries. A few questions immediately arise: Why did paper folding become a non-instrument? What caused the marginalisation of this technique? And how was the mathematical knowledge, which was nevertheless transmitted and prompted by paper folding, later treated and conceptualised? Aiming to answer these questions, this volume provides, for the first time, an extensive historical study on the history of folding in mathematics, spanning from the 16th century to the 20th century, and offers a general study on the ways mathematical knowledge is marginalised, disappears, is ignored or becomes obsolete. In doing so, it makes a valuable contribution to the field of history and philosophy of science, particularly the history and philosophy of mathematics and is highly recommended for anyone interested in these topics.

This new interactive origami kit combines the fun of origami paper folding with the life-changing lessons of the Bible. This kit comes complete with 64 sheets of printable, double-sided folding paper for 33 different models, a full-color book, and downloadable backdrops that help youngsters tell the most popular tales from the Old and New Testaments in church or at home, including: Adam and Eve--The creation of the world according to Genesis--beware, there's a snake in the garden! Noah's Ark--Noah and company would have been in over their heads if not for God's providence. Don't miss the boat! Moses and the Ten Commandments--God liberates the Israelites and shows them a new way to live--it's written in stone! Daniel in the Lion's Den--God rescues his faithful servant from becoming so much lion chow. David and Goliath--David has a giant problem, but God never misses an opportunity to rescue the faithful. The Annunciation--Mary gets good news from none other than the archangel Gabriel--pass it on! The First Christmas--Where does baby Jesus hit the hay? In a manger, of course, where both lowly shepherds and noble kings honor him. The Story of Easter--Don't you love a comeback story? Look no further! After sacrificing his son on the cross, God raises Jesus from the dead, triumphing over death and evil. Christ, the Good Shepherd--This reassuring tale reminds us of a loving God who guards us and guides us--even when things get wild and wooly! Intended for children and young adults, these interactive models enable you to retell the powerful biblical stories using lifelike folded paper figurines. The figures can be displayed as dioramas and to stage miniature reenactments that bring these sacred Bible stories to life--the perfect Sunday school craft for kids. The Art of the Fold Hedi Kyle,Ulla Warchol,2018-10-02 The influential artist Hedi Kyle and renowned architecture graduate Ulla Warchol shows you how to create their unique designs using folding techniques. From creating flag books and fishbones, to blizzards and nesting boxes, you'll gain an invaluable insight into the work of two skilled artists with this fun read! With the help of their thorough instructions and simple illustrations, you'll be on your way to becoming a pro paper crafter in no time at all – Sew magazine A wonderful insight into the work of a truly skilled artist – PaperCrafter The renowned and influential book artist Hedi Kyle shows you step-by-step how to create her unique designs using folding techniques in The Art of the Fold. Bookbinding and paper craft projects include flag books, blizzard books, the fishbone fold, and nesting boxes. Written by the doyenne of artists' books, Hedi Kyle, The Art of the Fold is a wonderful insight into the work of a truly skilled artist. Hedi will show you how to bind a book and fold paper to create over 35 of her cut-fold book designs. The book is beautifully illustrated with Hedi's finished works of art. An excerpt from the book: 'I can still remember the thrill I experienced when my first folded book structure emerged from my fingers – how eager I was to explore its possibilities and to share it with whoever was interested. The Flag Book, as I now call it, is a simple accordion and has interlocking pages oriented in opposite directions. Little did I know that this simple structure would have legs and be the catalyst for the next forty-plus years of thinking about and making books. The common perception of the book today is fairly straightforward: a series of pages organized around a spine and protected on either side by two covers. This format allows for easy access, storage and retrieval of information. Yet what happens when the book is stripped away of centuries of preconceptions and is allowed to reveal something else: playfulness, utility, invention? Expanding the notion of the book is what the structures in the following chapters of The Art of the Fold attempt to do. Exploring its tactile, sculptural form, primarily through folding methods, the book as a structural object is celebrated while content is considered in a new and unconventional way. My range in this medium has always been broad. In part this is due to my introduction to the world of bookbinding and some chance encounters. In the 1970s in New York City, the art and craft of hand bookbinding and papermaking were experiencing an unprecedented revival. I was fortunate to arrive in the city at just this moment. With an art-school background and an impulse to make things, I was naturally drawn to pursue this new opportunity. The Center for Book Arts, the famous forerunner of so many centers yet to come, was located in a small storefront just down the street from where I lived on the Lower East Side of Manhattan. Under the direction of founder Richard Minsky, it had a radical mission: to push concept, materials, printing and making of artist books in a new direction. When Richard dared me to teach at the Center one evening a week, I was hooked. My career as a book conservator and a book artist has now spanned over 45 years. As head conservator at the American Philosophical Society in Philadelphia, I've had the opportunity to handle some of the rarest volumes and manuscripts in the world. I have also dealt with decrepit books, torn maps and countless curiosities discovered in stacks and archives. All were endless sources for ideas and provided a springboard for a departure from tradition. Leading book-arts workshops around the world and a 25 year tenure teaching in the graduate program for Book Arts and Printmaking at the University of the Arts in Philadelphia have shown me, in retrospect, that the more I taught, t

The Man Who Folded Himself David Gerrold,2011-02-02 This classic work of science fiction is widely considered to be the ultimate time-travel novel. When Daniel Eakins inherits a time machine, he soon realizes that he has enormous power to shape the course of history. He can foil terrorists, prevent assassinations, or just make some fast money at the racetrack. And if he doesn't like the results of the change, he can simply go back in time and talk himself out of making it! But Dan soon finds that there are limits to his powers and forces beyond his control.

The Folding Cliffs W. S. Merwin,2000-03-28 From the Pulitzer Prize-winning author and “one of the greatest poets of our age ... the Thoreau of our era” (Edward Hirsch) comes a thrilling story, in verse, of nineteenth-century Hawaii. Here is the story of an attempt by the government to seize and constrain possible victims of leprosy and the determination of one small family not to be taken. A tale of the perils and glories of their flight into the wilds of the island of Kauai, pursued by a gunboat full of soldiers. A brilliant capturing—inspired by the poet's respect for the people of these islands—of their life, their history, the gods and goddesses of their mythic past. A somber revelation of the wrecking of their culture through the exploitative incursions of Europeans and Americans. An epic narrative that enthralls with the grandeur of its language and of its vision.

The Folding Star Alan Hollinghurst,2008-12-17 The 1995 Booker Prize finalist. Alan Hollinghurst's hypnotic and exquisitely written novel tells the story of Edward Manners, a disaffected 33-year-old who leaves England to earn his living as a language tutor in a Flemish city. Almost immediately he falls in love with one of his pupils, but can only console himself with other, illicit affairs. With this novel, Hollinghurst exposes us fearlessly to the consequences of unfulfillable, annihilating desire.
