A Wind-Storm in the Forests John Muir,2014-10-28 The nature writings of pioneering environmentalist and Sierra Club founder John Muir are like no other. In this essay from 1894, Muir describes the grandeur of the winds at play in the forests, with stunning and musical detail about the trees of the Sierra and their individual reaction to the wind. Muir's story of climbing a 100-foot Douglas Spruce to experience the sway and swirl of a storm for himself is unforgettable. This short work is part of Applewood's American Roots, series, tactile mementos of American passions by some of America's most famous writers.

Thirty-Eight Stephen Long,2016-03-22 The hurricane that pummeled the northeastern United States on September 21, 1938, was New England’s most damaging weather event ever. To call it “New England’s Katrina” might be to understate its power. Without warning, the storm plowed into Long Island and New England, killing hundreds of people and destroying roads, bridges, dams, and buildings that stood in its path. Not yet spent, the hurricane then raced inland, maintaining high winds into Vermont and New Hampshire and uprooting millions of acres of forest. This book is the first to investigate how the hurricane of ’38 transformed New England, bringing about social and ecological changes that can still be observed these many decades later. The hurricane’s impact was erratic—some swaths of forest were destroyed while others nearby remained unscathed; some stricken forests retain their prehurricane character, others have been transformed. Stephen Long explores these contradictions, drawing on survivors’ vivid memories of the storm and its aftermath and on his own familiarity with New England’s forests, where he discovers clues to the storm’s legacies even now. Thirty-Eight is a gripping story of a singularly destructive hurricane. It also provides important and insightful information on how best to prepare for the inevitable next great storm.

The Demon Tide Laurie Forest,2022-03-01 The New York Times bestselling series! A USA TODAY bestseller! Nothing can stop the demon tide... Newly exposed as the Black Witch of Prophecy, Elloren Gardner Grey is on the run, not knowing if she’ll find friends or foes. With her fastmate, Lukas Grey, either dead or in the hands of High Mage Marcus Vogel, Elloren knows the only chance of turning the tide of the coming war is to seek allies who will listen long enough not to kill her on sight. In the Eastern Realm, Water Fae Tierney Calix and Elloren’s brother Trystan have joined the Wyvernguard to prepare for Vogel’s attack. But Trystan is fighting on two fronts, as the most despised and least trusted member of the guard. And Tierney’s bond with Erthia’s most powerful river has exposed a danger even more terrifying than the looming war. The Black Witch is back, and the Prophecy is at hand. It’s time to fight. But Vogel has one more earth-shattering revelation for them all. The Once, This Forest Belonged to a Storm Austen Leah Rose,2023 Does history live inside of us? Are we capable of transcending the past or are we destined to repeat it? With understated humor and grace, Once, This Forest Belonged to a Storm wrestles with questions of inheritance, spiritual unrest, the integrity of the self, and humanity's relationship to the natural world. Excavating both personal and historical trauma and the rippling effects of the Holocaust, Austen Leah Rose writes of the silence that follows after silence. The poems in this debut collection map a surreal journey from alienation to belonging, as our speaker floats across the night sky over Los Angeles, communes with Shakespeare in a hotel room, attends a dinner party in outer space, and drifts down a river for fourteen years with her sister.
