We hope that the mysterious atmosphere that accompanies intense feelings of empathy from the very beginning will give you a quality time with an ending that is difficult to predict in the finale. Excerpts from the book:

...Nature's desperation in the face of this extinction was turning into tears falling drop by drop, raising the scent of the earth to the sky... ...As he walked, he noticed that there were buildings on the street that looked familiar to him. That dull and emotionless short smile of his was like a mini celebration of his victory in choosing the right path... 2. Shahmeran: In this story, the logic within its absurd progression will drag you away... You will be able to expand your limits of thought in this story where it is fluid and impossible to lose your sense of curiosity... Excerpts from the book:

Daytime Earthquake: You will see that earthquakes do not always occur in the first sense we know, and you will witness how larger earthquakes can occur in society. You will wander far away when you finish reading this work, which will make you think by bringing extreme subjects such as humor and drama together. Excerpts from the book: ...in his eyes, it was an action as sweet as the subtle swaying of a ship while sailing safely on a quiet dock.... ...finding this house that perfectly suited his plan gave him as much pride as the luxury of being able to get into the car in a few steps every morning when he woke up...

Reed is a brainy overachiever who is a social outcast. The Adventures of Jeff and Reed is a four-story anthology that explores the many anxieties, insecurities, and thrills tweens experience as they transition from elementary to middle school. When Jeff and Reed are paired together in a class assignment, it's the beginning of a friendship journey that will challenge, surprise, and reward them in the most unexpected ways. Their bond continues to grow and evolve in story two, Reed's Rant. Reed learns his father will be sent abroad for work, and the impending separation haunts him. The Adventures of Jeff and Reed is an entertaining and revealing look at the power of courage, the price of fear, the importance of self-respect, the rewards of perseverance, and the value of true friendship.

Four Seasons Isadore Sharp, 2009-04-30 The founder of Four Seasons Hotels shares the philosophy and values that have made his legendary brand How did a child of immigrants, starting with no background in the hotel business,

create the world's most admired and successful hotel chain? And how has Four Seasons grown dramatically, over nearly a half century, without losing its focus on exceptional quality and unparalleled service? Isadore Sharp answers these questions in his engaging memoir, which doubles as a powerful guide for leaders in any field. He recalls the surprising history of his company, starting with its roots in his father's small construction business, which Sharp joined after getting a degree in architecture. Shifting into hotels wasn't easy, and he learned by trial and error. His breakthrough was a vision for a new kind of hotel, featuring superior design, top-quality amenities, and, above all, a deep commitment to service. Sharp realized that customers would gladly pay extra for a home away from home experience. But that would be possible only if everyone—from managers and supervisors to bellmen, servers, and housekeepers—was fully engaged. The front-line staff, who have the most contact with guests, can make or break a five-star reputation. Readers will be fascinated to learn how Four Seasons does it, year after year, in more than thirty countries around the world.

Flutter Erin E. Moulton, 2011-05-12 A “page-turner of a survival story.” —School Library Journal Big things are about to happen at Maple's house. Mama's going to have a baby, which means now there will be four Rittle sisters instead of just three. But when baby Lily is born too early and can't come home from the hospital, Maple knows it's up to her to save her sister. So she and Dawn, armed with a map and some leftover dinner, head off down a river and up a mountain to find the Wise Woman who can grant miracles. Now it's not only Lily's survival that they have to worry about, but also their own. The dangers that Maple and Dawn encounter on their journey makes them realize a thing or two about miracles—and about each other. Praise for FLUTTER “Moulton is an author to watch, and her debut novel will appeal to girls Maple's age who prefer action to character realism.” —Booklist “Moulton's charming debut explores the challenges and rewards of sisterhood...[in] a heartfelt tale of familial love, with just a touch of magic.” —Publishers Weekly

The Four of Us Elizabeth Swados, 1991-10-23 In a haunting memoir that consists of four parts—one for each member of her family—Swados' own efforts to understand and avoid succumbing to the tragedy of mental illness that consumed others in her family constitutes one of the most compelling threads in this spellbinding narrative. Extremely moving, tender, and life-affirming.—Booklist.

Hidden Figures Margot Lee Shetterly, 2018-05-08 Based on the New York Times bestselling book and the Academy Award-nominated movie, author Margot Lee Shetterly and Coretta Scott King Illustrator Honor Award winner Laura Freeman bring the incredibly inspiring true story of four black women who helped NASA launch men into space to picture book readers! Dorothy Vaughan, Mary Jackson, Katherine Johnson, and Christine Darden were good at math...really good. They participated in some of NASA's greatest successes, like providing the calculations for America's first journeys into space. And they did so during a time when being black and a woman limited what they could do. But they worked hard. They persisted. And they used their genius minds to change the world. In this beautifully illustrated picture book edition, we explore the story of four female African American mathematicians at NASA, known as colored computers, and how they overcame gender and racial barriers to succeed in a highly challenging STEM-based career. Finally, the extraordinary

lives of four African American women who helped NASA put the first men in space is available for picture book readers, proclaims Brightly in their article 18 Must-Read Picture Books of 2018. Will inspire girls and boys alike to love math, believe in themselves, and reach for the stars.

Story Building Blocks Diana Hurwitz, 2011-06-01 Every scene in a story should contain conflict. This advice led me on a journey to answer the question, "How do you come up with conflict for every scene?" The result is the Four Layer of Conflict method which takes writers from "I have an idea" to the actual nuts and bolts of "I have the required scenes that all pull their weight." This method can help new writers complete their first novel and offers experienced writers another way of looking at structure. There is a difference between reading a story that is seamless and one full of plot holes. Tight structure can be the difference between taking your reader on a safe but forgettable ride and taking them on a journey they will never forget. Story lovers, no matter the genre or premise, prefer a well-constructed story. One thing this story addict knows for certain: Life is too short for bad fiction.

The Four Deuces C.S. Crawford, 2009-02-19 These memoirs are not an attempt to answer, solve, or resolve the problems arising from or about the three-year-long Korean War or the much longer stalemate that followed. This story was written to let you know how one very young, very scared marine saw his very first war and how he reacted to the killing and the mayhem of it. The stories are my view of that war, a war gone to ground in the trench lines. Dig into the stories and you may find something you were not expecting. I am well aware that my view of the Korean War has no historical importance. Still, it is my view, and I want to share it with you. I do not have a cause to plead or an ax to grind, and that alone ought to count for something. My memoirs are selective and most certainly tainted with time. My recollections are a lot like boot mines, and ought to be approached with caution. I was a grunt, a Four Deuce forward observer, assigned to duty with a marine infantry company every time the 1st Marine Regiment went back up on line. During the time I was in Korea my boondockers were firmly planted in trench-line mud. When I came home in September 1952, I was proud that I had helped in the attempt to stop Communism in Korea. I was proud of all the men I served, and served with, and I was a little bit proud of myself, too.
