Snow-Storm in August Jefferson Morley,2013-04-09 In 1835, the city of Washington simmered with racial tension as newly freed African Americans from the South poured in, outnumbering slaves for the first time. Among the enslaved was nineteen-year-old Arthur Bowen, who stumbled home drunkenly one night, picked up an axe, and threatened his owner, respected socialite Anna Thornton. Despite no blood being shed, Bowen was eventually arrested and tried for attempted murder by district attorney Francis Scott Key, but not before news of the incident spread like wildfire. Within days Washington's first race riot exploded as whites, fearing a slave rebellion, attacked the property of free blacks. One of their victims was gregarious former slave and successful restaurateur Beverly Snow, who became the target of the mob's rage. With *Snow-Storm in August*, Jefferson Morley delivers readers into an unknown chapter in history with an absorbing account of this uniquely American battle for justice.

Into the Firestorm: A Novel of San Francisco, 1906 Deborah Hopkinson,2008-03-11 "I believe I can just see you on the streets of that bright city." Gran's gone now, but her words live on with Nicholas Dray, almost twelve, as he makes his way from the hot cotton fields to that Queen of Cities: San Francisco. Nick's on his own for the first time, with nowhere to turn. Then he meets jaunty, talkative Pat Patterson, owner of the most beautiful store--and the friendliest golden dog--in all the city. And for the first time in months, Nick feels safe. Safe in San Francisco. But the year is 1906, the month is April, and early one morning the walls begin to shake. The floor begins to buckle. And the earth opens up. A devastating earthquake and then raging firestorms ravage the city, and Nick is right in the middle of it all. But for a young boy who's got few ties and nothing to lose, what's the right choice: escape to safety or stay--at deadly risk--to help others? From acclaimed author Deborah Hopkinson comes a suspenseful and carefully researched novel of the Great 1906 San Francisco Earthquake and Fire and of one boy's heroic fight to survive it.

Weather Maps Illustrating a Lecture on Storms and Weather Forecasts Willis Luther Moore,1896

Christ in the Storm Pope Francis,2020-10-02 Winner of a third-place award in Pope Francis books from the Catholic Media Association. "Why are you afraid? Have you no faith?"--Mark 4:40 As he calmed the storm at sea, Jesus reproached the apostles for their lack of faith. On March 27, 2020,

Pope Francis used the Gospel passage as a sign of God's forgiveness and healing during the Extraordinary Urbi et Orbi Blessing from an empty St. Peter's Square. Even more than a year later, the Holy Father's words offer hope to a world that continues to fight its way back from the COVID-19 darkness. Christ in the Storm is the first book on the Pope's powerful and hopeful message during what we now know was just the beginning of the worldwide pandemic. This beautifully designed hardcover book gathers color photos, readings, the pope's homily and blessing, and also provides explanation of the symbolism and history throughout the event to create a powerful reminder that Jesus is always with us and that God's love never fails. It is not only a stunning keepsake of the Holy Father's important blessing, but more importantly a prayer resource you will return to again and again. An Urbi et Orbi Blessing (Urbi et Orbi means "to the city and to the world") is usually reserved for Christmas and Easter, but Pope Francis used his powerful and moving message to unite the world in prayer in the wake of the coronavirus. History will remember the dramatic images of the Holy Father walking alone in St. Peter's Square at twilight in the rain and his profound words of hope. The Pope said, Faith begins when we realize we are in need of salvation. We are not self-sufficient; by ourselves we flounder: we need the Lord, like ancient navigators needed the stars. Let us invite Jesus into the boats of our lives. Let us hand over our fears to him so that he can conquer them. Like the disciples, we will experience that with him on board there will be no shipwreck. Because this is God's strength: turning to the good everything that happens to us, even the bad things. He brings serenity into our storms, because with God life never dies. In addition to reading about the historical background of the event, you also will learn the significance of elements of the unique and deeply moving service, including the icon of Mary, Health of the Roman People the Miraculous Crucifix plenary indulgence prayers such as the Litany of Supplication Eucharistic Adoration Chants such as the Tantum Ergo

Ocean Beach Storm Damage Reduction Feasibility Study, City and County of San Francisco, CA United States. Army. Corps of Engineers. San Francisco District,1996 The report presents information developed in the course of a multi-year investigation of the need for shore protection and storm damage reduction. The study area was 8.6 miles of the Pacific coast, known as Ocean Beach, in the City of San Francisco, CA. The study area extended from Cliff House to Fort Funston. The beach portion of the study area is in the Golden Gate National Recreation Area, under the jurisdiction of the National Park Service. Facilities threatened with damage included the Great Highway, parking lots of the GGNRA, a buried storm and sewer water transport box, a sewer pumping plant and ultimately houses and businesses. The report records the Ocean Engineering, Economic, and Geotechnical studies used to formulate and analyze a variety of alternative measures, including structural seawalls and revetments, as well as beach and dune nourishment. The final analysis indicated that most of the study area, while not absolutely safe, had a low probability of erosion. In the one area with a possible federal interest, the sponsor was unable to agree to cost share at the time of the report. Therefore the study was terminated. The sponsor will pursue other measures not requiring federal cost sharing.

Demand for Weather Hedges in India Ruth Vargas Hill,Miguel Robles,Francisco Ceballos,2013-07-23 Income risk is substantial for farmers in developing countries. Formal insurance markets for this risk are poorly developed, and as a result there has been an increasing trend to sell weather hedges to smallholder farmers to manage their risk. This paper analyzes the demand for rainfall-based weather hedges among farmers in rural India. We explore the predictions of a standard expected utility theory framework on the nature of demand for such products, in particular testing whether demand behaves as predicted with respect to price, the basis of the hedge, and risk aversion using data from a randomized control trial in which price and basis risk was varied for a series of hedging products offered to farmers. We find that demand behaves as predicted, with demand falling with price and basis risk, and appearing hump-shaped in risk aversion. Second, we analyze understanding of and demand for hedging products over time, examining the impact of increased investments in training on hedging products as well as evidence for learning by doing among farmers. We find evidence that suggests that learning by doing is more effective at increasing both understanding and demand.
