Frozen Ground Debra Webb, 2019-11-30 The storm sweeps in like a thief in the night... Winter storm Holly is the worst in eighty years bringing high winds, subzero temperatures and snowfall better measured in feet than in inches. The weather paralyzes everything in its path, but in this storm, weather isn't the only threat. Abbey Gray, a NYT bestselling thriller author, needs time away from the madness of deadlines and personal appearances as well as her big city life in Manhattan. The timing seems perfect for her to return to her small hometown in Montana to finally put the family home on the market. Except the storm of the century is descending on Montana, sweeping in with more than just bad weather--her closest neighbor is murdered. The murder stirs painful memories from the past of another murder--Abbey's mother. Can the eerily similar details of her neighbor's murder be proof that she was wrong all those years ago? Did the older brother she worshipped actually kill their mother? Now that his prison sentence has been served, is he back for revenge? Abbey must find the truth about the past before she becomes the next victim! Sheriff Garrett Gilmore has known Abbey and her family his entire life. In truth, he has been in love with her since they were kids. All those years he hoped that one day she would come back, knowing it likely wouldn't happen. But he can't worry about that at the moment, he has a homicide to solve and a murderer to catch, all with the storm of the century bearing down on his county. Keeping Abbey safe will test the boundaries of his defenses. A new installment of STORMWATCH releases each Thursday starting December 5 through January 9. Each thrilling full length novel is a standalone story with no cliffhangers. Don't miss a single one from half a dozen of the genre's bestselling

storytellers!December 5 - Frozen Ground by Debra WebbDecember 12 - Deep Freeze by Vicki HinzeDecember 19 - Wind Chill by Rita HerronDecember 26 - Black Ice by Regan BlackJanuary 2 - Snow Brides by Peggy WebbJanuary 9 - Snow Blind by Cindy Gerard

Gadis-gadis itu mendapat informasi tak terduga: ada kemungkinan besar orangtua yang mereka kira telah tewas ternyata masih hidup! Dalam misi baru pencarian orangtua ini, para gadis Storm harus menghadapi lawan-lawan lama dan baru yang mengincar nyawa mereka. Frozen in Time Mitchell Zuckoff, 2013-04-23 NEW YORK TIMES BESTSELLER A gripping true story of survival, bravery, and honor in the vast Arctic wilderness during World War II, from Mitchell Zuckoff, the author of New York Times bestseller *Lost in Shangri-La* On November 5, 1942, a US cargo plane slammed into the Greenland Ice Cap. Four days later, the B-17 assigned to the search-and-rescue mission became lost in a blinding storm and also crashed. Miraculously, all nine men on board survived, and the US military launched a daring rescue operation. But after picking up one man, the Grumman Duck amphibious plane flew into a severe storm and vanished. *Frozen in Time* tells the story of these crashes and the fate of the survivors, bringing vividly to life their battle to endure 148 days of the brutal Arctic winter, until an expedition headed by famed Arctic explorer Bernt Balchen brought them to safety. Mitchell Zuckoff takes the reader deep into the most hostile environment on earth, through hurricane-force winds, vicious blizzards, and subzero temperatures. Moving forward to today, he recounts the efforts of the Coast Guard and North South Polar Inc.—led by indefatigable dreamer Lou Sapienza—who worked for years to solve the mystery of the Duck’s last flight and recover the remains of its crew. A breathtaking blend of mystery and adventure Mitchell Zuckoff’s *Frozen in Time: An Epic Story of Survival and a Modern Quest for Lost Heroes of World War II* is also a poignant reminder of the sacrifices of our military personnel and a tribute to the everyday heroism of the US Coast Guard.

Frozen Blood Joel A. Sutherland, 2008-12-28 As Tara Stewart drives through the dark, winter night, from Charlotte to Ottawa, she's haunted by ghosts from her past. Summoned to her abusive father's funeral, she hasn't been home, or spoken to her family, in years. The last place she wants to be is in the company of her vindictive twin sister, Evelyn, and her brother-in-law, Peter. Then the hail begins to fall. Thanks to treacherous road conditions, she barely makes it to her destination. Upon arriving, she falls on the icy driveway, slamming her knee into concrete and compact snow. Evelyn and Peter pull her inside, just as she is losing consciousness. Outside, the hailstorm still rages. Reports on the news suggest it's a worldwide phenomenon. Globally, resulting damage and death is reaching catastrophic levels. Now a prisoner in her father's old mansion, stuck with her estranged twin and brother-in-law, Tara must try to survive the worst storm in modern history. She soon discovers the storm is not her only enemy. Her family--and the house itself--seem intent on her destruction. Can she survive the undying hailstorm, and whispered threats from her ghosts, who swear the end is near?

Frozen Crimes Chrys Fey, 2020-09-30 Beth and Donovan are expecting their first child. Life couldn't get any better...until a stalker makes his presence known. This person sends disturbing messages and unsettling items, but it isn't long before his menacing goes too far. Hoping for a peaceful Christmas, Donovan takes Beth to Michigan. Days into their trip, a winter storm named Nemesis moves in with the goal of burying the state. Snowdrifts surround their house, and the temperature drops below freezing. Except, the storm isn't the only nemesis they must face. Everyone's lives are at stake--especially that of their unborn child. Will they survive, or will they become a frozen crime?

Survival: Ice Storm! Frieda Wishinsky, 2016-12-27 Caught in the vicious ice storm of 1998, would you survive? A severe ice storm hits Montreal and parts of eastern Canada. Ethan's dad is in Toronto on business and his step-mom, Sylvie, is going to have a baby. The weather is so bad his dad can't fly home. When the power goes off in their building, they try to adjust, but it's cold despite all the blankets, and it's dark despite candles and flashlights. Sylvie suddenly feels unwell and his elderly neighbour, Mrs. Greenbaum, has been hurt. Is the baby coming early? Can he get help for Mrs. Greenbaum in time? How will they survive?

Ice Storms Anne Wendorff, 2008-08 Roads become slick when freezing rain falls. Drivers can easily lose control of their vehicles and crash into each other. This book introduces children to unpredictable ice storms by explaining their cause and effect.

Crusoes of the Frozen North William Gordon Stables, 2021-04-11 The adventurous narrative of a youngster in the far north, on the other hand, became his favorite and one of his most often picks. Stables presents a comprehensive vision of the north, presenting a vivid and realistic description of life and work in the Arctic, as well as its people, natural history, and natural marvels, based on his actual experience in the Arctic. Survival in the harsh Arctic climate promotes a muscular approach to manhood and maturity in the young hero Stables, who becomes a great role model for his young audience. William Gordon Stables MD, CM. RN (1840-1910) was a Scottish-born Royal Navy medical doctor and prolific author of adventure fiction, mainly for boys. He wrote about 130 novels. His writings span a wide range of topics, all corners of the world, and give thrilling adventure stories that are frequently mixed with moral teaching and imperialistic connotations.

Frozen in Time Michael Oard, 2004-11-01 Earth's past is littered with the mysterious and unexplained: the pyramids, Easter Island, Stonehenge, dinosaurs, and the list goes on and on as science looks for clues to decipher these puzzles. One such mystery surrounds the now-extinct creature called the woolly mammoth. Author and meteorologist Michael Oard has studied the mammoth and its equally mysterious time period, the Ice Age, for many years and has come to some fascinating conclusions to help lift the fog engulfing the facts. Some of the questions he addresses include: What would cause the summer temperatures of the northern United States and European to plummet more than 50 degrees Fahrenheit? Why did mammoths become extinct across the entire earth at the same time as many other large mammals? Why are the mammoth carcasses found generally in standing positions? How could large lakes exist in what are today very dry, desert-like places? What was the source of the abnormal amount of moisture necessary for heavy snow? What caused the cold summer temperatures and heavy snowfall to persist for hundreds of years? In logical progression many other Ice Age topics are explained including super Ice Age floods, ice cores, man in the Ice Age, and the number of ice ages. This is one of the most difficult eras in geological history for a uniformitarian scientist (one who believes the earth evolved by slow processes over millions of years) to explain, simply because long ages of evolution cannot explain it. Provided here are plausible explanations of the seemingly unsolvable mysteries about the Ice Age and the woolly mammoths - Frozen in Time.

The Frozen Rodeo JOHN R. ERICKSON,2020-03-24 It's early January on Hank's ranch when Slim and Loper receive word that an ice storm is headed their way. However, just as they're about to prepare the cattle and stock tanks at the ranch to safely weather the storm, Deputy Kile calls with some bad news.
