**Building the Bear** Brian Gerrity,2017-11-27 Between 2012 and 2016, Mercer University Athletics (NCAA Division I member of the Southern Conference) experienced success on the field, expanded sport offerings, and achieved in the classroom. Building the Bear delves into the success of the Mercer Athletic Foundation - the fundraising arm of the Mercer Athletic Department

charged with supporting 16 sport programs. Topics covered include setting priorities and goals, developing programming, major gift strategies, donor cultivation and stewardship, drafting an annual calendar, marketing a fundraising operation and coordinating special events. One unique aspect of this read is the thinking behind football specific programming which came about with the return of Division I FCS football to Mercer's campus in 2013. Written by Brian Gerrity, the Mercer Athletic Foundation Executive Director and Senior Associate Athletic Director, Building the Bear fills the gap between the classroom and workplace. Written in part to provide a resource for young development professionals, this is a must read for aspiring collegiate athletic administrators and sports management undergraduate and graduate students. This read is a combination of text and infographics and is a real-world example of the power of strategic thinking. Building the Bear uses real life examples and actual strategies employed to raise funds at the Division I level. Part textbook and part case study, this read is concise, thoughtful, and packed with real world examples of the methodology behind athletic development. Building the Bear covers the steps taken to build a mid-major fundraising arm from a sleepy annual fund to a dynamic fundraising arm.

**Storytelling for Grantseekers** Cheryl A. Clarke, 2009-01-12 Grantwriters often have little or no training in the practical task of grantseeking. Many feel intimidated by the act of writing, and some don't enjoy writing. In

Storytelling for Grantseekers, Second Edition, Cheryl Clarke presents an organic approach to grantseeking, one that views the process through the lens of the pleasures and rewards of crafting a good story. Grantseekers who approach the process as one in which they are connecting with an audience (grantmakers) and writing a narrative (complete with settings, characters, antagonists and resolutions) find greater success with funders. The writing process becomes a rewarding way to tell the organization's tale, rather than a chore, and their passion and creativity lead to winning proposals. This book walks readers through all the main phases of the proposal, highlighting the creative elements that link components to each other and unify the entire proposal. The book contains resources on crafting an effective synopsis, overcoming grantwriter's block, packaging the story, and the best ways to approach the short stories (inquiry and cover letters) that support the larger proposal. Clarke also stresses the need to see proposal-writing as part of a larger grantseeking effort, one that emphasizes preparation, working with the entire development staff, and maintaining good relations with funders. In Storytelling for Grantseekers, new and experienced grantseekers alike will discover how to write and support successful proposals with humor and passion. New edition features: Overall updates as well as both refreshed and new examples Workshop exercises for using the storytelling approach New chapters on the application of the storytelling method to other fundraising communications like appeal letters and case

statements, as well as the importance of site visits Example of a full narrative proposal

**Fundraising Is** Patrick Belcher,2021-05-04 Fundraising Is helps fundraisers build a sustainable plan for their individual and their organization's success. Fundraising is a profession. In any profession there is a need for training and development along with exceptional communication skills and strategy. Fundraisers are often left to their own initiative to learn about an organization and its mission and figure out how to tell the story to supporters and raise significant amounts of money. In contrast, the average sales organization invests nine days of product information and training before they release their team members to generate revenue. For those considering a development position or already working in nonprofits, this book can help you create a successful plan for fundraising to guide you and help your charity. A plan focused on relationships and storytelling more than galas and silent auctions. Whether new to the profession or non-profit organization, Fundraising Is provides insight that sets fundraisers up for success. From creating a plan for the first three months at an organization, to prioritizing the best way to apply their efforts, these tactics can be applied whether working at a small local non-profit or the chapter of an international charity.

Clarke walks grantseekers through all the phases of developing an effective proposal and highlights the creative elements that link components to each other and unify the entire proposal. Clarke also stresses the need to see proposal writing as part of a larger grantseeking effort, one that emphasizes preparation, working with the entire development staff, and maintaining good relations with funders. Using the suggestions outlined in Storytelling for Grantseekers, new and seasoned grantseekers will discover how to channel their passion and creativity to tell their organization's tale and create winning proposals.

Murphy, Patricia M Bombard Bvm, 2015-06-15 Princess Diana, compost, rejects, iHobo, UBITs and other stories based on expertise and insights from experts. More than 1500 books about Vincent exist, but none like this. More than 250 organizations founded or inspired by Vincent exist today, 400 years after he lived. Why is that? We are all Vincentians if we work for the poor, even if we don't know it! Faith-based organizations need to know the gems of wisdom within this book. Vincent dedicated his life to relieving the conditions of the poor wherever he found them—in the streets, in prisons, on his doorstep—and asking the quintessential question: Something must be done; what must I do? Ask yourself, Do I need to read a book on fundraising? The answer is, Yes—this one. Two reasons for reading: first is the wisdom and practical tips herein are time-tested. How much time? Nearly 400 years. The authors

demonstrate the leadership legacy of St. Vincent de Paul (1581-1660), the Patron Saint of Charity. His organizational and management brilliance inspired new organizations and thousands in service. Vincent said, The poor suffer less from a lack of generosity than from a lack of organization. He set about to fix that by organizing the first systematic approaches to social service. Second, you will be inspired by what you read here to recommit yourself to the work you do-to serve and to create your own legacy. You will find never-before-told stories of Vincentian organizations around the world, led by people who follow Vincent's maxim: It is not enough to do good, it must be done well.

**The Fundraising Reader** Beth Breeze, Donna Day Lafferty, Pamala Wiepking, 2023-04-17 The Fundraising Reader draws together essential literature establishing a one-stop body of knowledge that explains what fundraising is, and covers key concepts, principles and debates. The book shines a light on the experience of being a fundraiser and answers an urgent need to engage with the complexities of a facet of the non-profit sector that is often neglected or not properly understood. This international compilation features extracts from key writing on fundraising, with a comprehensive contextualising introduction by the editors. Uniquely, this Reader shares conflicting positions relating to age-old and current debates on fundraising: Is fundraising marketing? Should donors or the community be front and centre in fundraising? How can fundraisers deal with ethical dilemmas such as

‘tainted’ donors and money? Best practice and future trends are also covered, including the impact of new technologies and responding to demands for greater diversity, inclusion, and equity in fundraising teams. This Reader is for those who seek to further develop their own understanding of fundraising, and it provides an invaluable resource for academic courses and professional training.
