The Romance of Steel Herbert Newton Casson,1907

The Cotton Story Cheng Woi Tan,Pamela Nowicka,2017-10-03 Most of us have no idea how the things we use every day are produced. From food, to electronic goods to the clothes we wear. In a global society of conspicuous consumption, the fundamentals are hidden or ignored. The Cotton Story shows how cotton is produced and the impacts of this on ourselves, farmers, and the planet. Many people worry about cancer but are unaware that carcinogenic chemicals are used in cotton production...and are impossible to completely remove from the fibres. Many people don't like the idea of genetically modified (GM) plants, and yet don't know that most cotton is GM...even in the food we eat. Organic cotton is better for our bodies, the farmers and the environment. Unlike chemical cotton, it is not subsidised with millions of dollars from governments and agrichemical giants like Monsanto. As consumers we have a responsibility to cause the least possible harm to the precious, fragile planet we share with so many other living beings. The Cotton Story shows how our purchases can harm ourselves, other people and the planet...or not. We dedicate this book to the farmers and garment workers whose lives were stolen in the production of garments. And to the countless animals, birds, insects and other beings who are destroyed in the name of consumerism. The choice is ours. To shop ethically or not. We hope The Cotton Story will help you make better choices.

Business Without Boundary James Gray,1954 Business Without Boundary was first published in 1954. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. The firm of General Mills is probably best known to millions of people as the maker of Gold Medal Flour and as the progenitor of that first lady of the kitchen and the airwaves, Betty Crocker. But, although its greatest fame is as a flour miller, the company engages in a host of other activities that attest to the foresight and creative thinking of its executives. In fact, the sky seems to be the only limit as the company extends its sights upward in Operation Skyhook, a United States navy research project for which General Mills makes and launches into the stratosphere giant plastic balloons. James Gray relates not only the history of General Mills since its founding in 1928 but also the background of the major companies that merged to form the larger corporation: the Washburn Crosby Company of Minneapolis, the Sperry Company of San Francisco, the Kell group of Texas and Oklahoma mills, and the Larrowe Milling Company of Detroit. Anyone interested in advertising and promotion will find fascinating the accounts of the early successes in radio advertising, including the first use of singing commercials and the phenomenal rise of Betty Crocker (voted the second best-known woman in America!) The scientific and technical research that is a cornerstone of the modern corporation is described in detail, as is the development of the products control method, a General Mills innovation now widely adopted in industry. For those curious to understand how business expands, for those interested in a close-up of industrial leaders, for anyone who wants to sharpen his view of America at work, this is an important book.

Minding the Store Julie Gaines,2018-10-30 “I really enjoyed this book. In fact, I could go for a second helping!”—Amy Sedaris “Entrepreneurs will learn a thing or two about translating a dream into thoughtful business growth, and everyone will laugh, cry, and nod along with a woman who has chosen to live an extraordinary life amidst many piles of dishes.” —Danny Meyer, CEO of Union Square Hospitality Group, founder of Shake Shack, author of the New York Times bestseller Setting the Table In this charming graphic memoir, the founder of an iconic housewares shop recounts the ups and downs—and ups again—of starting a family business, starting a family, and staying true to one's path while trying to make it in the Big City. Whether it's a set of vintage plates from a 1920s steamship, a mug with a New Yorker cartoon on it, a tin of sprinkles designed by Amy Sedaris, or a juice glass from a Jazz Age hotel, Fishs Eddy products are distinctly recognizable. A New York institution, Fishs Eddy also remains a family business whose owners endured the same challenges as many family businesses—and lived to write about it in this tale filled with humorous characterizations of opinionated relatives, nosy neighbors, quirky employees, and above all the eccentric foibles of the founders themselves. Readers come to know author Julie Gaines and her husband, with whom she founded the store, and because this is a family business, the illustrations are all in the family, too: their son Ben Lenovitz's drawings bring Fishs Eddy to life with a witty style à la Roz Chast and Ben Katchor. Over the years the store has collaborated with artists and celebrities such as Charley Harper and Todd Oldham, Alan Cumming, and many others to produce original designs that are now found in thousands of stores throughout the country, and Fishs Eddy has garnered a huge amount of media coverage. A great gift for anyone who has ever dreamed of opening a little business—or anyone with any kind of dream—Minding the Store offers wisdom, inspiration, and an exceedingly entertaining story.
