📖 **ALCOHOLICS ANONYMOUS** Bill W.,2014-09-04 A 75th anniversary e-book version of the most important and practical self-help book ever written, Alcoholics Anonymous. Here is a special deluxe edition of a book that has changed millions of lives and launched the modern recovery movement: Alcoholics Anonymous. This edition not only reproduces the original 1939 text of Alcoholics Anonymous, but as a special bonus features the complete 1941 Saturday Evening Post article “Alcoholics Anonymous” by journalist Jack Alexander, which, at the time, did as much as the book itself to introduce millions of seekers to AA’s program. Alcoholics Anonymous has touched and transformed myriad lives, and finally appears in a volume that honors its posterity and impact.

📖 **BLINDSIGHT** Peter Watts,2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, Blindsight Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune’s orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever’s out there isn’t talking to us. It’s talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn’t wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won’t be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they’ve been sent to find. At the publisher’s request, this title is being sold without Digital Rights Management Software (DRM) applied.

📖 **GERALDINE’S BIG SNOW** Holly Keller,1998-10 Geraldine can’t wait for the snow to come so that she can coast down the hill on her sled.

📖 **DARK ECOLOGY** Timothy Morton,2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in Blade Runner (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.

📖 **THE SNAKEHEAD** Patrick Radden Keefe,2009-07-21 In this thrilling panorama of real-life events, the bestselling author of Empire of Pain investigates a secret world run by a surprising criminal: a charismatic middle-aged grandmother, who from a tiny noodle shop in New York’s Chinatown managed a multi-million dollar business smuggling people. “Reads like a mashup of The Godfather and Chinatown, complete with gun battles, a ruthless kingpin and a mountain of cash. Except that it’s all true.” —Time Keefe reveals the inner workings of Sister Ping’s complex empire and recounts the decade-long FBI investigation that eventually brought her down. He follows an often incompetent and sometimes corrupt INS as it pursues desperate immigrants risking everything to come to America, and along the way, he paints a stunning portrait of a generation of illegal immigrants and the intricate underground economy that sustains and exploits them. Grand in scope yet propulsive in narrative force, The Snakehead is both a kaleidoscopic crime story and a brilliant exploration of the ironies of immigration in America.

📖 **MAYBE WE’RE ELECTRIC** Val Emmich,2021-09-21 From Val Emmich, the bestselling author of Dear Evan Hansen: The Novel, comes a deeply affecting story of two teens who find themselves thrown together overnight during a snowstorm and discover a surprising connection—perfect for fans of Nina LaCour, David Arnold, and Robin Benway. Tegan Everly is quiet. Known around school simply as the girl with the hand, she’s usually only her most outspoken self with her friend Neel, and right now they’re not exactly talking. When Tegan is ambushed by her mom with a truth she can’t face, she flees home in a snowstorm, finding refuge at a forgotten local attraction—the tiny Thomas Edison Museum. She’s not alone for long. In walks Mac Durant. Striking, magnetic, a gifted athlete, Mac Durant is the classmate adored by all. Tegan can’t stand him. Even his name sounds fake. Except the Mac Durant she thinks she knows isn’t the one before her now—this Mac is rattled and asking her for help. Over one unforgettable night spent consuming antique records and corner-shop provisions, Tegan and Mac cast aside their public personas and family pressures long enough to forge an unexpectedly charged bond and—in the very spot in New Jersey that inspired Edison’s boldest creations—totally reinvent themselves. But could Tegan’s most shameful secret destroy what they’ve built? Emotionally vivid and endlessly charming, Maybe We’re Electric is an artfully woven meditation on how pain can connect us—we can carry it alone in darkness or share the burden and watch the world light up again.

📖 **THE PHOTO ARK** Joel Sartore,2017 This book of photography represents National Geographic’s Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world’s animals -- especially those that are endangered. His message: to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet.

📖 **THE PAPER MENAGERIE AND OTHER STORIES** Ken Liu,2016-03-08 Presents the author’s selection of his best short stories, as well as a new piece, in a collection that includes The Man Who Ended History: A Documentary, Mono No Aware and The Waves.

📖 **NEON DROPS** M. Sinclair,2020-08-03 I’d made the choice to survive Broken House. I’d chosen to live instead of landing myself in an eternity of torture. At this point in my life, I shouldn’t have been surprised that somehow living was more difficult than my previous suicidal ventures. At least I had my men. Three kings. Three sexy, dominant shifters. What could go wrong with that? I mean really, what possible conflict could result in having six possessive, powerful men surrounding me at all times? I had no doubt that in true Louvre fashion the conflict would show itself at the most inconvenient time. Unfortunately, that wasn’t all we had to worry about and the weight of our true situation was heavy and terrifying. There was a lot we didn’t know. Had Mr. Black really given up that easily? Somehow I didn’t think that was the case. Better yet, why the hell does my stalker have such an odd fixation with origami animals? The most important question though? What was coming for us that was so bad that a cosmic being had sought me out to warn me? Yeah, so as I said, living was fucking complicated.Note from Author: The Tears of the Siren series will feature characters from both the Reborn series and Descendant series. It will not be necessary to read either of those to understand the plot, however they do intertwine in a way that enhances the universe. Don’t worry, no spoilers are present! Join Lorcan on her 9 book series adventure! This PNR slow/medium burn RH contains several dark themes that readers should be aware of: swearing (I know, surprising, right?), gore, violence, assault, PTSD, and sexual themes suitable for +18. Additionally, this book does have mature M/M themes that develop over time.

📖 **THE PAPER SWAN** Leylah Attar,2015-08-27 They say it takes 21 days to form a habit. They lie. For 21 days she held on. But on day 22, she would have given anything for the sweet slumber of death. Because on day 22, she realizes that her only way out means certain death for one of the two men she loves. A haunting tale of passion, loss, and redemption, The Paper Swan is a darkly intense yet heartwarming love story, textured with grit, intrigue, and suspense. A full-length, standalone novel, intended for mature audiences due to violence, sex and language. Subject matter may be disturbing for some readers.

📖 **THE VEILED THRONE** Ken Liu,2021-12-07 With the invasion of Dara complete, and the Wall of Storms breached, the world has opened to new possibilities for the gods and peoples of both empires as the sweeping saga of the award-winning Dandelion Dynasty continues in this third book of the “magnificent fantasy epic” (NPR). Princess Thira, once known as Empress Na of Dara, entrusted the throne to her younger brother in order to journey to Ukyu-Gond to war with the Lyucu. She has crossed the fabled Wall of Storms with a fleet of advanced warships and ten thousand people. Beset by adversity, Thira and her most trusted companions attempt to overcome every challenge by doing the most interesting thing. But is not letting the past dictate the present always possible or even desirable? In Dara, the Lyucu

[?] *THE INTEGRATION OF THE HUMANITIES AND ARTS WITH SCIENCES, ENGINEERING, AND MEDICINE IN HIGHER EDUCATION* National Academies of Sciences, Engineering, and Medicine,Policy and Global Affairs,Board on Higher Education and Workforce,Committee on Integrating Higher Education in the Arts, Humanities, Sciences, Engineering, and Medicine,2018-07-21 In the United States, broad study in an array of different disciplines [?] €arts, humanities, science, mathematics, engineering[?] € as well as an in-depth study within a special area of interest, have been defining characteristics of a higher education. But over time, in-depth study in a major discipline has come to dominate the curricula at many institutions. This evolution of the curriculum has been driven, in part, by increasing specialization in the academic disciplines. There is little doubt that disciplinary specialization has helped produce many of the achievement of the past century. Researchers in all academic disciplines have been able to delve more deeply into their areas of expertise, grappling with ever more specialized and fundamental problems. Yet today, many leaders, scholars, parents, and students are asking whether higher education has moved too far from its integrative tradition towards an approach heavily rooted in disciplinary silos. These silos represent what many see as an artificial separation of academic disciplines. This study reflects a growing concern that the approach to higher education that favors disciplinary specialization is poorly calibrated to the challenges and opportunities of our time. The Integration of the Humanities and Arts with Sciences, Engineering, and Medicine in Higher Education examines the evidence behind the assertion that educational programs that mutually integrate learning experiences in the humanities and arts with science, technology, engineering, mathematics, and medicine (STEMM) lead to improved educational and career outcomes for undergraduate and graduate students. It explores evidence regarding the value of integrating more STEMM curricula and labs into the academic programs of students majoring in the humanities and arts and evidence regarding the value of integrating curricula and experiences in the arts and humanities into college and university STEMM education programs.

[?] *FLOWER NET* Lisa See,2007-12-31 “Lisa See begins to do for Beijing what Sir Arthur Conan Doyle did for turn-of-the-century London or Dashiell Hammett did for 1920s San Francisco: she discerns the hidden city lurking beneath the public facade.” –The Washington Post Book World In the depths of a Beijing winter, during the waning days of Deng Xiaoping’s reign, the U.S. ambassador’s son is found dead–his body entombed in a frozen lake. Around the same time, aboard a ship adrift off the coast of Southern California, Assistant U.S. Attorney David Stark makes a startling discovery: the corpse of a Red Prince, a scion of China’s political elite. The Chinese and American governments suspect that the deaths are connected and, in an unprecedented move, they join forces to see justice done. In Beijing, David teams up with the unorthodox police detective Liu Hulan. In an investigation that brings them to every corner of China and sparks an intense attraction between the two, David and Hulan discover a web linking human trafficking to the drug trade to governmental treachery—a web reaching from the Forbidden City to the heart of Los Angeles and, like the wide flower net used by Chinese fishermen, threatening to ensnare all within its reach. “A graceful rendering of two different and complex cultures, within a highly intricate plot . . . The starkly beautiful landscapes of Beijing and its surrounding countryside are depicted with a lyrical precision.” –Los Angeles Times Book Review “Murder and intrigue splash across the canvas of modern Chinese life. . . . A vivid portrait of a vast Communist nation in the painful throes of a sea change.” –People “Fascinating . . . that rare thriller that enlightens as well as it entertains.” –San Diego Union-Tribune A finalist for the Edgar Award for Best First Mystery A New York Times Notable Book

[?] *THE CREATIVE MIND* Margaret A. Boden,2004-02-24 How is it possible to think new thoughts? What is creativity and can science explain it? And just how did Coleridge dream up the creatures of The Ancient Mariner? When The Creative Mind: Myths and Mechanisms was first published, Margaret A. Boden’s bold and provocative exploration of creativity broke new ground. Boden uses examples such as jazz improvisation, chess, story writing, physics, and the music of Mozart, together with computing models from the field of artificial intelligence to uncover the nature of human creativity in the arts. The second edition of The Creative Mind has been updated to include recent developments in artificial intelligence, with a new preface, introduction and conclusion by the author. It is an essential work for anyone interested in the creativity of the human mind.
