Hurricane Watch Jack Williams, Bob Sheets, 2002-02-05 The ultimate guide to the ultimate storms, Hurricane Watch is a fascinating blend of science and history from one of the world's foremost meteorologists and an award-winning science journalist. This in-depth look at these awe-inspiring acts of nature covers everything from the earliest efforts by seafarers at predicting storms to the way satellite imaging is revolutionizing hurricane forecasting. It reveals the latest information on hurricanes: their effects on ocean waves, the causes of the variable wind speeds in different parts of the storm, and the origins of the super-cooled shafts of water that vent at high altitudes. Hurricane Watch is a compelling history of man's relationship with the deadliest storms on earth. Includes: - The story of the nineteenth-century Cuban Jesuit whose success at predicting the great cyclones was considered almost mystical. - A new look at Isaac Cline, whose infamous failure to predict the Galveston Hurricane left him obsessed with the devastating effects of storm surge. - The story of the Hurricane Hunters, including the first man ever to deliberately fly into a hurricane. - A complete account of how computer modeling has changed hurricane tracking. - A history of Project Stormfury: the only significant, organized effort to reduce the damaging strength of severe hurricanes. - A unique firsthand account of Hurricane Andrew by both authors, who were at the National Hurricane Center when Andrew struck. - A listing of the deadliest storms in history.

Weathering the Storm Histrophillia Editors, 2024-02-22 The early summer sun glinted brightly off the rows of bicycles chained outside Frederick Douglass High School. Today was graduation, and the old brick building teemed with students milling about in caps and gowns awaiting the big processional. Among the seniors was David Young, who stood a bit off to the side, staring down at his phone avoiding eye contact. No one would guess that after nearly failing out his junior year, David now felt honoured to be counted among this graduating class. The turnaround had started last fall with a stern but caring teacher who believed in David's potential. Mr. Conway, himself a first-generation college student, lit a spark in David to pursue education as a pathway to purpose. He coaxed David gently through self-doubt back into diligent study habits again. In the process, David discovered his own voice analyzing complex social dynamics around privilege and power. This growth opened David's eyes to bias woven into society which too often went unacknowledged. He noticed it sharply last summer during a routine traffic stop when his uncle was detained aggressively just for looking suspicious. David saw how proceeds from injustice rippled on long afterwards. He hoped college might teach him to speak against prejudices still thriving while offering opportunity to lift other marginalized voices too afraid or resigned to push back themselves. For now though, David tucked away his phone finally and straightened the crimson gown draped over his lanky frame. This milestone, unthinkable last year, represented redemption. He still marveled at the family and friends surrounding him now who refused to let David's self-doubt cut short his potential... There across the sunny lawn stood Bo waving eagerly. Bo - his friend since childhood excursions catching fireflies, now the salutatorian with architecture school on the horizon. Seeing David, Bo broke into a huge grin and mimed shooting three-pointer jump-shots. David just laughed and shook his head, amazed that something as simple as friendship could ground all the lofty aspirations fluttering anxiously in his chest. Maybe life's hardest but most rewarding challenges were allowing people to stand with you when storms hit rather than tough it out alone. With loved ones' arms encircling him, David felt confident to embrace cloudy skies ahead, knowing brighter days would always chase uncertain nights if heart stayed humble and hope kept faith. This story opens as David sets off one overcast summer afternoon to meet his lifelong friend Bo, eager to enjoy carefree days before college. But chance dark encounters force David to grapple with prejudices threatening to erode innocent joys and skew still-blossoming dreams. Through it all, David discovers power in uplifting voices unseen and forging new community against gathering unrest.

Summer Storm and Other Stories Glenda Baker, 2009-04-13 During the fifteen years Glenda Baker was the publisher and editor-in-chief of NEWN, she read and critiqued hundreds of short stories. She also wrote many of her own. This volume contains twenty-two of Glenda's stories from short (21,000 words) to short-short (about 1,000 words) to flash fiction (52 words total) in which Glenda addresses subjects such as: After doing a favor for his boss, how does a man end up in a maze he can't find his way out of? What would happen if a contemporary kid created a golem? What secrets do three generations of women learn about each other while on a weekend trip to Cape Cod? How far will a passive-aggressive woman go if pushed to the limit?

Politics is the Greatest Game Pat Stevens, Patrick Stevens, 2004-04 The four books comprising this novel, each covering a decade in South Africa's history, are interlinked with the developing stories of its characters. The book tells the real story of who saved South Africa from itself in the final turbulent decades of the last century, revealing Rupertheimer, the political mover and shaker behind the scenes who secretly and single-handedly steered his country to an embryonic democracy. Picturesque and provocative, brash and funny, this book does for South Africa what Catch-22 did for World War II.

Deep Storm Lincoln Child,2011-07-19 NEW YORK TIMES BESTSELLER • In this explosive thriller, one of the most incredible and frightening discoveries mankind has ever faced is about to surface. On an oil platform in the middle of the North Atlantic, a terrifying series of illnesses is spreading through the crew. When expert naval doctor Peter Crane is flown in, he finds his real destination is not the platform itself but Deep Storm: a top secret aquatic science facility, two miles below on the ocean floor. The Storm of La Niña Lluvia de Milagros Carrasco,2016-02-05 Dear Higher Education, What makes you so high? Are you reaching a form of enlightenment that I cannot reach without your guidance? What are all these fancy words that you believe you have created with recycled thoughts passed through the wisdom of human life that now you have accumulated into a theory simply because you have these three letters by your name PhD? Dear University, What is this oversaturated word that you call diversity? Diverse bodies based on skin tones are simply diverse demographics in which you can statistically accumulate, quantify, and therefore display to the world like a curated gallery of foreign objects for an anthropological final project. That in which you promote as diverse. Do you cultivate a diversified mentality, or have you simply perpetuated stagnancy in the name of a degree? A degree that is as thin as paper yet as valuable, as life-changing, as the life you will live two thousand kilometers away from sec. 8. Dear Millennial, In the name of activism, social justice, justice, and service, how has the time you spent listening to lectures developed your adequacy in connecting to that which you serve? What has become of you to be driven by the rush of feeling good and clocking in your social justice volunteers hours on a clipboard? Rather, become soulfully apart of the integrity behind the mission itself. A mission, simply words put into theory, and theory published throughout a course curriculum to what point has your morality bridged theory into praxis? Oh, the irony! To be a woman of color and only know of what I am once I have gone through a formula of stepstirelessly attain not one, but many internships and volunteer in various fields or experiences. Maintain a stellar GPA since you will learn very early on that it is a number that will define your value and, therefore, your worth. Become an applicant then be accepted, for it is a resume that will define the blueprint of your skill-set and, therefore, capabilities.

Crossing Borders Ali Noorani,2022-03-28 Advance praise from public figures José Andrés, Al Franken, Jonathan Blitzer of The New Yorker, and Russell Moore of Christianity Today. Find the moving stories of American immigrants and their journeys in Ali Noorani's chronicle. In an era when immigration on a global scale defines the fears and aspirations of Americans, Crossing Borders presents the complexities of migration through the stories of families fleeing violence and poverty, the government and nongovernmental organizations helping or hindering their progress, and the American communities receiving them. Ali Noorani, who has spent years building bridges between immigrants and their often conservative communities, takes readers on a journey to Honduras, Ciudad Juarez in Mexico, and Texas, meeting migrants and the organizations and people that help them on both sides of the border. He reports from the inside on why families make the heart-wrenching decision to leave home. Going beyond the polemical, partisan debate, Noorani offers sensitive insights and real solutions. Crossing Borders will appeal to a broad audience of concerned citizens across the political spectrum, faith communities, policymakers, and immigrants themselves.

Worst of all, Will can't remember what happened—his family finds him unconscious, with no memory of the accident. Now Will and his best friend and neighbor, Gretchen, are starting a new summer.
