Caveboy Dave: More Scrawny Than Brawny Aaron

Reynolds,2016-11-01 A funny graphic-novel series by Aaron Reynolds, New York Times bestselling author of Creepy Carrots! His grandpa invented fire. His dad invented the wheel. How will Caveboy Dave leave his mark? Dave Unga-Bunga has always been more scrawny than brawny. This is a major problem when your village expects you to become a meat-bringer. At age twelve, all young cave-people must stalk through the eerie mushroom forests for a prehistoric beast the village can feast on. But Dave would much rather invent stuff for a better life—like underwear to make loincloths less itchy and cutlery to make eating less filthy. Can Dave save his group by inventing the perfect defense against a bloodthirsty pokeyhorn? Or will he MEET HIS DOOM? First in a new series, More Scrawny Than Brawny delivers irresistible characters, big thrills, and even bigger laughs. Imagine a prehistoric version of Wimpy Kid meets Captain Underpants. —Boys' Life

**Comics, Manga, and Graphic Novels** Robert Petersen, 2010-11-18

This text examines comics, graphic novels, and manga with a broad, international scope that reveals their conceptual origins in antiquity. Graphic narrative art is a fascinating phenomenon that emerged centuries ago with the expansion of literacy and the publication industry. The earliest example of a repeating comic character dates back to the late 1700s. By following the growth of print technology in Europe and Asia, it is possible to understand how and why artists across cultures developed different strategies for telling stories with pictures. This book is much more than a history of graphic narrative across the globe. It examines broader conceptual developments that preceded the origins of comics and graphic novels; how those ideas have evolved over the last century and a half; how literacy, print technology, and developments in narrative art are interrelated; and the way graphic narratives communicate culturally significant stories. The work of artists such as William Hogarth, J. J. Grandville, Willhem Busch, Frans Masereel, Max Ernst, Saul Steinberg, Henry Darger, and Larry Gonick are discussed or depicted.

**Graphic Novels** Andrew Dale, 2016-12-15 This title examines the genre of graphic novels in the Descender series, Lumberjanes: Beware the Kitten Holy, Persepolis, Maus, and March. It features four analysis papers that consider graphic novels, each using different critical lenses, writing techniques, or aspects of the genre. Critical thinking questions, sidebars highlighting and explaining each thesis and argument, and other possible approaches for analysis help students understand the mechanics of essay writing. Features include a glossary, references, websites, source notes, and an index. Aligned to Common Core Standards and correlated to state standards. Essential Library is an imprint of Abdo Publishing, a division of ABDO.

At Cosmos Academy, Bud learns that Earthlings are the most feared creatures in the galaxy, and even Earth's location has been hidden! With the help of his new friend, Gort, Bud goes undercover as a Tenarian exchange student. Unfortunately that means everyone thinks he's a pro at anti-gravity Zero-Ball (even though he's really only a pro at watching sports).
