The Gratis Economy András Kelen, 2001-01-01 This gritty, unflinching philosophical detective novel addresses themes of Aboriginal rights, privilege, and art. Margaret Thatcher Gandarrwuy is an internationally renowned Aboriginal artist whose works command high prices, until a new painting is unveiled. It is discovered slashed, with the words "The artist is a thief" hastily scrawled across it. Jean-Loup Wild, a Melbourne financial consultant, is sent by an Aboriginal civil rights group to investigate and is caught between the art world, with its wealth, fashions, heroes, and sophisticated private language, and the Aboriginal community, with its poverty, social problems, kinship ties, and unchanging traditional law. While operating in these dual worlds, Jean-Loup delves deeply into the layers of Australian society, discovering the prejudices at the bedrock.

L'idea di creare un servizio che rende più facile per le agenzie, gli addetti stampa e le aziende. La distribuzione dei comunicati stampa ai media italiani mi è venuta perché da addetto stampa "ero stufo di trovarmi sempre le solite problematiche". Sogna un sistema che consente di creare comunicati stampa 2.0, ricchi di foto, link, audio e video, con la possibilità di inviarli ai media interessati in un formato corretto e con un solo click e "dato che non esisteva niente del genere in giro l'ho creato " ci dice Antonio Cospito, fondatore della startup Area Stampa 360 che a sede a Milano. The Gratis Economy András Kelen, 2001-11-01 A work in the relatively new field of economic sociology, this highly unconventional book deals with the logics of toll-free services and generalizes the notion of voluntary work toward encompassing everything that can be obtained free of charge in the world. The author claims that the publicity-driven gratis economy -- perhaps the greatest wealth-creator in history -- is integrating into the conventional non-profit sector. Kelen's exploration of the gratis economy covers the three basic institutional

sectors: nonprofit/voluntary, business and government. The 'New Economy' offers a wide range of services seemingly for free, but the costs are still supposed to be borne by some actors of the economy. The message of the book is very important: the motives of the gratis giving of goods or services can always be identified and could be explained either by 'motivated giving' or by 'hidden marketing'. These motives often lie outside of the scope of traditional economics and may have strong political, sociological and/or psychological connotations. The Gratis Economy will be of interest to professors and students of applied economics and business schools, sociologists, to the e-business community, marketing practitioners, webspinners, infonauts, netizens, software developers and decision-makers of electronic media.
