The Gravity Connection Robert Dean Burlison II, Once gravity is explained, it leads to (connects) the UFO. Do they exist based on can one be built? Further connections yield new physics theory. The ultimate connection explains thru science how God's existence is feasible and a scenario for Creation going back before the Big Bang and before Time. As an experiment in thought (because one cannot do the experiments in a lab), there are dead ends, but the general concepts are sound. Reviewed twice, the visible review by that guy who knows the author well is in fact by the author, me. The other review is in the from of the book which is NOT in the FREE PREview. All I will say is that, though much was over his education I had proved what I set out to prove. He is NOT stupid. In fact his email domain is @illinois.gov. The book was typed in 1989 but I lost Faith due to little me actually dealing with God. I copyrighted in 2007. NOW, circa 2017 so called Scientists are claiming to have proved God. They did not give one equation, diagram, engineering or scientific analogy (parable). They just added more circumstantial evidence of a Creator which common man did not know. So I tried to message the publisher and added another piece of circumstantial evidence. If God had provided 5% less mass of atmosphere the density at ground / Kitty Hawk level would NOT have allowed the Wright Brothers to succeed with minimal power. Yes birds would still be able to fly. So would modern jets and EVEN World War One aircraft. But NO. We would NOT be flying today because the Wright Brothers proved it impossible. I gave you the story from before TIME of God appearing gradually by vacuum genesis, refining His operation system to Windows 100 at which time He suddenly realized I AM THAT I AM...self realization....the Alpha beginning of TIME....the first Mind to keep track of time. However God knows that there is a reverse to vacuum genesis. TIME (eternity) is God's Lifespan but it may not be Forever. I am the Alpha & Omega. My point There are those who say God id DEAD Well that is very grave, but at least the believe enough to put flowers on His Grave. God's substance is actually particles of ether and I did not explain why Michelson Morley Experiment failed because the simple reason popped into my mind during a walk and i had no way to write it down. I forgot why. Ether particles are arranged to form larger particles of spirit, God's Spirit body. God in-turn, there being NOTHING else in space, used part of his spirit substance (His own body which is a sphere NOT in MAN'S Image but His own) To CREATE matter and energy, the Universe which is enclosed by His spherical being and finally LIFE +YOU. POINT. If God dies..the Omega...His spirit substance breaks down into just common ether of empty space. Hey WE ARE MADE OF STAR STUFF as Dr. Carl Sagan said. But God first made Stars (Let there be Light) and also maintains their existence with His own body. OK not to spoon feed you, when God dies ALL disappears without a POOF because if God was never here we certainly were not. The History hard drive is erased. TIME again does not exist. Yes the + and - ether particles (I called then itties from Ittie bittie spider) remain in space with the true void third particle between (Like the empty space between racked pool balls or in a crystal lattice.). The before and after pictures of the Alpha & Omega are identical, just blackness waiting for vacuum genesis of (step 1) a new God identical to the DEAD God which never was. My eBook is low priced considering the 5 years to write, condense by tossing much insight into the trash and package so logic comes full circle. Yet one man who was teaching himself physics contacted me and I have one fan in Brazil. For over a decade zero sales, not even the woman who said If God exists, prove it with science. NOW, unlike thos elater comer scientists, I do not claim to have proved God exist, but only that it is FEASIBLE. But hey. You are mortal. I am pointing a gun between you eyes. It is FEASIBLE that a bullet might come out. So I still have Great Faith but had no hope after a frustrating decade sharing the Website like talking to the wall. However today my hope is back for both me and you. Google now has a way to list book genres and I listed over 80. Yes no matter your specialty, the book comes full circle. Set up dominoes in a big circle. Each domino is a piece of knowledge which may match one of your own. If you knock over (grasp) one domino anywhere around the circle the rest fall sequentially around the FULL CIRCLE so you are able to piece many of the dominoes together & know some of the Spiritual game plan. So how can a 260 page book address 80+ genres? From the book Everything is related to EVERYTHING. Learn how God sees , takes the shape of a wise old man on a cloud or a burning bush when addressing select individuals. The book shows it as a square wave just as computer data is transmitted serially. God's communication medium is actually GRAVITY.which carried the information N times faster than radio at light speed. N = Infinity or instantaneous quantum leaps from point A to B. Data bit move thru our brains at the speed of light until reaching a nerve cell where the data bit must wait for a chemical reation (to avoid a computer race problem). Now scale this up to God's massive mind. Remember it is a sphere around that big thing called the UNIVERSE. In God's Mind light speed is replaced by those instantaneous leaps. I call these quantum s (different distances like 1, 10, 100, 1000 Parsecs) instantaneousness. Yes Light speed is used too, but as the slow chemical reaction before entering one of God's memory locations (nerve cells). God's thought flows around the sphere by instantaneousness. A slight warp of the sphere like one of our eye balls can focus God's vision on and point but He focuses INSIDE the ball rather than outside and in just one direction like our eyes. Hey, maybe i should charge more for this about the book and just give the actual book away free. So I will end by telling how I know my physics are correct. 3 times at different points during the writing I diagramed Einstein's Expansion-Contraction Gravity Wave. It is difficult to show except as a cross-section and that is why I used a common square wave as mentioned above. Also did Jesus have any medical education? His Fathe r, God had to send data of how He Created Man, what the sickness or deformity looked like because can see into you, down to the subatomic where gravity is generated. Also the square wave is just oscillating electricity. Can it not be rectified into DC power, the POWER and data to Heal sent simultaneously. But to Heal Jesus had to move human tissue or kill germs maybe by removing DNA. No it wass not really a square wave but a gravity wave because gravity CAN MOVE THINGS or jiggle a brain cell in Jesus to give a bit (or byte) of information.Before healing the blind man Jesus put mud in his eyes. Just matter to replace the damaged tissuess in the blind eyes. God also sent Jesus data on how to change the elements in mud into the elements needed for new eye tissue. No a MUD BOMB is not a good Nuclear Deterrence, but think about it. If Alchemy of any element were possible for Mankind to do would it not have blown the blind man's head off? I, the author will not supply +/- 7,500 VIP references. OH, to further help you grasp, that circle of dominoes is big while the individual domino is small. Lets saw God's huge Library of Congress has a locked door to each subject room. A door is big and hard to break

thru. But the door lock is small and you could easily open the door if not for the locked lock. So, what is even smaller than that lock? The KEY. That is what my book is. KEY to the Universe and God being a Natural part. What is OUTSIDE the universe or sphere Skull of the Universe, God is beyond the scope of the book because bubble theory would anger those who say there shall be no other God(s) than Me. Well there are because infinity keeps going beyond just the universe. Inside spheres such as the one right next to our god other life may have been created by that god. But it is no skin off my teeth because that god did not create me or you. The other gods way into infinity are other people's or beings' fathers, NOT our father God. It is beyond my tiny brain (yes tiny for God sent me insights for the book) to figure out if God speaks or can speak to His neighbor gods. I doubt it for standing in a crowd you can speak to those beside you but not to a person 15 feet away and hidden by other faces. Continuing,no other god but ME for I am a jealous God. Wouldn't you be jealous if the government, employment statistics, candidates, military, entertainers considered you just a number, a percentage, just one vote, expendable grunt or fan? Hmmm. Do you wonder if God understands the feeling of being just a number in infinite number of other numbers? God Created us because He was lonely. Yes first came Angels but they I guess are more like yes men or the pleasant robot voice that answers the phone. Gravity's Revolt: Part One William Guy,2001-01-09 1975. Christopher Reed, a young minister in his first job, receives much-needed seasoning, is necessarily disillusioned. How? On one level by having an affair with Becky Grierson, one of his teen-aged parishioners. But the affair is begun on a theological dare so to speak, in order to test an intriguing vision of the freedom of the Gospel which Dr. Buttrick, the senior pastor under whom Reed works, a truly Christ-like man (though it depends, of course, on what your image of Jesus is) has presented. Scrupulous, or guilt-stricken, Reed tells his wife Vinnie, an artist and a free-thinker, what he has done with Becky. Vinnie erupts, then curiously, over time, adjusts, gradually accommodates herself, allows the affair to continue. Reed also tells Dr. Buttrick what he has done. Great-spirited, a wise old man, a genius, Dr. Buttrick listens and counsels. He counsels both Reed and Vinnie. The three of them discuss the limits of marriage, the relevance of Christianity to same. Vinnie and Dr. Buttrick have their own intense relationship. Meanwhile the meteoric Becky moves through her senior year in high school, fights free of her youth and prepares to leave for college. Obsessed almost, Reed suffers at the prospect of losing her. And grows in some way as a person or at least as a pastor, learning to expect less of the flock which he supposedly leads, since it often acts less than nobly. Some members even turn on Dr. Buttrick, the genuinely good man, in the year of the novels action.

Gyros, Clocks, Interferometers...: Testing Relativistic Gravity in Space C. Lämmerzahl,C.W.F. Everitt,F.W. Hehl,2007-09-04 Many new tests of gravity and, in particular, of Einstein's general relativity theory will be carried out in the near future: The Lense--Thirring effect and the equivalence principle will be tested in space; moreover, gravitational waves will be detected, and new atomic interferometers and clocks will be built for measurements in gravitational and inertial fields. New high-precision devices have made these experiments feasible. They will contribute to a better understanding of gravitational physics. Both experimental developments and the theoretical concepts are collected in this volume. Exhaustive reviews give an overall insight into the subject of experimental gravitation.

Gravity's Ghost and Big Dog Harry Collins,2014-01-23 “In part an account of sociological fieldwork among scientists in the field and part astronomy-history mystery. . . . a terrific read.” –Nature Gravity’s Ghost and Big Dog brings to life science’s efforts to detect cosmic gravitational waves. These ripples in space-time are predicted by general relativity, and their discovery will not only demonstrate the truth of Einstein’s theories but also transform astronomy. Although no gravitational wave has ever been directly detected, the previous five years have been an exciting period in the field. Sociologist Harry Collins offers readers an unprecedented view of the research and explains what it means for an analyst to do work of this kind. Collins was embedded with the gravitational wave physicists as they confronted two

possible discoveries—“Big Dog,” fully analyzed in this volume for the first time, and the “Equinox Event,” which was first chronicled by Collins in Gravity’s Ghost. Collins records the agonizing arguments that arose as the scientists worked out what they had seen and how to present it to the world, along the way demonstrating how even the most statistical of sciences rest on social and philosophical choices. Gravity’s Ghost and Big Dog draws on nearly fifty years of fieldwork observing scientists at the American Laser Interferometer Gravitational Wave Observatory and elsewhere around the world to offer an inspired commentary on the place of science in society today. “The physics junkie or philosophy of science enthusiast . . . will find lots to mull over.” –Science News “Makes for very entertaining reading.” –Daniel Kennefick, University of Arkansas, author of Traveling at the Speed of Thought

Gravity's Shadow Harry Collins,2010-08-15 According to the theory of relativity, we are constantly bathed in gravitational radiation. When stars explode or collide, a portion of their mass becomes energy that disturbs the very fabric of the space-time continuum like ripples in a pond. But proving the existence of these waves has been difficult; the cosmic shudders are so weak that only the most sensitive instruments can be expected to observe them directly. Fifteen times during the last thirty years scientists have claimed to have detected gravitational waves, but so far none of those claims have survived the scrutiny of the scientific community. Gravity's Shadow chronicles the forty-year effort to detect gravitational waves, while exploring the meaning of scientific knowledge and the nature of expertise. Gravitational wave detection involves recording the collisions, explosions, and trembling of stars and black holes by evaluating the smallest changes ever measured. Because gravitational waves are so faint, their detection will come not in an exuberant moment of discovery but through a chain of inference; for forty years, scientists have debated whether there is anything to detect and whether it has yet been detected. Sociologist Harry Collins has been tracking the progress of this research since 1972, interviewing key scientists and delineating the social process of the science of gravitational waves. Engagingly written and authoritatively comprehensive, Gravity's Shadow explores the people, institutions, and government organizations involved in the detection of gravitational waves. This sociological history will prove essential not only to sociologists and historians of science but to scientists themselves.

Gravity's Ghost Harry Collins,2011 As the leading chronicler of the search for gravitational waves, Harry Collins has been right there with the scientists since the start.
