The Theory of H(b) Spaces: Emmanuel Fricain,Javad Mashregi,2016-10-20 An H(b) space is defined as a collection of analytic functions that are in the image of an operator. The theory of H(b) spaces bridges two classical subjects, complex analysis and operator theory, which makes it both appealing and demanding. Volume 1 of this comprehensive treatment is devoted to the preliminary subjects required to understand the foundation of H(b) spaces, such as Hardy spaces, Fourier analysis, integral representation theorems, Carleson measures, Toeplitz and Hankel operators, various types of shift operators and Clark measures. Volume 2 focuses on the central theory. Both books are accessible to graduate students as well as researchers: each volume contains numerous exercises and hints, and figures are included throughout to illustrate the theory. Together, these two volumes provide everything the reader needs to understand and appreciate this beautiful branch of mathematics.

H. Beam Piper John F. Carr,2014-01-28 H. Beam Piper is one of science fiction's most enigmatic writers. In 1946 Piper appeared seemingly from out of nowhere, already at the top of his form. He published a number of memorable short stories in the premier science fiction magazine of the time, *Astounding Science Fiction*, under legendary editor John W. Campbell. Piper quickly became friends with many of the top writers of the day, including Lester Del Rey, Fletcher Pratt, Robert Heinlein and L. Sprague de Camp. Piper also successfully made the turn from promising short story writer to major novelist, authoring *Four-Day Planet*, *Cosmic Computer*, *Lord Kalvan of Otherwhen* and *Little Fuzzy*, which was nominated for a Hugo award. Even those who counted Piper among their friends knew very little about the man or his life as a railroad yard bull in Altoona, Pennsylvania. This biography illuminates H. Beam Piper, both the writer and the man, and answers lingering questions about his death. Appendices include a number of Piper's personal papers, a complete bibliography of Piper's works, and an essay on Piper's *Terro-Human Future History* series.

Clarence H. White and His World Anne McCauley,2017-01-01 Restoring a gifted art photographer to his place in the American canon and, in the process, reshaping and expanding our understanding of early 20th-century American photography Clarence H. White (1871–1925) was one of the most influential art photographers and teachers of the early 20th century and a founding member of the Photo-Secession. This beautiful publication offers a new appraisal of White's contributions, including his groundbreaking aesthetic experiments, his commitment to the ideals of American socialism, and his embrace of the expanding fields of photographic book and fashion illustration, celebrity portraiture, and advertising. Based on extensive archival research, the book challenges the idea of an abrupt rupture between prewar, soft-focus idealizing photography and postwar "modernism" to paint a more nuanced picture of American culture in the Progressive era. *Clarence H. White and His World* begins with the artist's early work in Ohio, which shares with the nascent Arts and Crafts movement the advocacy of hand production, closeness to nature, and the simple life. White's involvement with the Photo-Secession and his move to New York in 1906 mark a shift in his production, as it grew to encompass commercial portraiture and an increasing commitment to teaching, which ultimately led him to establish the first institutions in America to combine instruction in both technical and aesthetic aspects of photography. The book also incorporates new formal and scientific analysis of White's work and techniques, a complete exhibition record, and many unpublished illustrations of the moody outdoor scenes and quiet images of domestic life for which he was revered.

Watching M*A*S*H, Watching America James H. Wittebols,2003-06-05 It has been said that M*A*S*H was a show set in the 1950s which reflected the shifting values of the 1970s and early 1980s. Hawkeye Pierce, Radar O'Reilly, Trapper John McIntyre, Sherman Potter, Margaret (Hot Lips) Houlihan, B.J. Hunnicutt, Frank Burns, Charles Emerson Winchester, Max Klinger--these and the many other characters who populated the MASH 4077 used the Korean War as a backdrop to comment on many of the social issues of their day. Using a unique blend of comedy and drama, the show's first three seasons (1972-1975) focused on the anti-Vietnam War sentiment that consumed much of America. As Vietnam ended, M*A*S*H moved on to concentrate on other contemporary issues--the women's movement, the rise of the religious right in American politics, the new narcissism that marked the early 1980s, the heightened awareness of underage or excessive alcohol use, and the increased emphasis on family in American life. How the series presented these issues and its success in doing so are the subjects of this critical study. An episode listing--brief plot outline, casts and credits, air dates, and titles--is also provided.
