Handbook of Psychology, Educational Psychology Irving B. Weiner,William M. Reynolds,Gloria E. Miller,2012-10-05 Psychology is of interest to academics from many fields, as well as to the thousands of academic and clinical psychologists and general public who can't help but be interested in learning more about why humans think and behave as they do. This award-winning twelve-volume reference covers every aspect of the ever-fascinating discipline of psychology and represents the most current knowledge in the field. This ten-year revision now covers discoveries based in neuroscience, clinical psychology's new interest in evidence-based practice and mindfulness, and new findings in social, developmental, and forensic psychology.

Ex Vivo Engineering of the Tumor Microenvironment Amir R. Aref,David Barbie,2016-12-09 This volume will outline how to recreate the tumor microenvironment, to culture primary tumors without the need for developmental priming factors, and to deliver targeted therapeutics in a manner that recapitulates pharmacokinetics in vivo. Much of what may be learned from this volume will aid in understanding many aspects of the enhanced study of tumor cell biology in a physiologic context, open new avenues for drug screening and biomarker development, and accelerate the preclinical evaluation of novel personalized medicine strategies for patients

in real time.

Epigenetics Territory and Cancer Parvin Mehdipour,2016-10-09 This book explores epigenetic strategies, bridging fundamental cancer epigenetics, different paradigms in tumor genetics and translational understanding for both the clinic and improved lifestyles. The work provides target-based insights for treating different types of cancers and presents research on evolutionary epigenetics, introducing 'Medical Epi- Anthropology' and 'Cancer Epi-Anthropology'. Translating multi-disciplinary research into therapeutic design is at the core of this book. Readers may explore how cancer management involves unmasking the involved networks and the interactive status of different genes to achieve the appropriate methylome based therapy. Early chapters explore fundamental aspects and brain tumours, whilst later chapters investigate breast cancer and various other cancers, and the final chapter presents an evolutionary insight in cancer epigenetics, considering that the epigene is beyond DNA methylation, RNA interference and histone modification in cancer development. This book will be of interest to researchers in different medical and scientific fields, including clinical management (diagnosis, prognosis, prediction, prevention, and guidelines), genetic education, nutrition and nutrigenomics, industrial chemistry, and drug innovation. Because of the unique bridging between science and medicine this book will also be useful as an educational and translational research package.

Active Aging and Disease Management Helena Canhão,Jaime C. Branco,Giuseppe Liotta,2019-01-11 Population aging and the associated burden of chronic diseases are one of the main challenges in public health worldwide. This

Research Topic on Active Aging and Disease Management provides a comprehensive overview of population aging through fourteen comprehensive papers. Chapter 1 discusses an overview of health systems in active and healthy aging, while Chapter 2 focuses on the role of lifestyles, exercise and new technologies. Chapter 3 debates psychological and cognitive issues in aging and finally in Chapter 4, an older people self assessment is proposed and the role of communities and supporters are highlighted. We think that real social and health care integration at community level could be the key point to deliver effective health promotion and preventive intervention. Enjoy the reading!

Rum Punch and Revolution Peter Thompson, 2010-11-24 'Twas Honest old Noah first planted the Vine And mended his morals by drinking its Wine. -from a drinking song by Benjamin Franklin There were, Peter Thompson notes, some one hundred and fifty synonyms for inebriation in common use in colonial Philadelphia and, on the eve of the Revolution, just as many licensed drinking establishments. Clearly, eighteenth-century Philadelphians were drawn to the tavern. In addition to the obvious lure of the liquor, taverns offered overnight accommodations, meals, and stabling for visitors. They also served as places to gossip, gamble, find work, make trades, and gather news. In Rum Punch and Revolution, Thompson shows how the public houses provided a setting in which Philadelphians from all walks of life revealed their characters and ideas as nowhere else. He takes the reader into the cramped confines of the colonial bar room, describing the friendships, misunderstandings and conflicts which were generated among the city's drinkers and investigates the profitability of running a tavern in a city which, until independence, set maximum prices on the cost of drinks and

services in its public houses. Taverngoing, Thompson writes, fostered a sense of citizenship that influenced political debate in colonial Philadelphia and became an issue in the city's revolution. Opinionated and profoundly undeferential, taverngoers did more than drink; they forced their political leaders to consider whether and how public opinion could be represented in the counsels of a newly independent nation.

The Logic of Persecution Martin H. Redish, 2005 This book provides an exploration of the intersection between the McCarthy Era and the theory of free expression, as well as the implications of that intersection for both historical and constitutional inquiry.

The Wentworth Letter Joseph Joseph Smith, 2017-03-25 How is this book unique? Font adjustments & biography included Unabridged (100% Original content) Illustrated About The Wentworth Letter by Joseph Smith The Wentworth letter was a letter written in 1842 by Latter Day Saint movement founder Joseph Smith to Long John Wentworth, editor and proprietor of the Chicago Democrat. It outlined the history of the Latter Day Saint movement up to that time, and included Mormonism's Articles of Faith. The letter was written in response to Wentworth's inquiry on behalf of one of his friends, George Barstow, who was writing a history of New Hampshire. The letter was first published on March 1, 1842 in the Times and Seasons in Nauvoo, Illinois.
