A Working Woman Elvira Navarro, 2017 An ambitious tale of feminine friendship, madness, a radically changing city, and the vulnerability that makes us divulge our most shameful secrets. It begins as Elisa transcribes the chaotic testimony of her roommate Susana, acting as part-therapist, part-confessor as Susana reveals the gripping account of her strange sexual urges and the one man who can satisfy them. But is Susana telling the truth? And what to make of the story that follows, where Elisa considers her own life failures, blending her literary ambitions with her deep need for catharsis? And then, one last surprise makes us question everything we have just read.

Spatial and Temporal Dimensions for Legal History Massimo Meccarelli, María Julia Solla Sastre, 2016-07-01 <http://dx.doi.org/10.12946/gplh6> <http://www.epubli.de/shop/buch/53894> The spatiotemporal conjunction is a fundamental aspect of the juridical reflection on the historicity of law. Despite the fact that it seems to represent an issue directly connected with the question of where legal history is heading today, it still has not been the object of a focused inquiry. Against this background, the book's proposal consists in rethinking key confluences related to this problem in order to provide coordinates for a collective understanding and dialogue. The aim of this volume, however, is not to offer abstract methodological considerations, but rather to rely both on concrete studies, out of which a reflection on this conjunction emerges, as well as on the reconstruction of certain research lines featuring a spatiotemporal component. This analytical approach makes a contribution by

providing some suggestions for the employment of space and time as coordinates for legal history. Indeed, contrary to those historiographical attitudes reflecting a monistic conception of space and time (as well as a Eurocentric approach), the book emphasises the need for a delocalized global perspective. In general terms, the essays collected in this book intend to take into account the multiplicity of the spatiotemporal confines, the flexibility of those instruments that serve to create chronologies and scenarios, as well as certain processes of adaptation of law to different times and into different spaces. The spatiotemporal dynamism enables historians not only to detect new perspectives and dimensions in foregone themes, but also to achieve new and compelling interpretations of legal history. As far as the relationship between space and law is concerned, the book analyses experiences in which space operates as a determining factor of law, e.g. in terms of a field of action for law. Moreover, it outlines the attempted scales of spatiality in order to develop legal historical research. With reference to the connection between time and law, the volume sketches the possibility of considering the factor of time, not just as a descriptive tool, but as an ascriptive moment (quasi an inner feature) of a legal problem, thus making it possible to appreciate the synchronic aspects of the 'juridical experience'. As a whole, the volume aims to present spatiotemporality as a challenge for legal history. Indeed, reassessing the value of the spatiotemporal coordinates for legal history implies thinking through both the thematic and methodological boundaries of the discipline.

Domestic Labor in Twenty-First Century Latin American Cinema Elizabeth Osborne, Sofía Ruiz-Alfaro, 2020-01-02 This volume explores the character of the domestic worker in twenty-first century Latin American cinema and analyzes how recent filmic representations of the housemaid question the marginalization of domestic servants, in particular women, by making them the center of their narratives, their families, and society. The essays in this book posit the female domestic worker as an emergent subjectivity, a complex character who problematizes and contests the hierarchical power structures within the family dynamics and new socioeconomic orders found in contemporary Latin America. Readers will find a variety of representations across the continent as well as transnational commonalities of the cinematic figure and role of the housemaid, including the negotiation of a multilayered politics of affection in the framework of prevalent paternalism, and the complex and contradictory dynamic between private and public spaces, where domestic paid labor occupies a central role in maintaining gender, class, and ethnic inequalities.

Solenoid Mircea Cartarescu, 2022-11-29 NAMED ONE OF THE BEST BOOKS OF 2022 by the New Yorker, Publishers Weekly, The Financial Times, Words Without Borders A highly-acclaimed master work of fiction from Mircea Cărtărescu, author of *Blinding*, *Solenoid* is an existence (and eventually a cosmos) created by forking paths. Based on Cărtărescu's own experience as a high school teacher, *Solenoid* begins with the mundane details of a diarist's life and quickly spirals into a philosophical account of life, history, philosophy, and mathematics. The novel is grounded in the reality of Romania in the late 1970s and early 1980s, including frightening health care, the absurdities of the education system, and the misery of family life, while on a broad scale *Solenoid*'s investigations of other universes, dimensions, and timelines attempt to reconcile the realms of life and art. The text includes sequences in a tuberculosis preventorium, encounters with an anti-death protest movement, a society of dream investigators, and an extended visit to the miniscule world of dust mites living on a microscope slide. One character asks another: When you rush into the burning building, will you save the newborn or the artwork? Combining fiction with autobiography and history—Nikola Tesla and Charles Hinton, for example, appear alongside the Voynich manuscript—*Solenoid* searches for escape routes through the alternate dimensions of life and art, as various monstrous realities erupt within the present.

In the Time of the Butterflies Julia Alvarez, 2010-01-12 Celebrating its 30th anniversary in 2024, internationally bestselling author and literary icon Julia Alvarez's *In the Time of the Butterflies* is beautiful, heartbreaking and alive ... a lyrical work of historical fiction based on the story of the Mirabal sisters, revolutionary heroes who had opposed and fought against Trujillo. (Concepción de León, New York Times) Alvarez's new novel, *The Cemetery of Untold Stories*, is coming April 2, 2024. Pre-order now! It is November 25, 1960, and three beautiful sisters have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leónidas Trujillo's dictatorship. It doesn't have to. Everybody knows of *Las Mariposas*—the Butterflies. In this extraordinary novel, the voices of all four sisters—Minerva, Patria, María Teresa, and the survivor, Dedé—speak across the decades to tell their own stories, from secret crushes to gunrunning, and to describe the everyday horrors of life under Trujillo's rule. Through the art and magic of Julia Alvarez's imagination, the martyred Butterflies live again in this novel of courage and love, and the human costs of political oppression. Alvarez helped blaze the trail for Latina authors to break into the literary mainstream, with novels like *In the Time of the Butterflies* and *How the García Girls Lost Their Accents* winning praise from critics and gracing best-seller lists across the Americas.—Francisco Cantú, The New York Times Book Review This Julia Alvarez classic is a

must-read for anyone of Latinx descent. –Popsugar.com A gorgeous and sensitive novel . . . A compelling story of courage, patriotism and familial devotion. –People Shimmering . . . Valuable and necessary. –Los Angeles Times A magnificent treasure for all cultures and all time.” –St. Petersburg Times Alvarez does a remarkable job illustrating the ruinous effect the 30-year dictatorship had on the Dominican Republic and the very real human cost it entailed.–Cosmopolitan.com

Measuring Up Daniel Koretz, 2009-09-15 How do you judge the quality of a school, a district, a teacher, a student? By the test scores, of course. Yet for all the talk, what educational tests can and can’t tell you, and how scores can be misunderstood and misused, remains a mystery to most. The complexities of testing are routinely ignored, either because they are unrecognized, or because they may be—well, complicated. Inspired by a popular Harvard course for students without an extensive mathematics background, Measuring Up demystifies educational testing—from MCAS to SAT to WAIS, with all the alphabet soup in between. Bringing statistical terms down to earth, Daniel Koretz takes readers through the most fundamental issues that arise in educational testing and shows how they apply to some of the most controversial issues in education today, from high-stakes testing to special education. He walks readers through everyday examples to show what tests do well, what their limits are, how easily tests and scores can be oversold or misunderstood, and how they can be used sensibly to help discover how much kids have learned.

The Great American Biotic Interchange Alberto Luis Cione, Germán Mariano Gasparini, Esteban Soibelzon, Leopoldo Héctor Soibelzon, Eduardo Pedro Tonni, 2015-04-24 South American ecosystems suffered one of the greatest biogeographical events, after the establishment of the Panamanian land bridge, called the "Great American Biotic Interchange" (GABI). This refers to the exchange, in several phases, of land mammals between the Americas; this event started during the late Miocene with the appearance of the Holarctic Procyonidae (Huayquerian Age) in South America and continues today. The major phases of mammalian dispersal occurred from the Latest Pliocene (Marplatan Age) to the Late Pleistocene (Lujanian Age). The most important and richest localities of Late Miocene-Holocene fossil vertebrates of South America are those of the Pampean region of Argentina. There are also several Late Miocene and Pliocene localities in western Argentina and Bolivia. Other important fossils have been collected in localities of Pleistocene age outside Argentina: Tarija (Bolivia), karstic caves of Lagoa Santa and the recently explored caves of Tocantins (Brasil), Talara (Perú), La Carolina (Ecuador), Muaco (Venezuela), and Cueva del Milodon (Chile), among others. The book discusses basic information for interpreting the GABI such as taxonomic composition (incorporating the latest revisions) at classical and new localities for each stage addressing climate, environments, and time boundaries for each stage. It includes the chronology and dynamics of the GABI, the integration of South American mammalian faunas through time, the Quaternary mammalian extinctions and the composition of recent mammalian fauna of the continent.

Language Transfer in Language Learning Susan M. Gass, Larry Selinker, 1992-01-01 The study of native language influence in Second Language Acquisition has undergone significant changes over the past few decades. This book, which includes 12 chapters by distinguished researchers in the field of second language acquisition, traces the conceptual history of language transfer from its early role within a Contrastive Analysis framework to its current position within Universal Grammar. The introduction presents a continuum of thought starting from the late 70s, a time in which major rethinking in the field regarding the concept of language transfer was beginning to take

place, and continuing through the present day in which language transfer is integrated within current concepts and theoretical models. The afterword unites the issues discussed and allows the reader to place these issues in the context of future research. For the present book, the 1983 edition has been thoroughly revised, and some papers have been replaced and added.
