Loterías Roberto Garvía,Roberto Garvía Soto,2008 Esta investigación analiza el desarrollo histórico del mercado de loterías en España. La sociología clásica, de la misma manera que la ciencia económica, ha considerado el juego de la lotería como ejemplo de comportamiento irracional. La sociología funcionalista y de tradición marxista ha seguido esta tradición, entendiendo que el consumo de lotería está motivado por sentimientos de frustración o desesperación. La nueva sociología económica nos permite examinar el juego de la lotería desde una perspectiva diferente y considerar la medida en que las redes sociales pueden explicar pautas de consumo.

Diario de sesiones de la Cámara de Representantes Uruguay. Asamblea General. Cámara de Representantes,1900

El Placer de Tan Malos Tiempos Andrés Rodríguez Robles,2012-10 Esta historia, está llena de duros y desgraciados acontecimientos, pero también, es una historia llena de dulzura, felicidad y sosiego, de acuerdo con los tiempos, que en cada momento acontecían; creo que es una historia donde el lector puede sentirse reconfortado, feliz y hasta identificado en muchos de los puntos de vista. Son muchas las cosas que han ocurrido, en este y otros países, que la gente se ha olvidado; si todos y cada uno de nosotros, echáramos de vez en cuando la vista atrás para recordar, quienes fueron nuestros ancestros. De donde procedemos y de quien. Como fuimos. Como somos y en qué nos hemos convertido; podéis tener la seguridad, de que todos y cada uno de nosotros, seríamos mucho más ricos en valores humanos; valores estos de los cuales cada día carecemos más. La historia de los pueblos y la propia de cada uno de nosotros, es el legado más valioso, que el ser humano puede tener.
