*Eye of the Storm* Kate Messner,2012-03-13 In the not-too-distant future, huge tornadoes and monster storms have become a part of everyday life. Sent to spend the summer in the heart of storm country with her meteorological engineer father, Jaden Meggs is surprised at the strides her father's company StormSafe, has made with custom shelters that keep her family safe in even the worst of storms. At her exclusive summer science camp, Eye On Tomorrow, Jaden meets Alex, a boy whose passion for science matches hers. Together, they discover that her father's company is steering storms away from the expensive neighborhoods and toward the organic farming communities that are in competition with his bio-engineered food company, NatureMade. Jaden must confront her father, but when she does, she uncovers a terrifying family secret and must call on both her scientific knowledge and her faith to save the people she loves most from one of her father's monster storms.

Weather Matters Bernard Mergen,2008 A kaleidoscopic book that illuminates our obsession with weather--as both physical reality and evocative metaphor--focusing on the ways in which it is perceived, feared, embraced, managed, and even marketed.

*The Four Seasons* J. D. McClatchy,2008-06-03 For the poet, even the most minute details of the natural world are starting points for flights of the imagination, and the pages of this collection celebrating the four seasons are brimming with an extraordinary range of observation and imagery. Here are poets past and present, from Chaucer, Shakespeare, and Wordsworth to Whitman, Dickinson, and Thoreau, from Keats, Blake, and Hopkins to Elizabeth Bishop, Ted Hughes, Amy Clampitt, Mary Oliver, and W. S. Merwin. Here are poems that speak of the seasons as measures of earthly time or as states of mind or as the physical expressions of the ineffable. From Robert Frost's tribute to the evanescence of spring in "Nothing Gold Can Stay" to Langston Hughes's moody "Summer Night" in Harlem, from the "stopped woods" in Marie Ponsot's "End of October" to the chilling "mind of winter" in Wallace Stevens's "The Snow Man," the poems in this volume engage vividly with the seasons and, through them, with the ways in which we understand and engage the world outside ourselves.

**Arts & Crafts Homes and the Revival** ,2008 Devoted to the Arts and Crafts Movement past and present, this new magazine celebrates the revival of quality and craftsmanship. The emphasis is on today's revival in architecture, furniture, and artisanry, informed by international Arts & Crafts and the early-20th-century movement in America: William Morris through the Bungalow era. Includes historic houses, essays and news, design details, how-to articles, gardens and landscape, kitchens and baths. Lots of expert advice and perspective for those building, renovating, or furnishing a home in the Arts & Crafts spirit. **Old House Interiors** ,2005-04 National architectural magazine now in its fifteenth year, covering period-inspired design 1700-1950. Commissioned photographs show real homes, inspired by the past but livable. Historical and interpretive rooms are included; new construction, additions, and new kitchens and baths take their place along with restoration work. A feature on furniture appears in every issue. Product coverage is extensive. Experts offer advice for homeowners and designers on finishing, decorating, and furnishing period homes of every era. A garden feature, essays, archival material, events and exhibitions, and book reviews round out the editorial. Many readers claim the beautiful advertising—all of it design-related, no "lifestyle" ads—is as important to them as the articles.

*The Second Sophistic* Graham Anderson,2005-07-25 Sophism was the single most important movement in second century literature: prose of that period came to be written as entertainment rather than confined to historical subjects. Graham Anderson shows how the Greek sophists' skills in public speaking enabled them to perform effectively across a variety of activities. As he presents the sophists' roles as civic celebrities side-by-side with their roles as transmitters of Hellenic culture and literary artists, a co-ordinated view of the Second Sophistic as a complex phenomenon emerges.

Amazing Courage ,2009 The year was 1952 ... and in one moment that summer my life was changed forever. A dreaded virus was running rampant throughout the United States. Technically called infantile paralysis, this virus was more commonly known as polio. There had been sixty thousand documented cases and three thousand deaths that year, the last big epidemic before Dr. Jonas Salk discovered his vaccine. At fifteen years old I was diagnosed with this disease that the entire United States feared. My story is one of finding a way to overcome everyday problems posing monumental obstacles. After forty days in an iron lung; in an isolation ward for five months and eight months of rehabilitation, and being unable to use my arms and legs normally I had many challenges. Learning to walk again I married and had children but soon I was alone raising a six year old son and two year old daughter. It is my belief that my life has been what it was supposed to be. I believe I have lived life to the fullest and for that I am forever grateful for all the amazing people who helped me along the way and the amazing God who made it all possible Courage The measure of one's courage should not be judged alone by how tall a mountain is but also by how tall was the mountain to the one who climbed it.--Back cover.
