And sometimes, you just need to make quick fixes, while at other times, building an entirely customized and branded environment is a multi-step process with lots of stakeholder buy-in and development time required. Whether you're interested in applying just a touch of style to a team site, or you're branding a public-facing Fortune 500 website based on SharePoint, Practical SharePoint 2010 Branding and Customization is the only book you'll need to quickly, easily, and efficiently brand and customize your environment. Bonus: Includes the SharePoint 2010 Branding Starter Kit! This kit has everything you need to jumpstart successful and compelling designs. The kit includes a layered Adobe Photoshop file of a SharePoint 2010 site, two pre-built visual design examples, and a Visual Studio solution you can use to deploy either of the designs included. This starter kit is specifically prepared to save you substantial time kicking off your SharePoint branding project and to minimize potential roadblocks. These branding tools would cost you as much as \$500 if purchased separately, but they're included with the purchase of this book at no additional charge! Get started today.
