Inkspirations Love by Design Arielle Ford, 2017-02-07 Twenty years ago, author Arielle Ford created a system to manifest her soulmate using the timeless principles of the Law of Attraction: techniques, visualizations, rituals, and prayers to prepare her mind, body, spirit, and home for an amazing relationship with a man she had not yet met. Within six months, she was introduced to her beloved, Brian Hilliard—knowing instantly that he was the one—and a year later they married. Since then, tens of thousands of men and women around the world have used her 'Soulmate Secret' to meet and marry the love of their lives. Now, Arielle's miraculous methods are paired with the romantic artwork of internationally acclaimed artist Manja Burton in this first of its kind transformational coloring book. Art therapists have long known that making art is a powerful and enjoyable tool for self-exploration and processing emotions. Inkspirations Love by Design contains simple yet specific exercises and information to create the frequency of love in your life. By coloring each page in this step-by-step guide with a clear intention, readers will mindfully and creatively raise their awareness to make their deepest desires for love come to fruition. Finding true love is possible for anyone, at any age, and this beautiful book will lead readers to open their hearts to the art of love.

Paper Sculpture Richard Sweeney,2021-11-28 Paper is readily available and inexpensive in comparison to other sculptural media, and can be manipulated with a set of simple tools. It is a tactile medium, which can be formed into three-dimensional shapes quickly and immediately through folding and cutting. This hands-on element is something I feel is important -- it allows the artist to engage immediately with the material, resulting in something

physical and tangible. It is, perhaps, these factors that make it so appealing, not only as a tool to apply in different fields, such as model making for architecture, but as an activity for its own sake. A section of this book is dedicated to a selection of the techniques I use in the creation of my work, and which I demonstrate in my workshops. My aim is to show the basic principles of form-making in paper, which can then be expanded on and explored as the reader wishes. Also included are my sources of inspiration and details of my working practice, which shows the evolution of an initial idea into a final artwork. I hope this book offers an insight into my work, while offering inspiration to those who wish to explore the creative potential of paper.
