Heads Jesse Jarnow, 2016-03-29 **Heads: A Biography of Psychedelic America** uncovers a hidden history of the biggest psychedelic distribution and belief system the world has ever known. Through a collection of fast-paced interlocking narratives, it

animates the tale of an alternate America and its wide-eyed citizens: the LSD-slinging graffiti writers of Central Park, the Dead-loving AI scientists of Stanford, utopian Whole Earth homesteaders, black market chemists, government-wanted Anonymous hackers, rogue explorers, East Village bluegrass pickers, spiritual seekers, Internet pioneers, entrepreneurs, pranksters, pioneering DJs, and a nation of Deadheads. WFMU DJ and veteran music writer Jesse Jarnow draws on extensive new firsthand accounts from many never-before-interviewed subjects and a wealth of deep archival research to create a comic-book-colored and panoramic American landscape, taking readers for a guided tour of the hippie highway filled with lit-up explorers, peak trips, big busts, and scenic vistas, from Vermont to the Pacific Northwest, from the old world head capitals of San Francisco and New York to the geodesic dome-dotted valleys of Colorado and New Mexico. And with the psychedelic research moving into the mainstream for the first time in decades, Heads also recounts the story of the quiet entheogenic revolution that for years has been brewing resiliently in the Dead's Technicolor shadow. Featuring over four dozen images, many never before seen-including pop artist Keith Haring's first publicly sold work-Heads weaves one of the 20th and 21st centuries' most

misunderstood subcultures into the fabric of the nation's history. Written for anyone who wondered what happened to the heads after the Acid Tests, through the '70s, during the Drug War, and on to the psychedelic present, Heads collects the essential history of how LSD, Deadheads, tie-dye, and the occasional bad trip have become familiar features of the American experience.

The Artist's Complete Guide to Drawing the Head William

Maughan,2013-08-14 In this innovative guide, master art instructor William Maughan demonstrates how to create a realistic human likeness by using the classic and highly accurate modeling technique of chiaroscuro (Italian for “light and dark”) developed by Leonardo da Vinci during the High Renaissance. Maughan first introduces readers to the basics of this centuries-old technique, showing how to analyze form, light, and shadow; use dark pencil, white pencil, and toned paper to create a full range of values; use the elements of design to enhance a likeness; and capture a sitter’s gestures and proportions. He then demonstrates, step by step, how to draw each facial feature, develop visual awareness, and render the head in color with soft pastels.

Is It All in Your Head? Suzanne O'Sullivan, 2017-01-17 A

neurologist's insightful and compassionate look into the misunderstood world of psychosomatic disorders, told through individual case histories. It's happened to all of us: our cheeks flush red when we say the wrong thing, or our hearts skip a beat when a certain someone walks by. But few of us realize how much more dramatic and extreme our bodies' reactions to emotions can be. Many people who see their doctor have medically unexplained symptoms, and in the vast majority of these cases, a psychosomatic cause is suspected. And yet, the diagnosis of a psychosomatic disorder can make a patient feel dismissed as a hypochondriac, a faker, or just plain crazy. In *IS IT ALL IN YOUR HEAD?* neurologist Suzanne O'Sullivan, MD, takes us on a journey through the world of psychosomatic illness, where we meet

patients such as Rachel, a promising young dancer now housebound by chronic fatigue syndrome, and Mary, whose memory loss may be her mind's way of protecting her from remembering her husband's abuse. O'Sullivan reveals the hidden stresses behind their mysterious symptoms, approaching a sensitive topic with patience and understanding. She addresses the taboos surrounding psychosomatic disorders, teaching us that it's all in your head doesn't mean that something isn't real, as the body is often the stand-in for the mind when the latter doesn't possess the tools to put words to its sorrow. She encourages us to look with compassion at the ways in which our brains act out, and to question our failure to credit the intimate connection between mind and body.

Watch Your Head Kathryn Mockler, 2020-11-17 A warning, a movement, a collection borne of protest. In *Watch Your Head*, poems, stories, essays, and artwork sound the alarm on the present and future consequences of the climate emergency. Ice caps are melting, wildfires are raging, and species extinction is accelerating. Dire predictions about the climate emergency from

scientists, Indigenous land and water defenders, and striking school children have mostly been ignored by the very institutions – government, education, industry, and media – with the power to do something about it. Writers and artists confront colonization, racism, and the social inequalities that are endemic to the climate crisis. Here the imagination amplifies and humanizes the science. These works are impassioned, desperate, hopeful, healing, transformative, and radical. This is a call to climate-justice action. Edited by Madhur Anand, Stephen Collis, Jennifer Dörner, Catherine Graham, Elena Johnson, Canisia Lubrin, Kim Mannix, Kathryn Mockler, June Pak, Sina Queyras, Shazia Hafiz Ramji, Rasiqra Revulva, Yusuf Saadi, Sanchari Sur, and Jacqueline Valencia Proceeds will be donated to RAVEN and Climate Justice Toronto.

Head Over Heels Hannah Orenstein, 2020-06-23 Named a best beach/summer read by O, The Oprah Magazine, Cosmopolitan, Parade, PopSugar, Marie Claire, Bustle, and more! From the author of the Love at First Like and Playing with Matches, an electrifying rom-com set in the high stakes world of competitive gymnastics, full of Hannah Orenstein's signature "charm, whimsy, and giddy romantic tension" (BuzzFeed). The past seven years

have been hard on Avery Abrams: After training her entire life to make the Olympic gymnastics team, a disastrous performance ended her athletic career for good. Her best friend and teammate, Jasmine, went on to become an Olympic champion, then committed the ultimate betrayal by marrying their emotionally abusive coach, Dimitri. Now, reeling from a breakup with her football star boyfriend, Avery returns to her Massachusetts hometown, where new coach Ryan asks her to help him train a promising young gymnast with Olympic aspirations. Despite her misgivings and worries about the memories it will evoke, Avery agrees. Back in the gym, she's surprised to find sparks flying with Ryan. But when a shocking scandal in the gymnastics world breaks, it has shattering effects not only for the sport but also for Avery and her old friend Jasmine. Perfect for fans of Emily Giffin and Jasmine Guillory, *Head Over Heels* proves that no one "writes about modern relationships with more humor or insight than Hannah Orenstein" (Dana Schwartz, author of *Choose Your Own Disaster*).

On-Whey,2010-06-15 In Your Disgusting Head, Dr. and Mr. Doris Haggis-on-Whey reveal—through newly discovered discoveries—all

the ways in which your head disappoints you. For many years the scientific and educational community has wondered and worried about the possibility that semi-sane scholar-pretenders would find the means to put out a series of reference books, filled with ludicrous misinformation and aimed at children. Well, we offer you Your Disgusting Head by Dr. and Mr. Doris Haggis-On-Whey. A world-renowned and much feared expert on everything, Dr. Doris Haggis-On-Whey has seventeen degrees from eighteen institutions of higher learning. With her husband, Benny, she has traveled the world many times over, has learned about all aspects of life, including outer space and food, first hand. The human body is beautiful and mysterious. The mysterious part reeks of cheese. But no part of your body is as scary and horrifying as your head! In Your Disgusting Head, you'll find amazing information, such as: · The ear was invented and designed by Feranando de la Mancini Goldfarb, in 1911, which was also a good year for yeast. · Good Reasons for teeth removal: dentist did it; peer pressure; not sharp enough; found better teeth, like, on the ground; suspected of enjoying flossing; decay and mouth politics. · The real reason your ears can't hear your pets talking. The answer is simple: your pet is a mumbler. With the wit and irreverent sense of humor for which

Dave Eggers and McSweeney's is known, comes the second volume in the revolutionary Haggis-On-Whey World of Unbelievable Brilliance books. More than just entertaining and informative, Your Disgusting Head will help you appear smarter, more in touch with your sensitive side and whiten your teeth.
