**Pity is Not Enough** Josephine Herbst,1998 I'd rather fail in story writing than succeed in anything else, Josephine Herbst declared in 1913. The Iowa native's Trexler family trilogy, with *Pity Is Not Enough* as its first volume, shows clearly that Herbst in fact succeeded at storytelling. The book draws loosely on Herbst's family history, using Reconstruction's demise in Georgia to link the advance of free market capitalism to the North's abandonment of its commitment to racial justice. The protagonists-Catherine Trexler and her brother Joe, a carpetbagger embroiled in railroad scandals-are ripped apart financially and psychologically by competing codes of domesticity, Southern manners, and capitalism. In her introduction to the book, Mary Ann Rasmussen argues that Herbst was unlike many other 1930s Leftists in that she refused the essentialist notions of gender difference that confounded radical men and women of her generation. Herbst's first two novels, published in the late 1920s, were praised by both Katherine Anne Porter and Ernest Hemingway, but the writer gained greater fame with the proletarian fiction and leftist journalism she wrote during the next decade. Though never a member of the Communist Party, Herbst was ostracized as a sympathizer and dismissed from a government job in 1942. Because she never repudiated her radical beliefs and lifestyle, her literary reputation suffered.

**Requiem for a German Past** Jurgen Herbst,1999 Jurgen Herbst s account of growing up in Nazi Germany from 1928 to 1948 is a boy s experience of anti-Semitism and militarism from the inside. Herbst was a middle-class boy in a Lutheran family that saw value in Prussian military ideals and a mythic German past. His memoir is a compelling, understated tale of moral awakening.

**States and Power in Africa** Jeffrey Herbst,2000-03-26 Theories of international relations, assumed to be universally applicable, have failed to explain the creation of states in Africa. There, the interaction of power and space is dramatically different from what occurred in Europe. In his groundbreaking book, Jeffrey Herbst places the African state-building process in a truly comparative perspective, examining the problem of state consolidation from the precolonial period, through the short but intense interlude of European colonialism, to the modern era of independent states. Herbst's bold contention--that the conditions now facing African state-builders existed long before European penetration of the continent--is sure to provoke controversy, for it runs

counter to the prevailing assumption that colonialism changed everything. In identifying how the African state-building process differs from the European experience, Herbst addresses the fundamental problem confronting African leaders: how to extend authority over sparsely settled lands. Indeed, efforts to exert control over vast, inhospitable territories of low population density and varied environmental and geographical zones have resulted in devastating wars, millions of refugees, and dysfunctional governments perpetrating destructive policies. Detailing the precise political calculations of distinct African leaders, Herbst isolates the basic dynamics of African state development. In analyzing how these leaders have attempted to consolidate power, he is able to evaluate a variety of policy alternatives for dealing with the fundamental political challenges facing African states today.
