First-Person Shooter Videogames Alberto Oya, 2023-12-18 This book offers a comprehensive and accessible characterisation of the first-person shooter videogame genre. After providing an overview of the history of the first-person shooter videogame genre, Alberto Oya comments on the various defining peculiarities of this genre, namely the first-person perspective, the shooting gaming mechanics, the heroic in-game narrative or background story, and multiplayer gaming. Oya also argues that educators can use first-person shooter videogames to encourage their students to reflect on historical and philosophical issues.

Facing Tragedies Christopher Hamilton, 2009 The

essays in this volume grew out of the reflections and discussions conducted during the second international conference Impulses from Salzburg from May 6 to 9, 2008, on Facing Tragedies. In accordance with the aims of this project, participants were asked to reflect not simply on the nature and meaning of tragedy but also on ways in which those who are the victims of tragedy make sense of, or cope with, their condition. It was recognised that abstract reflection is important in this regard, but also that such reflection must be rooted in ordinary, everyday. experience, and thus the conference had as one of its aims the attempt to ensure that philosophical reflection not lose the moorings it needs in the reality of ordinary life.

Shot List - The Douglas Files: Book Four Nathan Birr, 2016-08-31 After being shot and left to bleed out in an L.A. cemetery on New Year's Eve, P.I. Jackson Douglas wakes in the hospital, attempting to recall the face of the shooter and the events that brought him to the cemetery in the first place. As he recovers, he replays the previous three months, trying to figure out who wants him dead. East Coast mobsters? Corrupt Mexican businessmen? Someone (a scornful starlet, a creepy stalker) from his brief stint working in Hollywood? All of them have motives, but even as he relives his adventures-one of which led him to

the cemetery-the pieces refuse to fall into place. Identifying his shooter isn't the only thing on Jackson's mind. For several months, he's been tormented by the choices (and their repercussions) he's made since becoming a private eye. Is it time for him to give up the business for good? Will his quest to find his shooter give him new purpose? And how will he respond when he finds out he may not be the shooter's only target?

Science Fiction Stars and Horror Heroes Tom Weaver, 2006-09-28 Twenty-eight terrific interviews with some of the sharpest and most talkative stars and movie makers of the classic (and c-r-a-z-y!) SF and horror films of the past: Richard Matheson, Janet Leigh, Acquanetta, Hazel Court, Kim Hunter and others reminisce at length and with great good humor about their days on the sets of Psycho, Planet of the Apes, Superman; the Poe, Hammer and Lewton films, and exploitation greats like Attack of the 50 Foot Woman.

Return of the B Science Fiction and Horror Heroes Tom Weaver, 2000 The people who directed, produced, and starred in the scary and fantastic movies of the genre heyday over thirty years ago created memorable experiences as well as memorable movies. This McFarland Classic brings together over fifty interviews with the directors, producers, actors, and make-up artists of science fiction and horror films of the 1940s, 1950s, and 1960s. From B movies to classics, Samuel Z. Arkoff to Acquanetta, these veteran vampire baits, swamp monsters, and flying saucers attackees share their memories. This classic volume represents the union of two previous volumes: Interviews with B Science

Fiction and Horror Movie Makers (more fun than the lovably cheap movies that inspired it-- Booklist/RBB); and Science Fiction Stars and Horror Heroes (candid...a must --ARBA). Together at last, this combined collection of interviews offers a candid and delightful perspective on the movies that still make audiences squeal with fear, and occasionally, howl with laughter.

Heroic Fantasy Short Stories , 2018-12-15 New authors and collections. Somewhere between epic historical fantasy, sword and sorcery and Tolkien-esque fantasy exists a thick vein of storytelling that would make Robert E Howard and H.G. Wells proud. Following the great success of our Gothic Fantasy, deluxe edition short story compilations, Ghosts, Horror, Science Fiction, Murder Mayhem and Crime & Mystery we present a compilation of savage swordplay, and high magic, of daring deeds and gaudy battles, in a blazing mix of classic and brand new writing, with authors from the US, Canada, and the UK. Classic authors include: Clark

Ashton Smith, John Buchan, Snorri Sturluson, Homer, A. Merritt, Geoffrey Chaucer, Andrew Lang, Howard Pyle, William Morris, Eric Rücker Eddison, with the text of Sir Gawain and the Green Knight and extracts from Beowulf, The Nibelungenlied and The Song of Roland.

Mass Shootings and Civilian Armament Alexei Anisin, 2021-11-18 Mass Shootings and Civilian Armament provides the first comprehensive multi-methodological analysis of the relationship between mass shootings and firearm purchases (as proxied by background checks) in the US on national level data from 1999-2020. Since 1994, the number of civilian-owned firearms in the US has doubled to around 398 million while the population only grew by 70 million. On average, mass shootings have occurred once every two weeks over the last decade which is a major factor behind why social scientists have started to ask whether mass shootings play a causative role in civilian decisions to purchase guns. Utilizing a multi-methodological approach featuring quantitative, comparative/configurational, and qualitative methods, this book puts forward a theoretical framework and argues that mass shootings do increase civilian armament, but that this repetitious effect is historically contingent, asymmetric, and non-linear. Particular types of mass shootings are hypothesized to have driven and continue to bring about increased levels of civilian firearm purchases through different pathways and combinations of variables – those that feature high fatality counts; arise in areas of cultural importance, are ideologically

motivated. First, inquiry into background check data (1999-2020) and data on 213 mass shootings and attempted mass shootings is carried out to find out which shootings (as well as controls) are significantly correlated with background check increases. Second, the findings are utilized in a theoretically driven comparative configurational assessment to test if the noted theoretical pathways are associated with the outcome of increased post-shooting armament. Third, the empirical analyses are complimented by three case studies – the 2011 Gabrielle Giffords shooting (illustrative of the high fatality pathway), the 2012 Colorado movie theater shooting (illustrative of the cultural pathway), and the 2015 Charleston Church shooting (illustrative of the ideologically driven pathway). Interdisciplinary in nature, Mass Shootings and Civilian Armament will not only be of great interest to scholars of Criminology, but will also speak to sociologists, economists, public policy scholars, political scientists, historians, as well as cultural studies and American studies scholars.

Be a Hero John Geddes, Alun Rees, 2017-08-08
Dealing with the unthinkable It's never going to be you. Then one day you hear the clatter of automatic fire at the mall. You have been drawn into the chaos and terror of an active shooter event. What do you do? Who do you turn to? *Be a Hero* is the essential guide to terrorist attacks

that will help you survive. Former Special Air Service terror expert John Geddes will explain how to cope with a life-threatening event. He shows you how to make clear decisions and beat the odds by: Dealing with fear through simple and effective techniques to bring the chemical urges generated by terror at least partially under control Escaping and evading when possible, using everyday objects and landmarks for protection Fighting back if needed, with methods to disarm an active shooter and to use items at hand as weapons Using a weapon if you are licensed to carry, shooting to kill without collateral damage or being mistaken for a perpetrator Providing medical assistance to deal with traumatic battlefield injury and save lives This is not a book primarily for survivalists and 'preppers.' Be a Hero is a book for ordinary men and women who could find themselves in the middle of an extraordinary moment. It will help them find the hero inside—and live to tell the tale.

It's Only a Movie Mark Kermode,2010-02-04 In *It's Only a Movie*, the incomparable Mark Kermode takes us into the weird world of a life lived in widescreen. Join him as he gets lost in Russia on the trail of a low-budget horror flick, gasp as he's shot at in Hollywood while interviewing Bavarian director Werner Herzog, cheer as he gets thrown out of the Cannes film festival for heckling in very bad French, and cringe as he's handbagged by Helen Mirren at London's glitzy BAFTA Awards. Written with sardonic wit and wry good humour, this compelling cinematic memoir is

genuinely 'inspired by real events'.

Story Mode Ph. D Strunk, 2021-11-15 Once considered niche, fringe, and the hobby of only outsiders or loners, video games have rapidly become one of the most popular and influential artistic forms of this century. Their imagery is near ubiquitous—children, adults, and even professional athletes know what a Fortnite dance is without having played the game, and every conversation about violence in media eventually turns toward Grand Theft Auto. We've reached a point where, through streaming platforms like Twitch, games don't even need to be played to be enjoyed, as whole robust communities form around watching others play. Games have grown into more than just products; they're touchstones, meaning that they've become popular enough for something radical to have happened: even while culture shapes our games, games have simultaneously begun shaping our culture. In Story Mode, video games critic and host of the No Cartridge podcast Trevor Strunk traces how some of the most popular and influential game series have changed over years and even decades of their continued existence and growth. We see how the Call of Duty games—once historical simulators that valorized conflicts like World War II—went “modern,” complete with endless conflicts, false flag murders of civilians, and hyperadvanced technology. It can be said that Fortnite's runaway popularity hinges on a competition for finite resources in an era of horrific inequality. Strunk reveals how these shifts occurred as direct reflections of the culture in which games were produced, thus

offering us a uniquely clear window into society's evolving morals on a mass scale. Story Mode asks the question, Why do video games have a uniquely powerful ability to impact culture? Strunk argues that the participatory nature of games themselves not only provides players with a sense of ownership of the narratives within, but also allows for the consumption of games to be a revelatory experience as the meaning of a game is oftentimes derived by the manner in which they are played. Combining sharp criticism of our most beloved and well-known video game series with a fascinating discussion of how our cultural values form, Story Mode is a truly original examination of the unique space games now occupy, from one of the sharpest games critics working today.
