Those for Whom the Lamp Shines Vince L. Bantu, 2023 In *Those for Whom the Lamp Shines*, Vince L. Bantu uses the rich body of anti-Chalcedonian literature to explore how the peoples of Egypt, both inside and outside the Coptic Church, came to understand their identity as Egyptians. Working across a comparative spectrum of traditions and communities in late antiquity, at the intersection of religious and other social forms of identity, Bantu shows that it was the dissenting doctrines of the Coptic Church that played the crucial role in conceptualizing Egypt and being Egyptian. Based on the study of neglected Coptic and Syriac texts, *Those for Whom the Lamp Shines* offers the only sustained treatment of ethnic and religious self-understanding in Africa's oldest Christian church.

Tears into Wine Eric Chafe,2015-05-01 In 1714, the 29 year-old Johann Sebastian Bach was promoted to the position of concertmaster at the ducal court of Weimar. This post required him for the first time in his already established career to produce a regular stream of church cantatas-one cantata every four weeks. Among the most significant works of this period is Ich hatte viel Bekümmernis in meinem Herzen (Cantata 21). Generally known in English as I had much affliction, Cantata 21 draws from several psalms and the Book of Revelations and offers a depiction of the spiritual ascent of the soul from intense tribulation to joy and exaltation. Although widely performed and loved by musicians, Cantata 21 has endured much criticism from scholars and critics who claim that the piece lacks organizational clarity and stylistic coherence. In Tears into Wine, renowned Bach scholar Eric Chafe challenges the scholarly consensus, arguing that Cantata 21 is an exceptionally carefully designed work, and that it displays a convergence of musical structure and theological purpose that is paradigmatic of Bach's sacred work as a whole. Drawing on a wide range of Lutheran theological writing, Chafe shows that Cantata 21 reaches beyond the scope of the individual liturgical occasion to voice a breadth of meaning that encompasses much of the core of Lutheran thought. Chafe artfully demonstrates that instead of simply presenting a musical depiction of the soul's journey from sorrow to bliss, Cantata 21 expresses the various stages of God's revelation and their impact on the believing soul. As a result, Chafe reveals that Cantata 21 has a

formal design that mirrors Lutheran belief in unfolding revelation, with the final movement representing the work's crown--the goal toward which all of the earlier movements are directed. Complete with full text translations of the cantata and the liturgical readings that would have accompanied it at the first performance, *Tears into Wine* is a monumental book that is ideally suited for Bach scholars and students, as well as those generally interested in the relationship between theology and music.

The Tessera of Antilia Donald R. Dickson, 1998 This study examines the Protestant utopian movement that was inspired by the writings of Johann Valentin Andreae and led to brotherhoods in early modern Germany and England. It is based on the leges and manifestos of these societies and letter exchanges among members.

Christianopolis Johann Valentin Andreae, 1999-05-31 The Christianopolis (1619) of Johann Valentin Andreae describes in great detail a utopian community of scholar-craftsmen, as seen through the eyes of a naïve young traveller. It is a multi-level text, carefully constructed to provide both entertainment and a critique of contemporary society and religion, which could also be read as the prospectus for the establishment of a new community. This new translation aims to clarify Andreae's elliptical Latin for the first time by identifying parallel passages, allusions and sources for his ideas, and by linking Christianopolis with Andreae's other work as satirist, dramatist, poet and mathematician. A new model of his revision of ideas drawn from Campanella is put forward, and the

politico-economic principles embodied in the text are explored. The translation should be of interest to students of the history of utopian ideas, and the history of economic thought.

Senfl-Studien 3 Birgit Lodes, Sonja Tröster, Stefan Gasch, 2019-01-16 Der Band setzt die Reihe der Senfl-Studien fort, in deren Rahmen Beiträge zu verschiedensten Aspekten rund um den Renaissancekomponisten Ludwig Senfl sowie zu Phänomenen der Musik des 16. Jahrhunderts generell publiziert werden. In den Senfl-Studien 3 liegen die Schwerpunkte auf neuen Funden zu Senfls biographischer Kontextualisierung (räumlich wie auch in Bezug auf seine Netzwerke) sowie zur Überlieferung und Medialität seiner Werke. Zudem wird in Fallstudien die Bedeutung humanistischer Ideen für die Konzeption seiner Kompositionen und deren Verflechtung mit dem gesellschaftlichen und kulturellen Leben seiner Zeit beleuchtet.

Communicating Religion and Atheism in Central and Eastern Europe Jenny Vorpahl, Dirk Schuster, 2020-05-18 This book brings together case studies dealing with historical as well as recent phenomena in former socialist nations, which testify the transfer of knowledge about religion and atheism. The material is connected on a semantic level by the presence of a historical watershed before and after socialism as well as on a theoretical level by the sociology of knowledge. With its focus on Central and Eastern Europe this volume is an important contribution to the research on nonreligion and secularity. The collected volume deals with agents and media within specific cultural and historical contexts. Theoretical claims and conceptions by single agents and/or institutions in which the imparting of knowledge about religion and atheism was or is a central

assignment, are analyzed. Additionally, procedures of transmitting knowledge about religion and atheism and of sustaining related institutionalized norms, interpretations, roles and practices are in the focus of interest. The book opens the perspective for the multidimensional and negotiating character of legitimation processes, being involved in the establishment or questioning of the institutionalized opposition between religion and atheism or religion and science.

The Nibelungen Tradition Winder McConnell, Werner Wunderlich, Frank Gentry, Ulrich Mueller, 2001-12-21 Within the English-speaking world, no work of the German High Middle Ages is better known than the Nibelungenlied, which has stirred the imagination of artists and readers far beyond its land of origin. Its international influence extends from literature to music, art, film, politics and propaganda, psychology, archeology, and military history. Now for the first time all references to the vast Nibelungen tradition have been catalogued in this comprehensive encyclopedia containing nearly 1000 entries by several dozen international contributors, including the most distinguished scholars in the field. Readers will find illuminating passages on a variety of topics, including literary and extra-literary references, characters and place names, significant motifs and concepts, historical background, and cultural reception through the centuries. This monumental work is an invaluable guide to a fascinating, age-old tradition.

Drama and the World of Richard Wagner Dieter Borchmeyer, 2003-11-30 Richard Wagner continues to be the most controversial artist in history, a perpetually troubling figure in our cultural consciousness. The unceasing debate over his works and their impact--for and against--is one reason why there has been no genuinely comprehensive

modern account of his musical dramas until now. Dieter Borchmeyer's book is the first to present an overall picture of these musical dramas from the standpoint of literary and theatrical history. It extends from the composer's early works--still largely ignored--to the Ring Cycle and Parsifal, and includes Wagner's unfinished works and operas he never set to music. Through lively prose, we come to see Wagner as a librettist--and as a man of letters--rather than primarily as musical composer. Borchmeyer uncovers a vast field of cultural and historical cross-references in Wagner's works. In the first part of the book, he sets out in search of the various archetypal scenes, opening up the composer's dramatic workshop to the reader. He covers all of Wagner's operas, from early juvenilia to the canonical later works. The second part examines Wagner in relation to political figures including King Ludwig II and Bismarck, and, importantly, in light of critical reactions by literary giants--Thomas Mann, whom Borchmeyer calls a guiding light in this exploration of the fields that Wagner tilled, and Nietzsche, whose appeal to philology is a key source of inspiration in attempts to grapple with Wagner's works. For more than twenty years, Borchmeyer has placed his scholarship at the service of the famed Bayreuth Festival. With this volume, he gives us a summation of decades of engagement with the phenomenon of Wagner and, at the same time, the result of an abiding critical passion for his works.
