Pamela Leigh Starr

Sisterhood of the Blue Storm David Rain,2015-11-19 In a time lost in legend, the Isles of Wenaya were united in worship of Javander, goddess of the seas. From her fantastical palace beneath the waves, Javander presided over a caste of priestesses, linked in a thrumming psychic web. Then the web was broken, Javander's people turned to false gods and the priestesses who once served her so well became the Sisterhood of the Blue Storm . . . Ten boys on the cusp of adulthood arrive on the empty tropical island of Xaro to undergo their Manhood Trial, an age-old ritual meant to build character as they leave their childhood behind. They thought they could survive alone. But that was before the killing began. That was before the Blue Storm. To this island of dark magic come Jem and his companions, pursuing their mystic quest for the long-lost crystals of the Orokon, desperate to find Javinder's blue jewel before Jem's evil rival, the anti-god Toth-Vexrah, gets there. Never has the quest been so perilous. Originally released under the pseudonym Tom Arden

Storm George R. Stewart,2021-08-17 A thrilling, innovative novel about the interplay between nature and humankind by the author of Names on the Land. With Storm, first published in 1941, George R. Stewart invented a new genre of fiction: the eco-novel. California has been plunged into drought throughout the summer and fall when a ship reports an unusual barometric reading from the far western Pacific. In San Francisco, a junior meteorologist in the Weather Bureau takes note of the anomaly and plots “an incipient little whorl” on the weather map, a developing storm, he suspects, that he privately dubs Maria. Stewart’s novel tracks Maria’s progress to and beyond the shores of the United States through the eyes of meteorologists, linemen, snowplow operators, a general, a couple of decamping lovebirds, and an unlucky owl, and the storm, surging and ebbing, will bring long-needed rain, flooded roads, deep snows, accidents, and death. Storm is an epic account of humanity’s relationship to and dependence on the natural world.

What Stands in a Storm Kim Cross,2016-03 Enter the eye of the storm in this gripping real-life thriller—A Perfect Storm on land—that chronicles America’s biggest tornado outbreak since the beginning of recorded weather: a horrific three-day superstorm with 358 separate tornadoes touching down in twenty-one states and destroying entire towns. April 27, 2011 was the climax of a three-day superstorm that unleashed terror from Arkansas to New York. Entire communities were flattened, whole neighborhoods erased. Tornadoes left scars across the land so wide they could be seen from space. But from terrible destruction emerged everyday heroes—neighbors and strangers who rescued each other from hell on earth. “Armchair storm chasers will find much to savor in this grippingly detailed, real-time chronicle of nature gone awry” (Kirkus Reviews) set in Alabama, the heart of Dixie Alley where there are more tornado fatalities than anywhere else in the US. With

powerful emotion and captivating detail, journalist Kim Cross expertly weaves together science and heartrending human stories. For some, it's a story of survival; for others it's the story of their last hours. Cross's immersive reporting and dramatic storytelling catapult you to the center of the very worst hit areas, where thousands of ordinary people witnessed the sky falling around them. Yet from the disaster rises a redemptive message that's just as real: in times of trouble, the things that tear our world apart reveal what holds us together.

After the Storm Timothy Arthur, 2019-05-22

Blizzard!! the Great White Hurricane Timothy Minnich, 2019-12-30 THE BLIZZARD OF 1888, legendary in the annals of American weather history, was among the most ferocious winter storms ever to pound the Northeast. Many hundreds of people perished on land and sea during its three-day reign of terror, including some 200 in New York City alone - ground-zero for this storm. In his debut novel, Tim Minnich paints a vibrant New York City landscape in the weeks leading up to what has been coined The Great White Hurricane. Bound to fascinate weather enthusiasts, history buffs, and general readers alike, Minnich captures the suspense which culminates in this awesome display of nature, all while vividly depicting life in late Nineteenth Century Manhattan. On Sunday evening March 11th, the denizens of this great metropolis go to sleep completely unaware they'd be awakening to a howling blizzard. All except for young William Roebling, a brilliant meteorologist recently transferred to the New York Office of the US Army's fledgling Signal Service Corps - the agency responsible for the nation's first weather forecasts. Will has painstakingly developed an ingenious system allowing him to predict this historic event days in advance, but his unconvinced Commanding Officer, for political reasons, orders his silence. A conflicted Will feels he must alert his loved ones, and does - only to find himself in a battle for his life at the height of the storm. Minnich

deftly combines the drama and excitement of the blizzard with its profound impact on those unfortunate enough to have been caught in its path, simultaneously weaving an engaging tale of true love, faith, and the indomitable human spirit.

The Great Hurricane, 1938 Cherie Burns, 2007-12-01 "Before there was the Perfect Storm, there was the Great Hurricane of 1938. A riveting and wonderfully written account." —Nathaniel Philbrick On the night of September 21, 1938, news on the radio was full of the invasion of Czechoslovakia. There was no mention of any severe weather. By the time oceanfront residents noticed an ominous color in the sky, it was too late to escape. In an age before warning systems and the ubiquity of television, this unprecedented storm caught the Northeast off guard, obliterated coastal communities on Long Island and in New England, and killed nearly seven hundred people. The Great Hurricane, 1938 is a spellbinding hour-by-hour reconstruction of one of the most destructive and powerful storms ever to hit the United States. With riveting detail, Burns weaves together countless personal stories of loved ones lost and lives changed forever—from those of the Moore family, washed to sea on a raft formerly their attic floor, to Katharine Hepburn, holed up in her Connecticut mansion, watching her car take to the air like a bit of paper. "A very good book." —The Washington Post

Hurricane Audrey Post, Cathy Cagle, 2007-04-30 This narrative re-creates Hurricane Audrey through the eyes of the survivors in a combination of suspense, family drama, and the struggle for life over death. In the midnight hours of June 27, 1957, the hurricane exploded in intensity and speed, slamming into the sleeping coast at dawn 12 hours ahead of its predicted landfall. Many unsuspecting residents woke that morning to find water already inside their homes. Their ordeal transports the reader back to 1957 with a new appreciation and understanding of how Cameron Parish residents clung to life during the category-four storm.

Category 5 Ernest Zebrowski, Judith A. Howard, 2007-05-08 The epic story of the real victims of a perfect storm—overwhelmingly the poor—left behind in the aftermath of a deadly hurricane “A riveting new book.” —Tallahassee Democrat “Not simply an historical account of a storm thirty-seven years ago but a living, breathing entity brimming with the modern-day reality that, yes, it can happen again.” —American Meteorological Society Bulletin Fascinating, easy-to-read, yet informative.” —Richmond Times-Dispatch “Almost like sitting in front of the television watching the events unfold. A page-turner from the very first page.” —Ruston Morning Paper “There is much we can all learn from this relevant and highly engaging chronicle.” —Biloxi Sun Herald “A must-read for anyone who wants to take an emotional stroll through the rubble of these Gulf Coast fishing communities and learn what happened.” —Apalachicola Times “Should be required reading for anyone living in the path of these terrible storms.” —Moondance.org As the unsettled social and political weather of summer 1969 played itself out amid the heat of antiwar marches and the battle for civil rights, three regions of the rural South were devastated by the horrifying force of Category 5 Hurricane Camille. Camille’s nearly 200 mile per hour winds and 28-foot storm surge swept away thousands of homes and businesses along the Gulf Coast of Louisiana and Mississippi. Twenty-four

ocean-going ships sank or were beached; six offshore drilling platforms collapsed; 198 people drowned. Two days later, Camille dropped 108 billion tons of moisture drawn from the Gulf onto the rural communities of Nelson County, Virginia—nearly three feet of rain in 24 hours. Mountainsides were washed away; quiet brooks became raging torrents; homes and whole communities were simply washed off the face of the earth. In this gripping account, Ernest Zebrowski and Judith Howard tell the heroic story of America's forgotten rural underclass coping with immense adversity and inconceivable tragedy. Category 5 shows, through the riveting stories of Camille's victims and survivors, the disproportionate impact of natural disasters on the nation's poorest communities. It is, ultimately, a story of the lessons learned—and, in some cases, tragically unlearned—from that storm: hard lessons that were driven home once again in the awful wake of Hurricane Katrina. Ernest Zebrowski is founder of the doctoral program in science and math education at Southern University, a historically black university in Baton Rouge, Louisiana, and Professor of Physics at Pennsylvania State University's Pennsylvania College of Technology. His previous books include *Perils of a Restless Planet: Scientific Perspectives on Natural Disasters*. Judith Howard earned her Ph.D. in clinical social work from UCLA, and writes a regular political column for the Ruston, Louisiana, Morning Paper.
