**The Ninth Hour** Alice McDermott, 2017-09-19 A magnificent new novel from one of America's finest writers—a powerfully affecting story spanning the twentieth century of a widow and her daughter and the nuns who serve their Irish-American community in Brooklyn. On a dim winter afternoon, a young Irish immigrant opens a gas tap in his Brooklyn tenement. He is determined to prove—to the subway bosses who have recently fired him, to his pregnant wife—that “the hours of his life . . . belonged to himself alone.” In the aftermath of the fire that follows, Sister St. Saviour, an aging nun, a Little Nursing Sister of the Sick Poor, appears, unbidden, to direct the way forward for his widow and his unborn child. In Catholic Brooklyn in the early part of the twentieth century, decorum, superstition, and shame collude to erase the man's brief existence, and yet his suicide, though never spoken of, reverberates through many lives—testing the limits and the demands of love and sacrifice, of forgiveness and forgetfulness, even through multiple generations. Rendered with remarkable delicacy, heart, and intelligence, Alice McDermott's *The Ninth Hour* is a crowning achievement of one of the finest American writers at work today.

*Gabriel and the Hour Book* Evaleen Stein, 1906 Relates the story of the making of an hour book as a wedding gift from King Louis of France to Lady Anne of Brittany and the good fortune it brought to little Gabriel, Brother Stephen's color grinder.

The Happiest Hour Stefano Benni, 2013-09-30 T00:00:00+02:00 The happiest hour of our lives is the one we can not find, it is not in our past nor in the present or in the future. It escapes us, forcing us to chase it and then immediately doubt it. Yet we all have at least to tell ourselves we have one, so that we can be able to tell it. Who knows, maybe it was that time when we took, through disobedience, the right to happiness for ourselves...

Our Final Hour Martin Rees, 2009-03-17 A scientist known for unraveling the complexities of the universe over millions of years, Sir Martin Rees now warns that humankind is potentially the maker of its own demise -- and that of the cosmos. Though the twenty-first century could be the critical era in which life on Earth spreads beyond our solar system, it is just as likely that we have endangered the future of the entire universe. With clarity and precision, Rees maps out the ways technology could destroy our species and thereby foreclose the potential of a living universe whose evolution has just begun. Rees boldly forecasts the startling risks that stem from our accelerating rate of technological advances. We could be wiped out by lethal engineered airborne viruses, or by rogue nano-machines that replicate catastrophically. Experiments that crash together atomic nuclei could start a chain reaction that erodes all atoms of Earth, or could even tear the fabric of space itself. Through malign intent or by mistake, a single event could trigger global disaster. Though we can never completely safeguard our future, increased regulation and inspection can help us to prevent catastrophe. Rees's vision of the infinite future that we have put at risk -- a cosmos more vast and diverse than any of us has ever imagined -- is both a work of stunning scientific originality and a humanistic clarion call on behalf of the future of life.

*The Eleventh Hour* Jacques Goldstyn, 2023-08-15 A poignant First World War story of friendship Jim and Jules are childhood friends, born on the same day in the same village. All their lives, Jim has been first--born two minutes before Jules, always faster, always stronger. When the First World War breaks out in Europe, the two young men enlist in the fight with 30,000 other Canadians. On the Front, conditions aren't epic and glorious but muddy and barbaric. Here, too, Jim is the first to attack. Jules is always two minutes behind: lagging in drills, missing the boat, handed chores instead of honors. On November 11, 1918, Jim and Jules are sent out to fight one last time. Jim, always first over the top of the trench, is shot and dies at 10:58 am, two minutes before the Armistice takes effect at 11:00 am. New in paperback and illustrated by political cartoonist Jacques Goldstyn, this picture book, inspired by true events, is a simple, poignant, and thought-provoking story.

**Magic Hour** Kristin Hannah, 2006-02-28 From the #1 New York Times bestselling author of *The Nightingale* and *The Great Alone* comes an incandescent story about the resilience of the human spirit, the triumph of hope, and the meaning of home. In the rugged Pacific Northwest lies the Olympic National Forest--nearly a million acres of impenetrable darkness and impossible beauty. From deep within this old growth forest, a six-year-old girl appears. Speechless and alone, she offers no clue as to her identity, no hint of her past. Having retreated to her western Washington hometown after a scandal left her career in ruins, child psychiatrist Dr. Julia Cates is determined to

free the extraordinary little girl she calls Alice from a prison of unimaginable fear and isolation. To reach her, Julia must discover the truth about Alice's past—although doing so requires help from Julia's estranged sister, a local police officer. The shocking facts of Alice's life test the limits of Julia's faith and strength, even as she struggles to make a home for Alice—and for herself. "One of [Kristin Hannah's] most compelling and riveting novels."—Booklist

*The Woman's Hour* Elaine Weiss, 2018-03-06 Both a page-turning drama and an inspiration for every reader--Hillary Rodham Clinton Soon to Be a Major Television Event The nail-biting climax of one of the greatest political battles in American history: the ratification of the constitutional amendment that granted women the right to vote. With a skill reminiscent of Robert Caro, [Weiss] turns the potentially dry stuff of legislative give-and-take into a drama of courage and cowardice.--The Wall Street Journal Weiss is a clear and genial guide with an ear for telling language ... She also shows a superb sense of detail, and it's the deliciousness of her details that suggests certain individuals warrant entire novels of their own... Weiss's thoroughness is one of the book's great strengths. So vividly had she depicted events that by the climactic vote (spoiler alert: The amendment was ratified!), I got goose bumps.--Curtis Sittenfeld, The New York Times Book Review Nashville, August 1920. Thirty-five states have ratified the Nineteenth Amendment, twelve have rejected or refused to vote, and one last state is needed. It all comes down to Tennessee, the moment of truth for the suffragists, after a seven-decade crusade. The opposing forces include politicians with careers at stake, liquor companies, railroad magnates, and a lot of racists who don't want black women voting. And then there are the Antis--women who oppose their own enfranchisement, fearing suffrage will bring about the moral collapse of the nation. They all converge in a boiling hot summer for a vicious face-off replete with dirty tricks, betrayals and bribes, bigotry, Jack Daniel's, and the Bible. Following a handful of remarkable women who led their respective forces into battle, along with appearances by Woodrow Wilson, Warren Harding, Frederick Douglass, and Eleanor Roosevelt, *The Woman's Hour* is an inspiring story of activists winning their own freedom in one of the last campaigns forged in the shadow of the Civil War, and the beginning of the great twentieth-century battles for civil rights.

**The First 20 Hours** Josh Kaufman, 2013-06-13 Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out

what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, The First 20 Hours will help you pick up the basics of any skill in record time . . . and have more fun along the way.
