A Tale for the Time Being Ruth Ozeki,2013-03-12 A brilliant, unforgettable novel from bestselling author Ruth Ozeki, author of The Book of Form and Emptiness Finalist for the Booker Prize and the National Book Critics Circle Award “A time being is someone who lives in time, and that means you, and me, and every one of us who is, or was, or ever will be.” In Tokyo, sixteen-year-old Nao has decided there’s only one escape from her aching loneliness and her classmates’ bullying. But before she ends it all, Nao first plans to document the life of her great grandmother, a Buddhist nun who’s lived more than a century. A diary is Nao’s only solace—and will touch lives in ways she can scarcely imagine. Across the Pacific, we meet Ruth, a novelist living on a remote island who discovers a collection of artifacts washed ashore in a Hello Kitty lunchbox—possibly debris from the devastating 2011 tsunami. As the mystery of its contents unfolds, Ruth is pulled into the past, into Nao’s drama and her unknown fate, and forward into her own future. Full of Ozeki’s signature humor and deeply engaged with the relationship between writer and reader, past and present, fact and fiction, quantum physics, history, and myth, A Tale for the Time Being is a brilliantly inventive, beguiling story of our shared humanity and the search for home.

Korean Short Stories for Beginners Lingo Mastery,2020-09-29 Do you know what the hardest thing for a Korean learner is? Finding PROPER reading material that they can handle...which is precisely the reason we've written this book! You may have found the best teacher in town or the most incredible learning app around, but if you don't put all of that knowledge to practice, you'll soon forget everything you've obtained. This is why being engaged with interesting reading material can be so essential for somebody wishing to learn a new language. Therefore, in this book we have compiled 20 easy-to-read, compelling and fun stories that will allow you to expand your vocabulary and give you the tools to improve your grasp of the wonderful Korean language. How Korean Short Stories for Beginners works: - Each chapter possesses a funny, interesting and/or thought-provoking story based on real-life situations, allowing you to learn a bit more about the Korean culture. - Having trouble understanding Hangul? No problem - we provide you with the same story twice - one version fully in Korean and the other version with English translation added below each paragraph, allowing you to fully grasp what you are reading! - The summaries follow a synopsis in Korean and in English of what you just read, both to review the lesson and for you to see if you understood what the tale was about. - At the end of those summaries, you will be provided with a list of the most relevant vocabulary from that chapter, as well as slang and sayings that you may not have understood at first glance. - Finally, you'll be provided with a set of tricky questions in Korean, giving you the chance to prove that you learned something in the story. Don't worry if you don't know the answer to any - we will provide them immediately after, but no cheating! We want you to feel comfortable while learning Korean; after all, no language should be a barrier for you to travel around the world and expand your social circles! So look no further! Pick up your copy of Korean Short Stories for Beginners and level up your Korean language skills right now!

Life in the Iron-Mills Rebecca Harding Davis,2016-05-28 Before Women Had Rights, They Worked - Regardless. Life in the Iron Mills is a short story (or novella) written by Rebecca Harding Davis in 1861, set in the factory world of the nineteenth century. It is one of the earliest American realist works, and is an important text for those who study labor and women's issues. It was immediately recognized as an innovative work, and introduced American readers to the bleak lives of industrial workers in the mills and factories of the nation. Reviews: Life in the Iron Mills was initially published in The Atlantic Monthly, Vol. 0007, Issue 42 in April 1861. After being published anonymously, both Emily Dickinson and Nathaniel Hawthorne praised the work. Elizabeth Stuart Phelps Ward was also greatly influenced by Davis's Life in the Iron Mills and in 1868 published in The Atlantic Monthly The Tenth of January, based on the 1860 fire at the Pemberton Mills in Lawrence, Massachusetts. A History of Folding in Mathematics Michael Friedman,2018-05-25 While it is well known that the Delian problems are impossible to solve with a straightedge and compass – for example, it is impossible to construct a segment whose length is cube root of 2 with these instruments – the discovery of the Italian mathematician Margherita Beloch Piazzolla in 1934 that one can in fact construct a segment of length cube root of 2 with a single paper fold was completely ignored (till the end of the 1980s). This comes as no surprise, since with few exceptions paper folding was seldom considered as a mathematical practice, let alone as a mathematical procedure of inference or proof that could prompt novel mathematical discoveries. A few questions immediately arise: Why did paper folding become a non-instrument? What caused the marginalisation of this technique? And how was the mathematical knowledge, which was nevertheless transmitted and prompted by paper folding, later treated and conceptualised? Aiming to answer these questions, this volume provides, for the first time, an extensive historical study on the history of folding in mathematics, spanning from the 16th century to the 20th century, and offers a general study on the ways mathematical knowledge is marginalised, disappears, is ignored or becomes obsolete. In doing so, it makes a valuable contribution to the field of history and philosophy of science, particularly the history and philosophy of mathematics and is highly recommended for anyone interested in these topics.
