**The Storm** Chris Ord,2018-01-05 In the eye of the storm they are watching... A storm descends, a ship is wrecked. A young girl is found, alone and afraid. Villagers begin to vanish. And the sea begins to cry. A fierce storm envelopes a fishing village in Northumberland, and a ship the 'Embla' is wrecked on nearby rocks. The morning after, 'Big' Philip Jefferson, the lifeboat coxswain finds a young girl naked, and alive on the beach. Phil and his wife Mary take care of the girl, vowing to help her return home once the storm has ended. The girl is silent, mysterious, and some in the village are unsettled by her presence. When young men begin to disappear the suspicions grow and whispers spread. Tension mounts as more sinister events unfold, and the community becomes paranoid and divided. Who is this stranger? What is happening to the village? One man is determined to find the truth.

**Pushing the Envelope** Jt Storm,2008-06 War has changed over the past centuries. The war on terror and the hopes to change nations to democratic policies is an uphill and dangerous battle.

**The Lavender Envelope** J.J. Hansen,2017-08-04 The problem was the things I stored down deep started to fester and multiply. They rose up; I pushed them down. They were too deadly to expose, too dirty to air out. If I let even one escape into the light of day, they would all come tumbling out of their carefully sealed envelope and make a mess of this life, no - call it existence, I was trying to hold together. True life belonged to those who didnt hold envelopes stuffed with the terror and horror of a scared sixteen-year-old, turned angry twenty-two-year-old, turned bitter twenty-five-year-old. The thing is, I want to live. - J.J. Hansen As a teenager, author J.J. Hansen steeled her insides every time she walked into her mothers hospital wing. Years later, her poise under pressure earned accolades as she planned her fathers funeral. The Lavender Envelope is the story of what happened when she decided to quit being strong and move forward by going through the past instead of walking away from it. In essays woven with memory and metaphor she depicts the healing process that began when she tore open her envelope and determined to live.

Odoni,2013-03-09 This volume is a compendium of papers presented during the International Workshop on Air Traffic Management, which took place in Capri, Italy, on September 26-30, 1999. The workshop was organized by Italian National Research Council in co-operation with the University of Rome Tor Vergata, and the Massachusetts Institute of Technology (MIT). This was the fifth in a series of meetings held periodically over a ten-year span for the purpose of encouraging an exchange of views and findings by scientists in the field of Air Traffic Management (A TM). The papers presented at the workshop dealt with a wide range of topics and covered different aspects that are currently important in Air Traffic Control and Air Traffic Management. This volume contains only a subset of the papers presented, namely the ones that addressed the main area emphasis in the workshop, new concepts and methods. The subject of the first two papers is Collaborative Decision Making (CDM), a concept which embodies, to a large extent, the new philosophy of partial decentralization and increased delegation of responsibilities to users in A TM operations. In the first of these papers Wambsganss describes the original CDM project and its initial implementation in the form of the Ground Delay Program Enhancements. He also provides a brief description of some of the tools that have been developed as part of the CDM effort and identifies future research and development requirements.
