*Semiconductor Materials for Solar Photovoltaic Cells* M. Parans Paranthaman, Winnie Wong-Ng, Raghu N.

Bhattacharya, 2015-09-16 This book reviews the current status of semiconductor materials for conversion of sunlight to electricity, and highlights advances in both basic science and manufacturing. Photovoltaic (PV) solar electric technology will be a significant contributor to world energy supplies when reliable, efficient PV power products are manufactured in large volumes at low cost. Expert chapters cover the full range of semiconductor materials for solar-to-electricity conversion, from crystalline silicon and amorphous silicon to cadmium telluride, copper indium gallium sulfide selenides, dye sensitized solar cells, organic solar cells, and environmentally friendly copper zinc tin sulfide selenides. The latest methods for synthesis and characterization of solar cell materials are described, together with techniques for measuring solar cell efficiency. *Semiconductor Materials for Solar Photovoltaic Cells* presents the current state of the art as well as key details about future strategies to increase the efficiency and reduce costs, with particular focus on how to reduce the gap between laboratory scale efficiency and commercial module efficiency. This book will aid materials scientists and engineers in identifying research priorities to fulfill energy needs, and will also enable researchers to understand novel semiconductor materials that are emerging in the solar market. This integrated approach also gives science and engineering students a sense of the excitement and relevance of materials science in the development of novel semiconductor materials.

- Provides a comprehensive introduction to solar PV cell materials
- Reviews current and future status of solar cells with respect to cost and efficiency
- Covers the full range of solar cell materials, from silicon and thin films to dye sensitized and organic solar cells
- Offers an in-depth account of the semiconductor material strategies and directions for further research
- Features detailed tables on the world leaders in efficiency demonstrations
- Edited by scientists with experience in both research and industry

**Technology for Efficient Learner Support Services in Distance Education** Anjana, 2018-12-29 This book explores the ways in which technology is being used by various open universities in developing countries to extend learner support services to distance learners. It shares the best practices being followed by different open universities so that these may be replicated by other universities. It provides an overview of the use of various digital technologies, e-learning tools, eLearning platforms, virtual learning environments, and synchronous and asynchronous technologies in open and distance learning (ODL) systems. Moreover, it discusses the importance of ODL systems in providing inclusive education in developing countries through the use of ICT with a special focus on adult, rural and elderly learners, as well as the role of technology in science education through ODL system. A transformative model of sustainable collaborative learning is presented, integrating concepts based on theoretical frameworks to increase the flexibility and solve existing issues in developing countries, which may be used for policy changes in distance learning. It concludes by examining various challenges in successfully implementing technology for effective delivery of learner support services in distance education systems in developing countries and exploring the strategies required to overcome these challenges.

**Legal Aspects of HIV/AIDS**, 2007 This is an invaluable resource for lawyers, policy makers, and other practitioners with an interest in countries' responses to HIV/AIDS. *Legal Aspects of HIV/AIDS: A Guide for Policy and Law Reform* covers 65 wide-ranging topics in a concise, accessible format, explaining how laws and regulations can either underpin or undermine public health programs and responsible personal behavior. For each topic, the Guide summarizes the key legal or policy issues, provides relevant practice examples (citing actual laws and regulations), and offers a selective list of references that may be consulted for more information.

Laws relating to many areas of our lives - from intimate physical conduct to international travel - can contribute to stigma, discrimination, and exclusion or, contrariwise, can help remedy these inequities. In order to create a supportive legal framework for responding to HIV/AIDS, it is important that governments effectively address gaps and other problematic aspects in their legislation and regulatory systems. This book, written by a team of leading legal experts, helps them do so.

Caring for Our People Yoke Toh Tong, Sheela Narayanan, 2015

*Southeast Asia and the ASEAN Economic Community* Roderick Macdonald, 2019-09-03 This book is an introduction to the ASEAN Economic Community (AEC), the economic community founded by Southeast Asian nations. It provides both economic profiles of the member nations and an explanation of the Community itself. This book also discusses the impact of China on the AEC. The book is a starting point for research into the region or into any member country, whether for academic or for business purposes. With over 170 tables and figures as well as an abundance of historical facts, the book offers data-based insights.

*The Human in Command* Carol McCann, Ross Pigeau, 2012-12-06 This book brings together experienced military leaders and researchers in the human sciences to offer current operational experience and scientific thought on the issue of military command, with the intention of raising awareness of the uniquely human aspects of military command. It includes chapters on the personal experiences of senior commanders, new concepts and treatises on command theory, and empirical findings from experimental studies in the field.

*Oil Price Uncertainty* Apostolos Serletis, 2012 The relationship between the price of oil and the level of economic activity is a fundamental issue in macroeconomics. There is an ongoing debate in the literature about whether positive oil price shocks cause recessions in the United States (and other oil-importing countries), and although there exists a vast empirical literature that investigates the effects of oil price shocks, there are relatively few studies that investigate the direct effects of uncertainty about oil prices on the real economy. The book uses recent advances in macroeconomics and financial economics to investigate the effects of oil price shocks and uncertainty about the price of oil on the level of economic activity.

**Singapore's Health Care System** K. E. T. Al SATKU, 2015-11-13 How did Singapore's health care system transform itself into one of the best in the world? It not only provides easy access, but its standards of health care, not only in curative medicine but also in prevention, are exemplary. Fifty years ago, the infant mortality rate (IMR) was 26 per thousand live births; today the IMR is 2. Life expectancy was 64 years then; today, it is 83. The Singapore Medicine brand is trusted internationally, and patients are drawn to Singapore from all over the world. And while many countries struggle to finance their health care, Singapore has developed a health care financing framework that makes health care affordable for its people and gives sustainability to the health care system. Reliability is provided by a professional workforce that seeks to continually learn, improve and become ever more proficient with cutting edge technology while emphasizing the relational aspects of health care by nurturing compassion and maintaining high standards of integrity. Convenience and safety are enhanced by a unifying IT system that enables the portability of medical records across health care institutions. All these have been achieved not by chance but by careful planning, strong leadership and dedicated people who are prepared to learn from Singapore's own experience while adapting best practices from around the world. But the system is not without challenges -- not least those of an aging population, and an increasing market influence. This book provides a fascinating insight into the development of Singapore's health care system from the early days of fighting infections and providing

nutrition supplementation for school children, to today's management of lifestyle diseases and high-end tertiary care. It also discusses how the system must adapt to help Singaporeans continue to live well, live long, and with peace of mind.--

*Brownlie's Principles of Public International Law* James Crawford, Ian Brownlie, 2019 Serving as a single volume introduction to the field as a whole, this ninth edition of Brownlie's Principles of International Law seeks to present international law as a system that is based on, and helps structure, relations among states and other entities at the international level.

Management Angelo Kinicki, Brian K. Williams, 2010-10-01 Blending scholarship and imaginative writing, ASU business professor Kinicki (of Kreitner/Kinicki Organizational Behavior 8e) and writer Williams (of Williams/Sawyer Using Information Technology 7e and other college texts) have created a highly readable introductory management text with a truly unique student-centered layout that has been well received by today's visually oriented students. The authors present all basic management concepts and principles in bite-size chunks, 2- to 6-page sections, to optimize student learning and also emphasize the practicality of the subject matter. In addition, instructor and students are given a wealth of classroom-tested resources.

*First Nations Policing Policy* Canada. Solicitor General Canada, 1996-01-01 The First Nations Policing Policy (FNPP) was introduced by the federal government in June 1991 to provide First Nations across Canada with access to police services that are professional, effective, culturally appropriate, and accountable to the communities they serve. This guide reflects the changes approved by the government and replaces the earlier guide which was published in 1992.

A Life Turned Upside Down: My Dad's an Alcoholic Mariko Kikuchi, 2021-11-02 Mariko Kikuchi tells the painful story of her father's alcoholism and her own journey through guilt to understanding her father's illness. She rejects the common belief that family members can and should be forgiven for anything they do, no matter how much harm they cause. This powerful, self-contained autobiographical manga began as a web series that went viral, and inspired a critically acclaimed 2019 film in Japan.

**Cheap at Half the Price** Jeffrey Archer, 2017-05-02 In Cheap at Half the Price, by #1 New York Times bestselling author and master of the short story Jeffrey Archer, the conniving Consuela Rosenheim hunts down her ideal birthday present – and next husband – in London. Will she accomplish her biggest swindle yet, or will she finally get her just desserts? The wily woman is, as Archer opens, “naturally superior to men,” and a pure joy for Archer fans new and old.

*Construction Safety* Rita Yi Man Li, Sun Wah Poon, 2013-03-01 A close-to-ideal blend of suburb and city, speedy construction of towers of Babylon, the sparkling proportion of glass and steel buildings' facade at night showcase the wisdom of humans. They also witness the footsteps, sweats and tears of architects and engineers. Unfortunately, these signatures of human civilizations are swathed in towering figures of construction accidents. Fretting about these on sites, different countries adopt different measures on sites. This book firstly sketches the construction accidents on sites, followed by a review on safety measures in some of the developing countries such as Bermuda, Egypt, Kuwait and China; as well as developed countries, for example, the United States, France and Singapore. It also highlights the enormous compensation costs with the courts' experiences in the United Kingdom and Hong Kong.

**HM Treasury Analysis**, 2016 On 23 June 2016, the British people will make the most important decision for a generation - whether the United Kingdom (UK) should remain a member of the European Union (EU). This document provides rigorous and objective economic analysis of the long-term impact of remaining a member of the EU compared to the alternatives. The HM Treasury

analysis uses a widely adopted gravity modelling approach, which distinguishes the specific effect of EU membership and the alternatives from all the other influences that determine trade and foreign direct investment (FDI). The consequences for productivity and Gross Domestic Product (GDP) are then estimated based on the most relevant external evidence on the impact of trade and HM Treasury modelling of FDI. Through a range of realistic assumptions, many of them cautious, the HM Treasury analysis produces robust estimates, which are within the range of external studies.--Executive summary.

Questions of Identity Robert B. Pynsent,1994 Questions of Identity treats four varieties of conceptions of individual and social identity. This interdisciplinary book describes and analyzes four trends of thought that have prevailed at one time in most of Europe over the last two centuries: the idea of the responsible citizen, the concept of patriotism or nationalism, the loss of self, and suffering as a formative element in the national character. In a section devoted to Václav Havel, Pynsent treats Havel's notion of personal identity as expressed in personal responsibility. Another section concerning national identity looks in particular at two early nineteenth-century Slovaks who rejected Slovak nationalism and whose ideas ultimately had a profound impact on East European thinking on nationality up to the fall of communism. A third section deals with the beginnings of Modernism and the apparent disintegration of the self in West European and Czech writers. The final section addresses Vladimír Páral's expositions of the Czech cult of national martyrs since St. Wenceslas and the extent to which the martyr complex remains part of Czech self-identification.
