Card Sorting Donna Spencer, 2009-04-01 Card sorting helps us understand how people think about content and categories. Armed with this knowledge, we can group information so that people can better find and understand it. In this book, Donna describes how to plan and run a card sort, then analyse the results and apply the outcomes to your project.

ACS Carolyn Manville Baum, Dorothy Edwards, 2008-01-01 Activity Card Sort, 2nd Edition (ACS) is a flexible and useful measure of occupation that enables occupational therapy practitioners to help clients describe their instrumental, leisure, and social activities. The format's 89 photographs of individuals performing activities and 3 versions of the instrument (Institutional, Recovering, and Community Living) is easily understood and administered. Using the ACS will give clinicians the occupational history and information they need to help clients build routines of meaningful and healthy activities. Includes 20 instrumental activities, 35 low-physical-demand leisure activities, 17 high-physical-demand leisure activities, and 17 social activities and allows for the calculation of the percentage of activity retained.

Fair Play Eve Rodsky, 2021-01-05 AN INSTANT NEW YORK TIMES BESTSELLER • A REESE'S BOOK CLUB PICK Tired, stressed, and in need of more help from your partner? Imagine running your household (and life!) in a new way... It started with the Sh*t I Do List. Tired of being the “shefault” parent responsible for all aspects of her busy household, Eve Rodsky counted up all the unpaid, invisible work she was doing for her family—and then sent that list to her husband, asking for things to change. His response was...underwhelming. Rodsky realized that simply identifying the issue of unequal labor on the home front wasn't enough: She needed a solution to this universal problem. Her sanity, identity, career, and marriage depended on it. The result is Fair Play: a time- and anxiety-saving system that offers couples a completely new way to divvy up domestic responsibilities. Rodsky interviewed more than five hundred men and women from all walks of life to figure out what the invisible work in a family actually entails and how to get it all done efficiently. With 4 easy-to-follow rules, 100 household tasks, and a series of conversation starters for you and your partner, Fair Play helps you prioritize what's important to your family and who should take the lead on every chore, from laundry to homework to dinner. “Winning” this game means rebalancing your home life, reigniting your relationship with your significant other, and reclaiming your Unicorn Space—the time to develop the skills and passions that keep you interested and interesting. Stop drowning in to-dos and lose some of that invisible workload that's pulling you down. Are you ready to try Fair Play? Let's deal you in.

Information Architecture for the World Wide Web Louis Rosenfeld, Peter Morville, 2002 Today's web sites and intranets are larger, more valuable, and more complex than ever before, and their users are busier and less forgiving. Designers, information architects, and web site managers are required to juggle vast amounts of information, frequent changes, new technologies, and corporate politics, making some web sites look like a fast-growing but poorly planned city -roads everywhere, but impossible to navigate. A well-planned information architecture has never been as essential as it is now. Information Architecture for the World Wide Web, Second Edition, shows how to use both aesthetics and mechanics to create distinctive, cohesive web sites that work. Most books on web development concentrate either on the graphics or on the technical issues of a site. This book focuses on the framework that holds the two together. By applying the principles outlined in this completely updated classic, you'll build scalable and maintainable web sites that are easier to navigate and more appealing to your users. Using examples and case studies, Information Architecture for the World Wide Web will help you: Develop a strong, cohesive vision for your site that makes it both distinctive and usable; Organize your site's hierarchy in ways that are meaningful to its users and that minimize the need to re-engineer the site; Create navigation systems that allow users to move through the site without getting lost or frustrated; Accurately label your site's content; Organize your site in a way that supports both searching for specific items and casual browsing; Configure search systems so that users' queries actually retrieve meaningful results; Manage the process of

developing an information architecture, from selling the concept to research and conceptual design to planning and production. The world will be a better place when web designers read this book. It's smart, funny, and artfully distills years of the authors' hard-won experience. Information Architecture for the World Wide Web tackles political/organizational challenges as well as content, structure, and user interface. This is not design-lite, but a deep treatment of fundamental issues of information presentation that advances the state of the art. It's light years ahead of the competition. - Bonnie Nardi, Co-author of Information Ecologies- Using Technology with Heart

The Thriving Adolescent Louise L. Hayes, Joseph V. Ciarrochi, 2015-11-01 Adolescents face unique pressures and worries. Will they pass high school? Should they go to college? Will they find love? And what ways do they want to act in the world? The uncertainty surrounding the future can be overwhelming. Sadly, and all too often, if things don't go smoothly, adolescents will begin labeling themselves as losers, unpopular, unattractive, weird, or dumb. And, let's not forget the ubiquitous 'not good enough' story that often begins during these formative years. These labels are often carried forward throughout life. So what can you do, now, to help lighten this lifelong burden? The Thriving Adolescent offers teachers, counselors, and mental health professionals powerful techniques for working with adolescents. Based in proven- effective acceptance and commitment therapy (ACT), the skills and tips outlined in this book will help adolescents and teens manage difficult emotions, connect with their values, achieve mindfulness and vitality, and develop positive relationships with friends and family. The evidence-based practices in this book focus on developing a strong sense of self, and will give adolescents the confidence they need to make that difficult transition into adulthood. Whether it's school, family, or friend related, adolescents experience a profound level of stress, and often they lack the psychological tools to deal with stress in productive ways. The skills we impart to them now will help set the stage for a happy, healthy adulthood. If you work with adolescents or teens, this is a must-have addition to your professional library.

Stop Self-Sabotage Judy Ho, PhD, 2019-08-20 Award-winning clinical psychologist and TV personality Dr. Judy Ho helps you stop the cycle of self-sabotage, clear a path to lasting happiness, and start living your best life in this a must-have guide perfect for fans of *You Are a Badass*, *Unfuck Yourself*, and *How to Stop Feeling Like Sh*t*. Have you ever had a deadline for a big work project, only to find yourself down to the wire because you spent too much time on social media? Or gotten excited about meeting someone new, only to convince yourself he isn't really interested? How many Januarys have you resolved that this is the year you're finally going to lose the weight, only to abandon your diet in just a few weeks? If these scenarios sound familiar, you are stuck in a cycle of self-sabotage. At one point or another, we've all done something that undermines our best interests and intentions. Even the most successful people get in their own way—often without realizing it. In *Stop Self-Sabotage*, licensed clinical psychologist, tenured professor, and television personality Dr. Judy Ho takes a fresh look at self-sabotage to help us answer two vital questions: Why do we do it? How do we stop? Combining therapeutically proven strategies with practical tools and self-assessments, Dr. Judy teaches you how to identify your triggers, modify your thoughts and behaviors, find your true motivation, and unlock your willpower to stop this vicious cycle in its tracks. Practical and transformative, *Stop Self-Sabotage* is your ultimate guide to jumpstart lasting, positive change and start living the life you want.

Dare to Lead Brené Brown, 2018-10-09 #1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer

that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

A GRIEF OBSERVED (Based on a Personal Journal) C. S. Lewis, 2023-12-05 *A Grief Observed* is a collection of Lewis's reflections on the experience of bereavement following the death of his wife, Joy Davidman, in 1960. The book was first published under the pseudonym N.W. Clerk as Lewis wished to avoid identification as the author. Though republished in 1963 after his death under his own name, the text still refers to his wife as H (her first name, which she rarely used, was Helen). The book is compiled from the four notebooks which Lewis used to vent and explore his grief. He illustrates the everyday trials of his life without Joy and explores fundamental questions of faith and theodicy. Lewis's step-son (Joy's son) Douglas Gresham points out in his 1994 introduction that the indefinite article 'a' in the title makes it clear that Lewis's grief is not the quintessential grief experience at the loss of a loved one, but one individual's perspective among countless others. The book helped inspire a 1985 television movie *Shadowlands*, as well as a 1993 film of the same name. Clive Staples Lewis (1898-1963) was a British novelist, poet, academic, medievalist, lay theologian and Christian apologist. He is best known for his fictional work, especially *The Screwtape Letters*, *The Chronicles of Narnia*, and *The Space Trilogy*, and for his non-fiction Christian apologetics, such as *Mere Christianity*, *Miracles*, and *The Problem of Pain*.

There Is No Good Card for This Kelsey Crowe, Emily McDowell, 2017-01-17 The creator of the viral hit *Empathy Cards* teams up with a compassion expert to produce a visually stunning and groundbreaking illustrated guide to help you increase your emotional intelligence and learn how to offer comfort and support when someone you know is in pain. When someone you know is hurting, you want to let her know that you care. But many people don't know what words to use—or are afraid of saying or doing the wrong thing. This thoughtful, instructive guide, from empathy expert Dr. Kelsey Crowe and greeting card maverick Emily McDowell, blends well-researched, actionable advice with the no-nonsense humor and the signature illustration style of McDowell's immensely popular *Empathy Cards*, to help you feel confident in connecting with anyone experiencing grief, loss, illness, or any other difficult situation. Written in a how-to, relatable, we've-all-been-that-deer-in-the-headlights kind of way, *There Is No Good Card for This* isn't a spiritual treatise on how to make you a better person or a scientific argument about why compassion matters. It is a helpful illustrated guide to effective compassion that takes you, step by step by step, past the paralysis of thinking about someone in a difficult time to actually doing something (or nothing) with good judgment instead of fear. *There Is No Good Card for This* features workbook exercises, sample dialogs, and real-life examples from Dr. Crowe's research, including her popular *Empathy Bootcamps* that give people tools for building relationships when it really counts. Whether it's a coworker whose mother has died, a neighbor whose husband has been in a car accident, or a friend who is seriously ill, *There Is No Good Card for This* teaches you how to be the best friend you can be to someone in need.
